How to Conduct a DIY Home Energy Audit

By [Name]

Don't let energy inefficiencies affect your home's comfort or your utility usage.

For information about innovative and cost-saving energy efficiency options, visit www.WindowWorld.com.

Change Behavior

Do an audit of not only your home's features, but of the occupants as well. Are lights left on in empty rooms? Is the television on when no one is watching it? From switching to cold water laundry cycles to taking advantage of sunlight for warmth and light — modifications of energy and cost-saving resources don't need to be a sacrifice.

To save energy, improve the comfort of your home and do your part to be more environmentally conscientious, conduct a do-it-yourself energy audit. You'll likely discover many areas in your home that should be improved.
