**COMES TO THE RESCUE**  
 County Assessor Carl Graves decided yesterday afternoon to instruct his field deputies to make an enumeration of the hop, goat, mohair and prune industries in Polk county, and will make the returns official by certifying the result to the Secretary of State's office. As Polk county produces no tobacco, gold-dust, oysters or salmon, the columns provided in the blanks for these industries will be used in making the enumeration. Mr. Graves has been giving the matter careful consideration for several days, and, after a consultation with Secretary Dunbar over the telephone yesterday afternoon, decided to pursue the course outlined above. Polk county will thus be enabled to make a proper showing of her important resources, and the timely action of Assessor Graves will be appreciated by every citizen of the county.

Native Filipinos Leave the Islands This Week for Lewis and Clark Fair.

Two hundred Igorottes, Moros, Negritos and Visayans will leave the Philippine islands this week, arriving in Portland the latter part of April, where they will proceed immediately to the grounds of the Lewis and Clark Exposition. These natives will populate the Philippine village of the Government peninsula at the Exposition. Upon their arrival, the construction of the Philippine village will be started at once. A feature of this will be a city of houses built on poles over the surface of Guild's Lake. This is the characteristic of the expedient resorted to by the natives to avoid reptiles and foes of similar kind. The city of pole-houses will be occupied by the Moros, who with the Igorottes stand lowest in the scale of civilization. Boiled dog will represent the principal sustenance of the Igorottes, who are conceded to be epicureans regarding this delicacy. The general supposition is that a hearty meal of boiled, fried or roasted canine adds fervor to the fighting prowess of Igorotte warriors. Accordingly, the dogflesh is served only to the males, the fairer sex being denied this rare treat. Visitors to the Centennial, however, need have no fear of witnessing a bloodcurdling combat, unless the Portland police should become obstreperous in the presence of the Igorottes, which would naturally result in a lively scene.
