

NOVEMBER SONG.

When the fields are ripe and yellow,
When the leaves are shrunk and sere,
If thy thoughts are mild and mellow,
Sing, and praise the fading year;
If thy heart is full of groaning,
If thine eyes are near to weep,
Vex not Nature with thy moaning,
When she folds her robe to sleep.

All things have their times and seasons,
Nought that lives from change is free;
God is wise: and for good reasons

Birth and growth and death must be.
All things find their fitting places,
High and low, and great and small,
Kings and peoples, creeds and races,
In the wonder of the All.

Art thou young—be bold and daring,
Flap thy wing, and spur thy pace,

Fruitful labor never sparing,
Where a spade may find a place.

Art thou old—in quiet corner
Live from fretful labor free,

Wise with faithful hand to garner
Life's rich fruitage stored for thee.

And when death comes, ugly spectre,
Spare thy hand the fruitless blow;
Bow thy head: the great Director,
Wisely willing, willed it so.

Death must be: and in the keeping
Of harsh frost all life must lie,

Till God shall please to rouse from
sleeping

All from God that may not die!

Sol.

A patient writes: "I sleep well, my appetite is good, and my digestion is much improved." This is the uniform testimony of those who use Compound Oxygen. Our Treatise on Compound Oxygen, its nature, action, and results, with reports of cases and full information, sent free. Drs. Starkey & Palen, 1109 Girard Street, Philadelphia, Pa.

All orders for the Compound Oxygen Home Treatment directed to H. E. Mathews, 606 Montgomery Street, San Francisco, will be filled on the same terms as if sent directly to us in Philadelphia.

THE RESURRECTION.—One of Faraday's workmen by accident dropped a little highly valued silver cup into a strong acid bath. In a little while it had utterly disappeared. But when Faraday came in and learned of it, he said nothing but cast another acid into the jar, and the silver soon precipitated—a shapeless mass, indeed, but every grain there. A few days after it came back a more beautiful cup, from the hands of the silversmith. May not God as readily restore our bodies after the decay and disorganization of death?—*George F. Pen-ecost.*

Teacher of Instrumental Music.

MISS E. MCFADDEN,

Teacher of Painting and Drawing.

W. E. YATES, A. M.,

Secretary of the Faculty.

Such Assistants as are needed will be engaged as the session advances

LOCATION.

Monmouth, the seat of Christian College, is a village of about 400 inhabitants, noted for their morality and devotion to the cause of education. The Oregonian Railway passes through the middle of the town, giving daily connection with Portland, and affording the means for easy travel and rapid freights. In addition to a passenger depot in the middle of town, the O. & C. R. B. passes through Independence, two miles away, and the steamers plying the Willamette land there also; making Monmouth one of the most easy towns of access in the State. Parents who desire to place their children under good educational advantages, where they shall be free from the intemperance and immorality prevalent in the larger towns, will find in Monmouth just what they desire in these respects. It is a school town, built up for this purpose, and all other interests center in this one. Hence its superiority for educational purposes.

ADVANTAGES.

The Faculty is the most important element to the successful working of any institution of learning. The Board of Trustees have sought to put in the various chairs of Christian College men of marked ability, of established success in their respective departments, and who are just in the maturity of life. At the hands of these men they expect to see Christian College among the most honored institutions of the land.

BUILDING.—Only one wing of the new brick College building has been completed, and this is being remodeled and greatly improved this year. It contains three working stories of large, airy and well lighted rooms, used for study and recitation. The old College building adjoining has been thoroughly overhauled and converted into a pleasant and commodious chapel.

Apparatus sufficient for ordinary purposes of illustration, is now provided, and additions will be made from time to time. The Library contains a few volumes of interest, and new volumes of value will be added as fast as the means at our command will allow.

DISTINCTIVE FEATURES.

The features of Christian College to which we especially invite attention, as distinctive of our work are as follows:

CHRISTIAN MORALITY.—The Bible is read every day and lectures calculated to impress its morality are given, and with the Bible as a basis, the effort to impress the highest Christian morality as the guiding principle in the lives of our students. Dogmatism and Sectarianism are carefully avoided. We ignore all religious or political divisions, and encourage great freedom of thought, and aim to stand on that high plane where Protestant or Catholic, Democrat or Republican, can meet on one common level.

PRACTICAL EDUCATION.—The great demand of the times is for men of action. An institution of learning to meet the needs of the people, should not only impart instruction, but along with the knowledge gained, give students the power to use it to advantage for themselves and others.

The idea of Christian College is, that the finest mental culture and the greatest benefit may be obtained by the study of those things that will fit young men and women to at once enter some pursuit or business, and carry it forward successfully. Instead of those branches that are simply ornamental, we prefer those that are useful, and we invite comparison and criticism on our work. Our aim is to graduate young men and women so that they may at once enter upon the pursuits of life.

DEPARTMENTS.

MATHEMATICS.—The Course of Study in this department is very full. The various branches are taught from a practical standpoint, with a view to the application of each principal to such affairs as people meet with in life and desire to understand.

ENGLISH LANGUAGE AND LITERATURE.—A ready command of our own tongue, with an accurate knowledge of its history and authors, is one of the most important acquisitions. No other accomplishment can supply the want of this. It can only be acquired by a thorough study of English. In Christian College the course of English extends through four years and we consider this one of our most valuable features.

SCIENCES.—The rapid advance made in the various departments of Science and the rapid succession of discoveries of new principles and applications, constitute one of the wonders of the age. No man can claim to be educated who is not conversant with the present advanced stage of Science. Very thorough work is made of all these, assisted by the use of the apparatus at our command. Sufficient time is allowed for a comprehensive understanding of the great principles of each science.

ANCIENT LANGUAGES.—By pursuing the best methods, the progress in acquiring a knowledge of the Greek and Latin languages, is rapid. We have dropped several authors that are frequently read in Colleges, with a view to doing better work in those that are read, and to give more time for the pursuit of the course in English and the Sciences. Experience has demonstrated that both better linguists and scientists result from this course.

BIBLICAL LITERATURE AND EXEGESIS.—This department was organized in Christian College for the first time with the opening of the present session. The object is to study the Sacred Scriptures analytically and critically, with contemporaneous profane history, and evidences of Christianity. Methods of sermonizing, pulpit oratory, methods in revival meetings and the care of churches, are all carefully investigated. It is this department that the Christian brotherhood, as a body, are particularly interested in. The interest of the church is carefully considered in this, while all other departments are wholly free from any religious discussions, except the uniformly recognized principles of Christian morality.

COMMERCIAL DEPARTMENT.

Every facility is here afforded for fitting young persons to successfully carry on any kind of business. The best authors are studied on the various subjects, and such practical tests are made as will insure thoroughness on the part of the student.
