DALLAS, OREGON, MARCH 20, 1906

The way to build up Dallas is to patronize Dallas people.

The death of Mayor Charles Grissen, has caused profound sorrow throughout the valley. He worked unceasingly for the development of Oregon, and was ever found in the forefront of every movement having for its object the upbuilding of his town, county and state.

Little interest is taken in the approaching city election, and a light vote is anticipated. The proposition to assume an indebtedness of \$3000 for a rock-crusher is not looked upon with favor.

The registration books will be closed for the primary election on Tuesday, April 10, at 5 o'clock p. m. Voters who have failed to register should do so at once.

When the Democratic papers of Oregon want to say something good about a candidate of their party nowadays, they refer to him as a "Joe Folk style of man."

Mr. Geer boasts of the big vote he received for Senator four years ago. He won't do so well this year.

All petitions for state, congressional and district offices must be filed before midnight tonight.

The republican papers are all getting a slice of Bourne money.

No, brother, not all. There are some that don't want it.

A deserved promotion is that of A. L. Craig, who has been made general passenger agent of the Harriman lines in Oregon.

Ellis & Koyt's big sale continues with increasing crowds each day. A free excursion train from Falls City brought nearly 100 customers Tuesday, and a like excursion from Independence and Monmouth added 150 buyers to the throng on Wednesday.

W. L. Soehren is preparing to build a neat cottage on his residence lot opposite the public school building.

Catarrh is a constitutional disease originating in impure blood and requiring constitutional treatment acting through and purifying the blood for its radical and permanent cure. Be sure to take Hood's Sarsaparilla

Is Disease a Crime?

Not very long ago, a popular magazine published an editorial article in which the writer asserted that all diseases should be regarded as criminal. Certain it is, that much of the sickness and suffering of mankind is due to the violation of certain of Nature's laws. But to say that all diseases should be regarded as criminal, must appeal to every reasonable individual as radically wrong.
