SAFEGUARDS STATE BANKING

Commission Is Drafting Law for Approval of Next Oregon Legislature.

A committee of Oregon bankers composed of E. W. Haines of Forest Grove, H. Hirschberg of Independence, and E. V. Carter of Ashland, appointed by the Oregon State Bankers' Association for the purpose, has for some time been engaged in formulating a law for the regulation of state banks, and it is expected to have the draft of the proposed measure completed next week.

Banks other than National that are doing business in Oregon will be compelled to prepare and submit three statements of their condition each year and will be examined annually by a State Bank Commissioner, when the new law now being prepared by a committee from the Oregon State Bankers' Association is enacted.

An important provision is that no bank shall have more than half its paid-in stock and surplus invested in real estate, in which is included bank buildings and furnishings. No more than 50 per cent of the paid-in stock and surplus shall be loaned on real estate.

The stockholders shall be liable for twice the amount of the stock subscribed, the same as stockholders in National banks. Banks, before opening, must secure charters and must have a capital of not less than \$10,000, which will be graded according to the population of the cities in which the institutions are located.

FINE SHEEP IN POLK

Demand for Registered Cotswolds and Lincolns Greatly Exceeds Supply.

About the only thing breeders of registered Cotswolds and Lincolns in Polk county have to complain of at the present time is that the demand for bucks has become so good that the buyers who come after them are getting into the habit of buying almost anything whose looks will pass muster.

The high reputation of Polk County's Cotswolds and Lincolns has been attained as a result of the skill and thorough methods of a few breeders. The existing condition is one which naturally results in such cases. Such breeders as Messrs. Stump, Riddell and Hawley, who have made the reputation of the county, will not themselves suffer materially as a result of the injury to the county's reputation which will follow from the sale of low grades, because their own reputations bring them purchasers for everything they have for sale.

None of the leading breeders wishes to monopolize the business, but all of them are anxious that Polk County should have many more breeders of first-class Cotswolds and Lincolns. There is a demand upon them for many times the present supply. The climatic and food conditions of the Willamette valley give the sheep of that range the size and constitution which the range sheepmen are looking for.

Taken as directed, it becomes the greatest curative agent for the relief of suffering humanity ever devised. Such is Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets. Belt & Cherrington.

INSANE GIRL'S DEED

Kills Her Cousin, W. B. Palmer, of Monmouth, Without Word of Warning.

A terrible tragedy occurred early Monday morning at the home of Eugene Palmer four miles east of Albany, when his daughter, Melina Palmer, shot and instantly killed her cousin, William Palmer, of Monmouth. The deed was committed during a fit of insanity. The Albany Herald gives the following account of the sad affair:

The shooting took place in the sitting room of the Palmer home. The victim and his uncle were sitting by the stove engaged in conversation, having just finished breakfast. While thus engaged, Melina Palmer, quietly and unobserved by her father and cousin, entered the room and sat down on a couch directly behind the two men, and close to the door.

Hearing a slight noise, the father turned and was horrified to see his daughter draw a pistol from beneath a fold in her dress. Before he could move or even speak the woman had leveled the gun at her cousin and fired. The bullet penetrated his skull just at the base of the brain. Without uttering a sound, the crazed woman's victim collapsed in his chair, blood gushing from the wound.

It was all done so suddenly that the girl's father could make no move to prevent the tragedy. When he did jump from his chair his daughter had half turned, still holding the smoking weapon in her hand. She seemed about to shoot herself, but before she could make any further movement, Mr. Palmer had seized her, and wrested the gun from her grasp.

Since her childhood, the woman has been mentally weak, and at times has had violent spells. When quite young, she one day is said to have swallowed carbolic acid, which burned her severely, and ever since she has been subject to convulsions, supposed to be due to the effects of the acid. She is now 28 years old.

About two and a half years ago the girl attempted to commit suicide, shooting herself in the breast. The wound was only slight and she soon recovered. She was sent to the asylum for the insane at Salem where she remained until September, 1905. On a three months parole she was allowed to come home, and at the expiration of this time, her conduct having been good, she was permitted to remain at home on the farm. She evinced no signs of violent insanity until the tragedy of Monday morning. She was removed to the asylum again Tuesday.

The deceased was 32 years old, and unmarried. His parents reside at Monmouth.

THE above picture of the man and fish is the trademark of Scott's Emulsion, and is the synonym for strength and purity. It is sold in almost all the civilized countries of the globe.

If the cod fish became extinct it would be a world-wide calamity, because the oil that comes from its liver surpasses all other fats in nourishing and life-giving properties. Thirty years ago the proprietors of Scott's Emulsion found a way of preparing cod liver oil so that everyone can take it and get the full value of the oil without the objectionable taste. Scott's Emulsion is the best thing in the world for weak, backward children, thin, delicate people, and all conditions of wasting and lost strength.

Scott & Downe, Chemists 400-412 Pearl Street, New York

FINE CHRYSANTHEMUM SHOW

Exhibit by Ladies of Presbyterian Church Admired by Many Visitors.

The annual chrysanthemum show given by the ladies of the Presbyterian church last Friday afternoon and evening was largely attended and was a great success, financially and otherwise. Two long tables in the main hall of the Woodman building were covered with these beautiful winter flowers, and nicely arranged booths at the side of the hall added to the attractiveness of the exhibit.

Some very fine specimens of chrysanthemums of various colors and varieties were shown, and a huge bouquet contributed to the fair by John Embree was admired by all visitors. The first prize for the best collective exhibit was won by Mrs. Martha Cosper, whose flowers are among the finest in Polk county. The second prize went to Mrs. David Critchlow. The prizes for the best single white and yellow flowers were both won by Mrs. H. B. Cosper, and the prize for the best single pink flower by Mrs. Lydia D'Lashmutt. These single flowers were of immense size, and were perfect specimens of their kind. The judges of exhibits were Mrs. Dr. Mark Hayter, Mrs. E. W. Fuller and Miss Ednelle Collins.

Many people visited the show in the afternoon and the hall was crowded in the evening. Vocal solos by Mrs. C. G. Coad, Mrs. J. C. Uglov and Miss Opal McDevitt were greatly enjoyed by all, and a reading by Mrs. D. Julian Becker was a feature of the evening's entertainment. A home-made candy booth was well patronized, and another booth at which were sold many pretty articles of fancy work brought the ladies a neat sum of money. The net receipts of the fair were \$72.

The women contributing to the pretty exhibit of flowers were Mrs. M. M. Ellis, Mrs. Lydia D'Lashmutt, Mrs. Martha Cosper, Mrs. H. B. Cosper, Mrs. Willis Simonton, Mrs. Alice Dempsey, Mrs. David Critchlow, Mrs. J. D. Smith and Miss Ednelle Collins.

CIRCUIT COURT DOCKET

Judge Burnett's Department Will Convene in Dallas, Monday, December 3.

34 Charles Allor (Prin.), Buena Vista
35 Miss Pearl Burk, Buell
36 Miss Harriett Higgins, Salem, R. F. D. 2
37 Miss Jessie Fagerstrom, Sheridan, R. F. D. 1
38 Miss Lelah Hevland, Dallas, R. F. D. 1
39 Mrs. W. T. Brown, Airfle, R. F. D. 1
40 A. A. Roy, Salem
41 Mrs. W. A. Wash, Dallas

MILL MEN LOSE HEAVILY

List of Polk County Sawmills Affected by Car Shortage.

- Polk County sawmills affected by the car shortage, with the annual output of each mill under normal conditions, are listed by the Oregonian as follows:
Pedee Lumber Company, Airfle, 700,000 feet.
Sheridan Lumber Company, Buell, 10,000,000 feet.
W. W. Johnson Lumber Company, Dallas, 6,000,000 feet.
Willamette Valley Lumber Company, Dallas, 12,000,000 feet.
Falls City Lumber Company, Falls City, 17,000,000 feet.
T. H. March & Company, Sheridan, 700,000 feet.
To this list might be added the Charles K. Spaulding Lumber Company, of Independence; the Martin sawmill, of Dallas; the Oberer-Meyer Lumber Company, of Falls City, and a number of other smaller concerns all directly affected by the shortage of cars.

Attend Teachers' Convention.

C. L. Starr, school superintendent of Polk county; E. D. Bessler, president, and C. A. Rice, principal of the training department of the Oregon State Normal School, attended the annual meeting of the Western Division of the State Teachers' Association in Portland this week. President Bessler led the advanced section of the Grammar School Department; Superintendent Starr delivered an address on "Industrial School Life," and Professor Rice spoke on "Numbers." B. F. Mulkey, president of the Ashland Normal School, presided over the three days' meeting.

The Portland teachers are proud of the fact that they are able, with their new fire drill, to empty the high school building of its 1,000 pupils in two minutes. That's nothing to boast about. Just have the teachers announce "school is dismissed," and if every mother's son won't be out of the place in half a minute without any fire drill practice then young America is certainly losing a whole lot of its former activity.—Eugene Guard.

Royal Baking Powder Absolutely Pure DISTINCTIVELY A CREAM OF TARTAR BAKING POWDER

Royal does not contain an atom of phosphatic acid (which is the product of bones digested in sulphuric acid) or of alum (which is one-third sulphuric acid) substances adopted for other baking powders because of their cheapness.
