3 Although there are no decided deviations in the main lines upon which diseases are contagious, and that fashion is moving, there is an endless due to the presence of living para. Saturda series of innovations in minor characteristics. Taking the single item of the corsage, the styles are legion. Very often they are most effectively made of fragments put together with such picturesque effect that they out vie many a richer style made of a single material. When two or three fabries combine to form a single material. When two or three fabries combine to form a single corsage. piece that points like a girdle in the immediate front. At each side of this piece are set silk-lined revers, or lapels of material of which the corsage is composed. Next to these come two more revers of plain silk or velvet again. All these revers narrow to on inch and a half as they reach the

inch and a half as they reach the neck.

Gradually we are returning to larger shapes in hats, and low crowns and wide brims are once again distinguioning features in millinery. It has now become quite a fashion to turn the natty sailor hat up of one side or in the back instead of leaving it straight all around. The sailor hat is still very popular, both in London and Paris, and mong imported models appears with an unusually wide tein. Many of these brims are covered on the under side with a braid in contrast to the one outside, this designed to represer , and thus dispense

signed to represent, and thus dispense with, a silk or velvet facing.

Crushed strawberry is a color the is designed to be as populates it was two years ago, when it was the rage. This shade will appear in costumes as warmer weather advances. Very warmero weather advances. Very lovely and delicate tints are shown in India cashmere, silk-wrap Henrietta cloth, and faille Française. Primrose yell ov is another color which is to rage. A charming gown made in simple but exquisito fashion, on this shade, a cream yellow, shows a full-shirred bodice gathered into a pearl-embroidered neck-band, a wide sharply pointed Swiss girdle marking the waist. This is not extraneous, but formed of material—bookee and shirt being one—and deftly shaped by means of classical shapes combing. French smooting or honey-combing. This is very cleverly done, for below the belt the material facts again in exquisite folds. The sleees of the own are set in very full at tio armholes, and again shirred below the elbow. Half of the very deep turn-back bow. Half of the very deep turn-back cuff is smooked, the upper portion a they are making the training the cuff is smooked. flat band, covered with pearl emboidery matching the color-decora-

The figured linen, batiste and cambric shirtwais worn last year, those box-plaited, and made of plain linen or cambric, mished with briarstitching at all the edges, will again thirty-two yes I has 6 be seen next season over skirts of oxy doctors and druces sots. This is a neat, dainty was urged by one which and stylish fashion for neglige toilets complaint, but had been for the morning, and the ofore likely to survive ueil the autumn. Smocking two years I have the will be used in their construction- from that terito aims eiter thee will be a smocked yoke, the fullness below gothered into a narrow waist-band, or otherwise the upper pouring of could discontinuous portion of the bodice will be full and unshirred, ond a smocked Swiss Ond will define the waist. Roman-red and cream-white flanner will also be used for Garibaldi and smocked waists, these adapted specially for the chilly days that invibiably appear in mid-O summer. -N. Y. Post. O
