The following letter from United States Senator C. W. Fulton appears

in Saturday's Telegram : WASHINGTON, D. C., Feb. 20.-(To the Editor of The Telegram)-In a late issue of The Evening Telegram, of the 13th first., I think, appeared an article headed "Shadow on Hammond. Investigation to include Senator Charles W. Fulton," etc. I have not seen a copy of the paper, but a friend cut out the article and mailed it to me. It is alleged in substance that Hammond's transactions in timber lands are under investigation, and I was his attorney. It is directly alleged that the combination was Hammond, Pilisbury and Kribs, and that "the attorneys for these manipulators were Mitchell and Tanner and present United States Senator Fulton." It is stated that "there is as yet no positive indication that Senator Fulton will be drawn into the Government's net, but his connection with Hammond's dealings is under investigation, and if it is shown that in 1903 he received money from Hammond for his services he will be liable to indictment," etc. Under ordinary conditions on publication of such an article concerning me I would be justified in instituting an action for libel, but I realize that under the influence of the present atmosphere in Oregon, charged as it is with rumors of impending revelations and startling developments, even newspaper reporters become hysterical and fail to observe that regard for private character that under different circumstances would control them. As a matter of fact I have never at any time acted for or been employed in the capacity of attorney, or otherwise, in any land matters, or in any matter whatever, by the parties mentioned, or any of them, excepting that I have represented Mr. Hammond and the Astoria Company in two cases in the United States Court, and have been attorney for the Astoria & Columbia River Railroad Company, in which he is interested. Aside from those matters, I have never represented him in company in which they, or any of idle or malicious charges. them, are or have been interested. In making this statement I would not have you infer that I assume or believe that Mr. Hammond has been engaged in any questionable transactions in acquiring lands. Knowing The annual meeting of stockholders associates, or any of them, or repre- sired. sented or advised him or them in relation to any lands or land matters whatever. Indeed, this statement need not be restricted to them, for in truth I have never represented any person in the matter of acquiring public lands. Not but that I might properly have done so before my election, but it so happens that I never did. Nor have Mr. Hammond, or his associates, or any of them, paid me any money or other compensation for any services whatever since my election to the Senate. If he or they have been interested in any lands, or land matters, pending before the Interior Department, the General Land Office, or any local land office at any time, I have not been aware of it. I cannot now recall that any of them have ever matters, though, of course, it is posing before the Department. It is my belief that none of them ever has, though it is, of course, possible that one or more of them should have done so, and in the multitude of letters of a similar character such fact escape my memory. I am certain of this, however, that no person will say that he has ever paid me anything for any work or sevices performed in or tively asserted, the only open question being whether I had accepted More than thirty national conventhem was extremely reckless, and I Exposition.

OSCAR HAYTER,

Attorney for Plaintiff.

Many a man is looking out for his health, but looking for disease in the wrong direction. He takes medicine for his nerves, which seem "gone to pieces." He "doctors" for his heart, which is acting i regularly. He constantly stirs up his liver with pills and powder. But he does not get any better. He is looking for the cause of his complaints in the wrong direction,

It is a common thing for some one who has used Dr. Pierce's Golden Med-ical Discovery for "stomach trouble" to find that when the diseased stomach is enced the "weak" heart is made sound, the sing ish liver stimulated, and the throbbing nerves tranquilized. This fact alone suggests the truth which every leading medical scientist knows and recognizes-that diseases which seem remote from the stomach are often caused by the disease of the stomach and other organs of digestion and nutrition. When the diseased stomach and the digestive and nutritive system are cured of disease, the other organs are cured with them.

Food is the basis of life and of strength. But it is not the quantity of food eaten which supports the life and health of the body. The body is sustained by that portion of the food which after being eaten is converted into nourishment and properly assimilated. When the stomach and its allied organs of digestion and nutrition are diseased or "weak," only part of the food eaten is converted into nutrition, and the body and its organs are therefore only partly nourished. Dr. Pierce's Golden Med ical Discovery cures the diseases of the stomach and digestive and nutritive system which prevent the proper nourishment of the body. In that way the body is ones more strengthened in the only way possible, by food properly digested and perfectly assimilated,

Any person suffering from disease in chronic or aggravated form, is invited to consult Dr. Pierce by letter free. All correspondence strictly private and con-Address Dr. R. V. Pierce,

ABLE TO WORK AGAIN.

ABLE TO WORK AGAIN.

Mr. John L. Coughenour, of Giensavage, Somerset Co., Penna., writes: "I had been doctoring for about a year and a half, being unable to work most of the time. The doctor said I had heart disease and indigestion. It began with a choking and oppressed feeling in the chest; later on I was troubled with a hungry feeling, and I seemed to be raw from my throat clear down into my stomach. My appetite was unusually poor, I was weak and nervous, and my heart kept throbbing continually, and I was short of breath. Finally I wrote to you for advice, I did not think your diagnosis was right, but I ordered six bottles of 'Golden Medical Discovery' and began its use. After using three bottles I began to improve slowly and soon went to work, and I have been working ever since."

"SUFFERED ALL THE TIME," "I feel that I would be doing an injustice to you if I did not send you a statement of my case," writes Mrs. David W. Guice, of Hamburg, Franklin Co., Mins. "I had hiver complaint and indigestion. Everything that I ate disagreed with me. I suffered all the time with swimming in my head; heart beat too fast; my feet and hands were cold all the time. Did not sleep well at all. Was able to get about but very little. I commenced to use Dr. Pierce's Golden Medical Discovery and 'Pleasant Pelleta' in May, 1597, and by December I could begin to get about very well. Have been doing my work ever since except washing. Feel better than I have for several years. I would recommend Dr. Pierce's medicines to all who are troubled as I was. I am now sixty-one years old and I think you most kindly for the happy relief and core."
