COOS COUNTY SELECTS SITE

Enterprising Oregon County Will Erect Unique Building at Lewis and Clark Exposition.

Coos County, Oregon, which announced some time ago that it would erect a separate pavilion at the Lewis and Clark Exposition, has made good its announcement by selecting a site for the structure. The pavilion will stand a short distance from the Colonnade Entrance, a little to the west of the Administration Building.

Coos County's Building will be 50x60 feet in size, and will be constructed entirely of Coos county materials. Coos county workmen will perform the labor, and a Coos county man will oversee the job.

Coos county timber resources will be exploited in a most practical way in the construction of the building, which will be finished inside and out. For the interior the decorations will be in panel work, the different valuable woods being used to advantage in this way. Among the woods so used will be the myrtle, maple, alder, white and yellow fir, white cedar, Port Orford cedar, red cedar, and oak. The block myrtle of Coos county, the country's most famous wood, is worth \$500 per thousand feet, B. M.

Construction work on the building will be begun in a few days and the building will be completed and fitted with exhibits several weeks before the opening day. The building will cost about \$10,000.

TRAFFIC TOO LIGHT

Additional Train Desired By Newberg People Not Justified by Amount of Travel.

"Experiment with gasoline motor cars, the first of which will be delivered within a few weeks, is for the purpose of furnishing more frequent service to towns where operation of additional regular trains is not justified by present traffic conditions," said W. E. Coman when asked in reference to the desire of the people of Newberg for more frequent passenger trains.

"Trains are operated in accordance with the wish of residents of this territory as to the way they shall be run, in view of the fact that business does not justify operating another daily train, and as a whole I believe the people are very well satisfied with the service. Could sufficient traffic be had to warrant placing another passenger train in service on that road I am sure that it would be most gratifying to the Southern Pacific Company to operate the train."—Evening Telegram.

Galloway Is Appointed.

Charles Galloway, son of Judge William Galloway, has been appointed to the position of superintendent of the Oregon exhibits at the Lewis and Clark Fair. He will have complete charge of the Oregon displays. His salary will be \$150 a month. Mr. Galloway was superintendent of Oregon's horticultural exhibit at St. Louis, and performed his duties in a highly satisfactory manner.

WAS USEFUL CITIZEN

Death of James W. Lewis, of Oak Grove, is Mourned by Many Friends.

The following biographical sketch of the late James W. Lewis, of Polk county, appears in Monday's Oregonian:

"James Webb Lewis, a pioneer of 1852, was born in Buchanan County, Missouri, July 2, 1843, of English ancestry, his father, W. P. Lewis, descending from the Virginia Lewises, and was related to Captain Meriwether Lewis. Mr. Lewis, with his parents settled in the southern part of Polk County in the Fall of 1852, and he resided in that county, with the exception of ten years, until the date of his death, the second day of this month, after a short illness. He was married to Miss Sarah Ann Riggs, who came to Oregon in 1853, on February 8, 1866, and became the father of three boys, two of whom, Webb C. and Arch R. with their mother, survive him and live at Crowley, Polk County.

"He became a member of the M. E. Church fully 36 years ago, and has been superintendent of the Oak Grove Sunday school for 25 years or more. When the Polk County Pioneer Association was organized, upwards of ten years ago, he was elected secretary, to which position he has been elected annually ever since without a dissenting voice.

"Such was the esteem in which he was held by those who knew him most intimately that his departure is regarded as a public loss. While a plain and unassuming man, unconsciously to himself he gained the confidence and good will of the citizens of his vicinity to an unusual degree, and has left behind to his sons a legacy that is immeasurably better than gold alone."

Big Factory for Eugene.

Rumor is current in Eugene that a big Eastern manufacturing concern has had emissaries at work in that section, and that ten acres of ground has been optionally secured for the establishment of what will be the largest foundry on the Pacific Coast. It is understood that the firm that is considering the location is a heavy manufacturer of traction and stationary engines and all kinds of machinery, and will use the plant in that section to supply the Pacific trade. Definite information is looked for at an early date.

Arm Torn Off.

A distressing accident occurred at the Spaulding Logging company's big sawmill at Newberg, Friday. A big log was being pulled up from the river, when it slipped back. This pulled up the slack on the small cable with terrific force and John Farr was reaching over the cable to shut off the power when it struck him, wrenching his left arm off within three or four inches of the shoulder.—McMinnville Reporter.

"SAVED MY LIFE"

—That's what a prominent druggist said of Scott's Emulsion a short time ago. As a rule we don't use or refer to testimonials in addressing the public, but the above remark and similar expressions are made so often in connection with Scott's Emulsion that they are worthy of occasional note. From infancy to old age Scott's Emulsion offers a reliable means of remedying improper and weak development, restoring lost flesh and vitality, and repairing waste. The action of Scott's Emulsion is no more of a secret than the composition of the Emulsion itself. What it does it does through nourishment—the kind of nourishment that cannot be obtained in ordinary food. No system is too weak or delicate to retain Scott's Emulsion and gather good from it.

We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

ALL WILL BE THERE

Every State in the Union Will Be Represented at Lewis and Clark Fair.

With the principal states of the Union in line with heavy appropriations for participation in the Lewis and Clark Exposition, the work of exploiting was brought to a close Monday. During the forenoon telegrams were sent to the special representatives now working in the East and Middle West instructing them to return to headquarters at once for assignment to other work.

The work of exploiting has been successful beyond all expectations. The wonderful country of the Northwest with its unlimited possibilities proved an even greater drawing card than was at first believed possible. The result is that every state in the Union will be represented in some way or other at the Exposition. Some come with liberal appropriations ranging from \$450,000 to \$10,000. The biggest appropriation outside of Oregon is the one recently provided by the California Legislature for the total of \$90,000. The smallest is the Missouri appropriation of \$10,000, but Missouri has done much for the Exposition in other ways during the recent Exposition at St. Louis. Here is a list of the states that have set aside money for participation and the amount of the appropriations:

Oregon	\$450,000
California	90,000
Washington	75,000
Idaho	35,000
Montana	30,000
Utah	30,000
North Dakota	15,000
Illinois	15,000
New York	25,000
Pennsylvania	60,000
Massachusetts	15,000
Missouri	10,000

The following amounts of appropriation are now pending before state or territorial Legislatures with prospects of an early settlement:

Connecticut	\$20,000
Colorado	35,000
Wisconsin	50,000
Nebraska	15,000
Minnesota	20,000
Arizona	15,000

Of these states ten have already made arrangement for the construction of individual state buildings in which to house portions of their exhibits and establish a state headquarters. These states are: New York, Massachusetts, California, Utah, Idaho, Illinois, Pennsylvania, Washington, Missouri and Oregon. Sites have been apportioned and the work of construction will begin shortly. The first to go up will be the Massachusetts building, for which a contract will be awarded in the next few days.

Outside of these states that have provided for official participation every other state in the Union will be represented on a larger or smaller scale through private exhibits. The records in the office of the Director of Exhibits Henry E. Dosh show that no state is left out, and furthermore that every nation in the world of any prominence is included in the list, most of them both for official and unofficial exhibits.

Included in the list of foreign participants are all the great world powers as well as countries that adorn relatively unfrequented corners of the earth. Among the foreign participants are Great Britain, Germany, France, Belgium, Italy, Spain, Switzerland, Holland, Hungary, Russia, Norway, Sweden, Turkey, Morocco, Egypt, Persia, Arabia, Argentina, Chili, New Zealand, Siam, China and Japan. The exhibits from these foreign countries will represent a value of many millions of dollars and will include a variety of things from Oriental rugs from Persia to rapid-fire guns from Germany.

The policy of necessity pursued in the past few months of the exploitation work has been to keep applicants for space within an area equitable to the exhibit offered. There have been applications for space enough to cover most of the Willamette Valley had they not been equitably apportioned and toned down. As it now stands there are a variety and quality to the exhibits and a scope to the support of the Fair that insures one of the most successful Expositions on record so those connected with the Exposition work are firm in declaring.

Millers Meet in Albany.

The Willamette Valley and Southern Oregon Millers' Club held its annual convention in Albany, Thursday. Polk county flouring mill men in attendance were: D. L. Keyt, Perrydale Milling Co., Perrydale; W. T. Hoffman, Oregon Milling & Ware house Co., Independence; Frank Gibson, Rickreall Milling Co., Hickreall. D. L. Keyt is president of the club.

Easily Offended.

Some men get mad very easily. A Eugene man is asking for a divorce just because his wife called him a dog, threw his shoes out of the window, refused to cook for him, and when he was warming himself by the stove threw water in it.—Albany Democrat.

If Your Eyes Bother You

I can relieve the strain—no charge for consultation and examination. I only charge where glasses are furnished. Satisfaction guaranteed.

Addition Bargain News in next week paper—interesting to all.

A. H. HARRIS JEWELER and OPTICIAN

RARE MUSICAL TREAT

"Trial by Jury" Enjoyed by Fair-Sized Audience at Dallas City Hall.

Gilbert and Sullivan's tuneful operetta, "Trial by Jury," was produced by home talent at the City Hall, Friday evening, and was enjoyed by a fair-sized audience. The performance was directed by Will C. Aylsworth, who has been teaching classes in vocal music in Dallas for a month past, and was given with a smoothness seldom seen in an amateur production.

The excellent tenor voice of Mr. Aylsworth was heard to good advantage in the role of the Judge, and A. N. Holman left nothing to be desired in his rendition of the part of the Court Usher. Lester Butler, as Counsel, won instant favor with the audience. The young man is gifted with a splendid baritone voice, and his solo was one of the pleasing features of the performance. Willis Simonton was an excellent Defendant, and Fred West made good as the Foreman of the Jury. Mrs. G. N. Cherrington sang the difficult role of the Plaintiff with fine effect, and added greatly to the success of the entertainment. The chorus was well balanced, and showed the effect of thorough training.

Mrs. Mona Thompson, Misses Ella Grant, Ella Roy and Rebekah Gates, the bridesmaids, were handsomely gowned and pleasingly graceful. The jurymen were Ed Dunn, Ray Grimes, R. E. Williams, Everett Gwinn, Fred Levin, John Simonton, Dr. H. L. Toney, Earl Shelton, Prof. Dunkelberger, Walter Critchlow and Nevin Palmer.

Little Miss Opal McDevitt presided at the piano, and played the accompaniments in a manner that won for her many compliments. The operetta was preceded by a short musical program consisting of solos, duets and choruses.

KIDS PLAY FAST BALL

Dallas and Monmouth Second Basketball Teams Put Up Snappiest Game of Season.

The Dallas Athletic Club second basketball team and the Monmouth Normal second team played a lively game in the Dallas College gymnasium, Saturday evening. The contest was a hot one, and furnished no end of amusement for the spectators. What the teams lacked in science, they made up in snap and ginger, and there was "something doing" every minute of the game. The goal-trowing of both teams from the foul line was superior to that of any of the older teams playing here this year. The best of feeling prevailed throughout the game. The final score was Dallas, 23; Monmouth, 19. The line-up: Dallas Monmouth
Guy.....forward.....Smith
Coad.....forward.....Sacre
Elder.....center.....Butler
Castle.....guard.....Dalton
Stiles.....guard.....Johnson
Officials: Stine, referee, umpire, Auro Ford.

Linen and China Rush.

Miss Ethel Caulfield, whose marriage to Floyd Daly, of Dallas, Or., is to take place in a few weeks, was given a linen and china "rush" Friday evening at her home by a large number of her friends. Miss Caulfield was the recipient of many handsome and useful gifts, and the affair was a very enjoyable one.—Oregon City cor. in Evening Telegram.

State Teachers' Papers.

Polk county schoolteachers have been granted state papers by the State Board of Education, as follows: State life diplomas, Rosa E. Smith, Ruth A. Cooper; state certificates, Mary L. Perkins, Maggie L. Hampton, Vestella B. Sears and Erma Hall.

Makes Kidneys and Bladder Right

EXTEND TELEPHONE LINES

Farmers Are Planning to Extend Commercial Wire from Dallas to Corvallis.

Tracy Staats, of Lewisville, was in Dallas, Monday. He says that the extension of rural telephone lines is being actively carried on in the Luckiamute country, and two new lines are now in course of construction. One of these lines will be run from the Lindeman switchboard into the Bevens neighborhood, and will accommodate the following subscribers: Wiley Norton, J. L. Atwater, John Taylor, R. M. Fowle, A. C. Guyer, F. A. Link, Jule Hannum, J. A. Hannum, E. A. Pagenkopf, R. A. Hastings, R. Taylor, I. A. Hooker, Frank Bush, Walker Bevens and T. P. Bevens.

The other line will be built on the south side of the Luckiamute river and will reach the farm homes of W. C. Williams, Beure Tartar, Tartar Bros., Mrs. Frank Brown, William Critchlow, Leroy Byerly, W. L. Phillips, Lloyd Guyer, Jeff Woods and Jefferson Robertson.

Mr. Staats says there is much talk among the farmers of building a commercial line between Dallas and Corvallis, as an additional wire is badly needed for the long-distance service. It is highly probable that work on the new line will be commenced within the next thirty days.

DESTROYED BY FIRE

Farm House of H. M. Brown, Near Dallas, Burns With All Its Contents.

The farm house of Mr. and Mrs. H. M. Brown, one mile north of Dallas, was totally destroyed by fire shortly after one o'clock last Friday afternoon. No one was at home when the fire started, and by the time neighbors arrived on the scene the entire building was in flames. None of the household goods were saved. It is believed that the fire originated either from a defective flue or from a spark falling on the dry roof. No insurance was carried on the building or its contents.

The house was a substantial frame structure, and was built 35 years ago. It had been occupied by Mr. Brown and family the greater part of the time since it was built. The loss is keenly felt by Mr. Brown, as it will amount to something like \$1000. He is not discouraged, however, and is already at work clearing away the rubbish preparatory to putting up a new house.

WILL BUILD HOTHOUSE

John Castle Will Engage in Raising Vegetables and Flowers for Market.

John Castle is preparing to engage in the business of raising vegetables and flowers for the Dallas market, and will soon begin the construction of a hothouse, 26 by 60 feet in size. This hothouse will be built according to the latest approved scientific principles, and will provide room for a large number of growing plants. Lettuce, radishes, cucumbers, and other vegetables will be cultivated for the winter market, and desirable flowers and plants, such as carnations, violets, ferns and palms will be grown in profusion.

Mr. Castle anticipates no difficulty in finding a ready market for the products of his greenhouse, and is confident that the business will pay from the start.

P. M. Flynn Dead.

Philip M. Flynn, formerly of Polk county, died of tuberculosis at his home in McMinnville, Wednesday, March 8, aged 42 years. He left a widow and three children. He was for many years a prominent merchant of McMinnville.
