OSTRICH LOGIC.

"When I can't see danger there is no danger." That's the logic of the ostrich which hides its head and exposes its body to the hunter. There are not a few people who seem to have gone to the ostrich to learn logic. The most dangerous enemies of humanity are the enemies which can't be seen, the disease breeding microbes which infect the blood. It is harder to get the microbe out of the blood than to bear it out but The tribe of Buttinski is numerously to stimulate interest by bringing the Dr. Pierce's Golden Medical Discovery does both, by puri-fying the blood and then keeping

it pure.

If there are eruptions on the skin, boils, pimples, sores or other signs of impure blood, use Doctor Pierce's Golden Medical Discovery, which will purify the blood

and cure the eruptions which come from it.

"My blood was all out of order, and I had to go to the doctor," writes Mrs. James R. Moss, New London. Stanly Co., N.C. "He gave me medicine which helped me for a short time. In the winter of 1895 I got worse than I had ever been. My tousils were enlarged and my neck swollen all out of shape; my throat was sore and I could not cure it. My husband went for the doctor, but he gave me no encouragement. He helped me for twelve months, when I heard of a lady whose condition was like mine, who was taking your medicine and was getting well. So I secured some of the medicine and began taking it. In one week I was able to do my cooking. When I began taking the medicine I could sit up only a few minutes at a time, and I could rest or sleep only a little while at a time. My throat was so sore at times I could not even swallow sweet milk, and my tonsils were full of little eating scres. My left side was swollen out of shape and I could hardly get my breath. The doctor said I would not get well, but three bottles of Iv. Pierce's Golden Medical Discovery, three bottles of his 'Pellets,' three bottles of Dr. Sage's Catarrh Remedy and the use of salt water did the work and carred me." eruptions which come from it.

Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indiges It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but re the direct result of indi-gestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.
