Pleased With Grant Goats.

In a letter to the Rural Northwest, J. R. Barnette, manager of the Gila County Angora Goat Company, says:

"I must not close before I speak of the buck we purchased from U. S. Grant, of Dallas, Oregon. I will not attempt to describe him, as most of the readers of your paper know a great deal more about the Grant goats than I do, but I wish to say that I never saw near so good a goat as Ben Hur II, to be so large as he is.

"We have goats in our herd that represent strains from nearly all the prominent breeders, some of which have fleeces finer in fiber than our Grant buck, but they are not half as large. But we have none that combine size, vigorous constitution, weight, length of fleece and fineness of fiber as Ben Hur does. He seems to be as happy in Arizona as he evidently was in Oregon."

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
