DALLAS, OREGON, MARCH 16, 1906

The way to build up Dallas is to patronize Dallas people.

The candidacy of Judge H. M. Calk for the long term as United States Senator is meeting with marked favor in the Willamette Valley counties, as is also that of Fred W. Mulkey for the short term.

Each is in the very prime of an active and useful life, and no two men could be selected who would be more energetic and loyal in working for the development of all Oregon.

It is also to the credit of these men that they have never been connected in any way with a legislative hold-up and the disgraceful proceedings incident thereto.

The term of office asked by Mr. Mulkey will last only a few weeks, and in the very nature of things he would not be expected to accomplish great results, but the voters may rest assured that if he is elected—and of his election there seems no doubt—he will give a good account of himself.

Mr. Calk asks for the long term, and it is refreshing to observe that his candidacy is meeting with enthusiastic favor in every portion of the state. The Nation needs such men at Washington, and needs them as never before.

The Southern Pacific Company's new book, "The Road of a Thousand Wonders," is worthy of a place on the parlor table in any home. It is the finest publication that has ever been sent out by a railroad company, and while gotten up for advertising purposes, it is a genuine work of art.

The weather of the last few days has been somewhat "freakish," but it really doesn't seem worth while for the city papers to make such a noise about it. Twenty-four degrees above zero may be a little uncomfortable to Oregonians, who are accustomed to balmy winter weather, but such weather in the Eastern states in March would be considered bracing and pleasant.

C. A. Johns grows stronger with the voters of his party every day. One may differ from Mr. Johns politically, but cannot help holding him in high esteem as a man.

The more we look the bills and amendments to the constitution over, the more we are satisfied that the safety of the people lies in voting "no" on all of them.—Salem Statesman. Pretty safe plan.

Bad Blood

Is responsible for most of the diseases and ailments of the human system. It seriously affects every organ and function, causes catarrh, dyspepsia, rheumatism, weak, tired, languid feelings and worse troubles. Take Hood's Sarsaparilla which purifies and enriches the blood as nothing else can.

The object of Mr. L. Gerlinger and other prominent Oregon capitalists in reorganizing the business of the Dallas & Falls City railroad and the Cone sawmill in Dallas can be summed up in a single word—Development.

Walter Lyon is worried about the Observer hoodoo. Never mind; it isn't a marker to the long-tailed hoodoo bird that will be found perched on the roof of the West Side building after April 20.

OPEN PUBLICITY THE BEST GUARANTEE OF MERIT.

When the maker of a medicine, sold through druggists for family use, takes his patients fully into his confidence by frankly and fearlessly publishing broadcast as well as on its bottle wrappers, a full list of all its ingredients in plain English, this action on his part is the best possible evidence that he is not afraid to have the search light of investigation turned full upon his formula and that it will bear the fullest scrutiny.

A glance at the published ingredients on each bottle wrapper, will show that it is made wholly from native American, medicinal roots, that it contains no poisonous or habit-forming drugs, no narcotics and no alcohol—pure, triple-refined glycerine, of proper strength being used instead of the commonly employed alcohol, both for extracting and preserving the active medicinal properties found in the roots of the American forest plants employed. It is the only medicine for women's peculiar diseases, sold by druggists, that does not contain a large percentage of alcohol, which is in the long run so harmful to woman's delicate, nervous system.

Some of the ablest medical writers and leading medical authorities endorse these views and praise all the several ingredients of which "Favorite Prescription" is composed—recommending them for the cure of the very best diseases of women. If interested, send name and address to Dr. R. V. Pierce, Buffalo, N. Y., for his little book of extracts from the works of eminent medical writers and teachers, endorsing the several ingredients and telling just what Dr. Pierce's medicines are made of. It's free for the asking.
