

The Progress of Disease.

We so unwilling to admit the presence of disease, fall a ready prey to the grim destroyer whose insidious approach, subtle progress and unseen workings, develops such fatal results. Let us be warned in time, lest it be "too late."

Are You Sure It Is Consumption?

Many thousands fully believe they or their friends are being hurried toward the grave by that terrible disease Consumption, and are being treated for that disease, when they have only CATARRH in some of its many types; the symptoms in many forms of these diseases are quite similar and can easily be mistaken. Catarrh, unalarming in its character and beginnings, neglected, develops and spreads, and in time poisons the vital organs, until it finally is no longer "ONLY CATARRH," but some disease that gives but little hope of health or life. We do not claim to cure Consumption, but are fully convinced from the results of our daily practice that we can save and restore to health many who now feel their case to be hopeless.

Danger Signals.

Do you take cold easily? Have you a cold in the head that does not get better? Have you a hacking cough? Is your throat affected? Are you troubled with hoarseness? Soreness of the throat? Difficulty in breathing? Have you a pain in the head between and above the eyes? A sense of fullness in the head? Are the passages of the nose stopped-up? Is your breath foul? Have you lost sense of smell? Are you troubled by hawking? Spitting? Weak, inflamed eyes? Dullness or dizziness of the head? Dryness or heat of the nose? Is your voice harsh or rough? Have you any difficulty in talking? Have you an excessive secretion of mucus or matter in the nasal passages, which must either be blown from the nose, or drop back behind the palate, or hawked or snuffed backward to the throat? Ringing or roaring or other noises in the ears, more or less impairment of the hearing?

If so, you have Catarrh.

Some have all these symptoms, others only a part. Some of these symptoms indicate that the disease has passed from the head and has attacked the throat and bronchial tubes, and is effecting the lungs and other vital organs of the body, and as the disease is stopped, its ravages will effect and endanger the life. In some cases Catarrh is only a local disease, and requires only local treatment. But in old or neglected cases the whole system becomes poisoned by the disease and a constitutional treatment is necessary to assist in expelling it from the organism.

Some Bad Symptoms.

The long continued corruption of the air that is breathed passing over the matter in the nasal passages, poisons the lungs and from thence the blood. Morbid matter that is swallowed during sleep, passes into the stomach, endangers the digestion, vitiates the secretions and pollutes the very fountains of life. The patient becomes feverish occasionally, there is less buoyancy of spirits,

the appetite is often fickle, the head less clear, it is difficult to keep the energies up to the old standard, and often without knowing why, he is conscious that he is not as well all the time as he used to be. These symptoms indicate that the vital organs are becoming impaired so that they cannot perform their natural healthy functions. Our constitutional treatment is devised to assist nature in removing all poisonous material from the system and to neutralize and counteract its baneful effects on the vital organs and on the blood.

Do Not Trifle With Disease.

We have the only known certain and reliable method for the cure of Nasal Catarrh, Throat and Lung disease; it is regarded by the best of judges as being the most complete treatment ever devised. Indeed, there does not appear to be anything lacking in its perfect adaptation to these diseases in all their loathsome, painful and dangerous developments. Each case is examined into carefully and critically and the whole treatment compounded to meet the wants of each individual. To this fact alone, much of our success is due, and we think no case is incurable when our questions are properly answered. Fifteen years of constant practice with thousands of patients all over the country have enabled us to bring the application of our Remedies to the highest point of perfection. Do not trifle then with some cheap so called "Cure" which at best can afford but temporary relief, (while the roots of the vile disease are left to strike deeper and deeper,) but be in earnest and be thorough or do nothing! You have been years in contracting the disease; you cannot be rid of it in a day, or with one application of any medicine.

The Experience of Others.

The record is a guarantee that Childs' Treatment for Catarrh and all diseases of the Head, Throat and Lungs is not new and untried, but a positive and certain remedy. We, above all things, desire to establish confidence in our treatment, so that every sufferer from Catarrh, Bronchitis and their effects on the Lungs and other Vital Organs, may feel certain of success in its use.

Only Fair.

We deem it only fair that every one who wishes should have the opportunity to ascertain whether we are able to accomplish all that we claim; and for this purpose we add a few of the many thousands of unsolicited certificates which have been sent us by grateful patients—almost any of whom will doubtless respond to any inquiry by letter, if accompanied by a stamp to pay postage. Having been cured themselves, they will be willing to let the afflicted know where they can find certain relief. We have thousands of these certificates from all classes—physicians, clergymen, lawyers, judges, merchants, bankers, business men, farmers, young women and old, children and adults.

Mr. Z. Z. Lee, of Grangeville, St. Helena Par. La., writes: I cannot speak too highly in praise of your valuable remedies which act like a charm in relieving the loathsome disease for which they are recommended.

You may use my name, also that of my wife; we have both been cured by your treatment. We recommend your remedies to all we hear saying they have Catarrh. We can do it with pleasure and conscientiously, for we know of what we speak.

L. W. Spayd, Colorado Springs, Col.

I was thought to have had consumption, and had suffered many years with what was really Catarrh, before I procured your treatment. I have had no return of the disease.

Being one of your cured patients, I recommend your treatment to all I find troubled with Catarrh. Respectfully,

Mrs. John Sullivan, 153 Dorman St., Indianapolis, Ind.

I write to tell you that I am perfectly cured of Catarrh. O. P. Wise, Magnolia, Ark.
