DALLAS, OREGON, JULY 20, 1906

The way to build up Dallas is to patronize Dallas people.

WILL BRING RICH RETURNS.

The apple fair to be held at Dallas the coming fall will be an interesting event. Liberal cash premiums are to be given and fine displays may be expected. It is to be a county fruit fair and the apples in competition must be grown in Polk County, except those entered for a prize offered to nurserymen for the best new variety suited for growing in Polk County. The Polk County hills are especially well adapted to raising prunes, cherries and apples, and the money and work expended on an annual apple show at Dallas will in the end bring rich returns.—Rural Northwest.

William J. Clarke, the well-known newspaper man of Gervais, has been honored with the office of Grand Master Workman of the Ancient Order of United Workmen. Brother Clarke will give the order a live and capable business administration.

Again the city council has tackled the fire-limit question, and it is proposed to prohibit the construction of wooden buildings on the block north of the courthouse and the east half of the block directly opposite on Main street. That reasonable fire limits should be established, none will deny, yet the question is one of the most vexing with which city councils have had to deal. Every citizen favors fire limits, but he usually wants them to cover some other man's property. It is hoped, however, that the present council will take this greatly-needed step, to the end that the appearance of the town may be improved and the danger of fire and accident lessened

Now Mr. U'Ren proposes to draft a law regulating the use of money in political campaigns. Will it be enacted? Of course it will. In Oregon the state government is divided into four departments—the executive, judicial, legislative and Mr. U'Ren—and it is still an open question which exerts the most power. One fact must be considered in making comparisons: That the Legislature does not dare to repeal the acts of Mr. U'Ren, the executive has no opportunity to veto them, and thus far the judiciary has upheld all his laws and constitutional amendments. On the contrary, Mr. U'Ren has boldly clipped the wings of the executive and legislative departments, and when he gets time will doubtless put some shackles on the Supreme Court. To date, the indications are that Mr. U'Ren outweighs any one, and perhaps all three, of the other departments.—Oregonian.

RAILROAD OFFICE MOVED

C. H. Morris Will Occupy Vacated Building With Telephone Office and Jewelry Store.

The head office of the Dallas & Falls City Railroad Company, for the last three years located in the Wilson building on Court street, was moved to the company's building in the terminal grounds in South Dallas, Wednesday. The change of location to more commodious quarters was made necessary by the rapid growth of business, and for the further reason that Manager Gerlinger desired to have his office near that of the Willamette Valley Lumber Company, with which company the railroad does a large amount of business. The new railroad offices are comfortable and roomy and the office force is greatly pleased with the change.

C. H. Morris, owner of the Dallas Independent Telephone Exchange, will move into the building vacated by the railroad people. The central office will be located there, and he will also move his jewelry store from its present location on Main street. The telephone switchboard now in use will be replaced with a board of much greater capacity and will not be moved from the Stafrin drugstore until the new board is installed in the adjoining room. The old board will then be shipped to the mutual central office in C. J. Pugh's store in Falls City.

Enjoyable Picnic.

The Women's Foreign Missionary Society of the M. E. Church enjoyed a delightful day at the farm home of Mr. and Mrs. James Elliott last Tuesday. A picnic had been planned, and 38 persons sat down under the shade of a large oak and partook of a bountiful lunch, after which a good program was listened to. The remainder of the day was spent in eating fruit and ice cream and in posing for a photograph. All voted it one of the pleasant days of their lives and declared Mr. and Mrs. Elliott royal entertainers.

E. G. Bolter Dead.

E. G. Bolter died at his home in Crook county, Thursday, after a brief illness. He was born in Canada, September 12, 1830, while his parents were there on a visit. In 1852, Mr. Bolter crossed the isthmus, coming to California during the gold excitement there. He lived there a few years, then came to Salem, where he was one of the foremost men in helping build up the town. He afterward moved to Dallas, where he continued in the mercantile business for eight years. Going to Eastern Oregon, he engaged in the stock business. He was married in Salem, July 28, 1861, to Miss Elizabeth M. May, who survives him. Four of eight children are still living—Mrs. Sanford Shultz, Mrs. Bidwell Cram and J. G. Bolter, all of Cross Keys, and Mrs. M. R. Elliott, of Prineville.

Clever Minstrel Show.

The performance by the Dallas Lady Minstrels, which was on the boards at Woodman Hall last night, was very creditable. Especially good was the chorus work and the efforts of the end ladies. The first part of the show consisted of circle songs, duetts and a quartette interspersed with jokes. This was followed by a monologue and a sketch. Lack of space prevents extended mention, but on the whole the young ladies gave a very good performance. The young ladies in the circle were: Mrs. Johnson, interlocutor; Miss Erma Smith, Tambo; Miss Pauline Gohrke, Bones; and Misses Edna Morrison, Georgia Shriver, Emroy McDevitt, Rebecca Gates, Hazel Hollister, Hilda Sampson, Edna Yost, Holt, Edna Holmes, Ruby Fiske and Gohrke.

City Superintendent Powers of the Salem schools was the guest of County Superintendent C. L. Starr yesterday.

County Judge Coad went to Portland this morning to meet his daughter, Nola, who is on her way home from a tour of the Yellowstone Park.

A large number of property-owners living on Oak street have petitioned the city council for a sewer. It is likely that their request will be granted and that Academy street will also be included in the sewer district.

The latest addition to the OBSERVER'S job printing department is a Globe punching machine. This handy little device is used for punching holes in statements, order blanks, etc., to fit arch and cabinet files. It will perforate loose sheets of every description, and is especially designed to make perforations for Globe or Shannon files, which are coming more and more into use in offices, business houses and mills. If you are using any post file, don't send your printing away from home; you can have it done here promptly and at a reasonable price.

Proposals For Street Improvement.

Sealed proposals will be received at the office of the Auditor and Police Judge of the City of Dallas, Oregon, until Monday, August 6, 1906, at 3 o'clock p. m. for the improvement of Court street from the west line of Jefferson street to the east end of said Court street by grading and graveling said part of said street as in Ordinance No. 75 provided to be made. Said improvement to be completed within 60 days from the date of the contract.

The council reserves the right to reject any and all bids.

Habit-forming Medicines.

Whatever may be the fact as to many of the so-called patent medicines containing injurious ingredients as loudly proclaimed by some journals of more or less influence, this publicity has certainly been of great benefit in creating needed attention to this subject. It has, in a considerable measure, resulted in the most intelligent people avoiding such foods and medicines as may be fairly suspected of containing the injurious ingredients complained of. Recognizing this fact some time ago, Dr. Pierce, of Buffalo, N. Y., "took time by the forelock," as it were, and published broadcast all the ingredients of which his popular medicines are composed. Thus he has completely forestalled all harping critics and all opposition that might otherwise be urged against his medicines, because they are now OF KNOWN COMPOSITION. Furthermore, from the formula printed on every bottle wrapper, it will be seen that these medicines contain no alcohol or other habit-forming drugs. Neither do they contain any narcotics or injurious agents, their ingredients being purely vegetable, extracted from the roots of medicinal plants found growing in the depths of our American forests and of well recognized curative virtues.

Instead of alcohol, which even in small portions long continued, as in obstinate cases of disease, becomes highly objectionable, its tendency to produce a craving for stimulants, Dr. Pierce employs chemically pure, triple-refined glycerine, which of itself is a valuable remedy in cases of chronic diseases, being a superior demulcent, antiseptic, antiferment and supporting nutritive. It enhances the curative action of the Golden Seal root, Stone root, Black Cherrybark and Bloodroot, contained in "Golden Medical Discovery," in all bronchial, throat and lung affections attended with severe coughs. As will be seen from the writings of the eminent Drs. Grover Coe, of New York; Bartholow, of Jefferson Medical College, Phila.; Scudder, of Cincinnati; Ellingwood, of Chicago; Hale, of Chicago, and others, who stand as leaders in their several schools of practice, the foregoing agents are the very best ingredients that Dr. Pierce could have chosen to make up his famous "Discovery" for the cure of not only bronchial, throat and lung affections, but also of chronic catarrh in all its various forms wherever located.
