They come down from the mountains in the fall where the grass is large and the climate warm. Sickness, with the exception of colds, is unknown here. Yesterday I interviewed an Indian prophet who was spearing salmon in Pine creek, and he said the winter would be very light and the snow fall "tenas hi-n." If his prophecy proves true and the signs of the times indicate it, the new-comers to this country will be fortunate. Riding over the broad and rolling prairie the other day, we saw quite a number of new shanties with families

living in them.

## EASTERN.

A national scandal is likely to grow out of a report of the commissioner sent to the Yellowstone Park. He discloses an utter disregard to the laws made for the preservation of the game and natural curiosities supposed to abound therein. The first is systematically slaughtered to supply the hotel and other tables, and the last the superintendents of the geysers and springs deal in with tourists extensively, and the postmaster adds to his compensation by dealing in these specimens, keeping on hand a full display in his office.

Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs: none so trifled with by the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

## A Terrible Cough Cured.

"In 1857 I took a severe cold, which affected my lungs. I had a terrible cough, and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved me."

HORACE FAIRBROTHER.

Rockingham, Vt., July 15, 1882.

## Croup.—A Mother's Tribute.

"While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small and frequent doses, and to our delight in less than half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours,

MRS. EMMA GEDNEY.

159 West 128th St., New York, May 16, 1882.

JOSEPH WALDEN.

"I cannot say enough in praise of AYER'S CHERRY PECTORAL, believing as I do that but for its use I should long since have died from lung troubles."

E. BRADON.

Palestine, Texas, April 22, 1882.

No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will always cure when the disease is not already beyond the control of medicine.
