**ENGINE FOR SALE.**

The OBSERVER office has for sale a Fairbanks-Morse gasoline engine, one and one-half horse power, with automatic sparkler attached. The engine has been used but little, and is in good condition. Our only object in selling it is that we desire to install an electric motor as soon as the new power station is completed. We cannot guarantee delivery of the engine before October 15. The outfit cost new \$155, but will be sold at a good bargain for cash. Here is an opportunity for some country publisher who cannot obtain electric power to get away from the hard work of kicking his job presses and turning his newspaper press by hand. The machine would be suitable for a farmer's purposes or for some small manufacturing concern. Call or write for price.
