The way to build up Dallas is to patronize Dallas people.

## TAKE WISE STEP.

The Polk County Mohair Association has taken a long step forward this year in arranging for the division into a number of grades of the mohair to be included in its pool. It does not go as far in this direction as it will be necessary to do in the future, but the fact that a good start has been made in the right direction is encouraging. When all mohair in a pool is sold at the same price, there is no incentive to improve the quality of mohair.—Rural Northwest.

Good newspapers always indicate that they are published in good towns. And the way to make good newspapers is for business men to patronize them instead of billboards and dead walls when they want to reach an intelligent reading public.—Eugene Guard.

It is believed in educational circles that President E. D. Ressler, of the Oregon State Normal School at Monmouth, will be chosen to succeed President Gatch of the Oregon Agricultural College, whose resignation will take effect in June. Mr. Ressler is a strong man and is in every way qualified to manage the big school at Corvallis. His appointment would be generally satisfactory to the people of Oregon.

It is to be regretted that the Oregon state fair will be held again this year so early a date that a large share of the farmers cannot attend. The week of September 16 to 21 has been selected. While there are some farmers whom the time will suit very well, there are a large number, especially in the Willamette valley, who will be in the midst of prune or hop harvesting. It is too early, also, for making a good display of apples, grapes and late pears.—Rural Northwest.

Yes, but just think what a fine season of the year it will be for the annual horse races!

The news from Washington that applications for patents to public lands are to be hastened with the greatest possible expedition will bring gladness to the hearts of the settlers who have complied with the land laws and are anxiously awaiting title to their lands. By this order, it is estimated that the greater part of 1,000,000 acres of the public lands in this state, that have been regularly settled upon by home-seekers, will proceed at once to patent. Of this large acreage, only 90,000 acres are located within the Portland Land Office district.

## Council Proceedings.

At a regular meeting of the City Council on Monday evening, the City Attorney was instructed to prepare an ordinance providing that all sidewalks to be built in the business district hereafter shall be constructed of concrete. The district embraces both sides of Court and Mill streets from Church to Jefferson.

Frank Kerlake's offer of \$25 for the chairs in the City Hall was rejected.

V. P. Fiske was granted permission to build a concrete walk in front of his residence property on Mill street. Attorney Hayter handed in an opinion to the effect that property that cannot be drained by a sewer is not subject to a sewer assessment.

Marshal Palmer reported that he had secured polling places for the annual city election as follows: First ward, Dallas Flouring Mill office; second ward, City Hall; third ward, Kerlake's old stand on Main street.

## Died of Consumption.

Charles A. West, the 18-year-old son of Mr. and Mrs. E. A. West, died at the family home in North Dallas yesterday morning at 4 o'clock, after a long illness of tuberculosis. The family came to Oregon from Washington four years ago, and have lost three sons with the dread disease since moving to Dallas. Charlie West was an honest, industrious young man, and his death is a sad blow to his family and friends. The funeral was held at 10 o'clock this morning and interment was made in the Brown cemetery.

# Spring Humors

Impure or effete matters accumulated in the blood during the winter cause in the spring such disfiguring and painful troubles as boils, pimples, and other eruptions, also weakness, loss of appetite, that tired feeling. The best medicine to take is Hood's Sarsaparilla, which thoroughly cleanses the blood, and effects permanent cures by giving healthy functional activity to the stomach, liver, kidneys, bowels and skin.

Sarsaparilla is Hood's Sarsaparilla in chocolate tablet form. They have identical the same curative properties as the liquid form, but are more convenient, economical, and less likely to be rejected, broken, or leaked. No loss of strength or vitality. Completely restores good health and strength. C. L. Hood Co., Lowell, Mass. GUARANTEED under the Food and Drug Act, June 30, 1906. No. 324.

## ANOTHER NEGLECTED COUNTY

A Polk county paper says that county is one of those which will have to pay its share of the four million dollar appropriation and get absolutely nothing in return. Linn county is in practically the same position as Polk. Of course, each county has to help keep up state institutions though not having any themselves, and yet it is not always a pleasant task when one sees a spirit of local gain and not one of general public good in the improvements paid for. Linn county sends about \$55,000 down to Salem this year for the benefit of Salem, Eugene, Corvallis and a few other places, and of course, to help keep the machinery of the government running. It is willingly sent so far as the just and legitimate expenses of the state are concerned, but when extravagance is seen in some of the items, and graft crops out, it pinches some.—Albany Democrat.

## Gets Early Start.

Dallas is making preparations to celebrate the Glorious Fourth. Nothing like getting in on the ground floor.—Amity Enterprise.

Dallas has decided to make the eagle scream in a creditable manner on the Fourth of July.—Monmouth Star.

The Dallas Observer says that the Polk county capital is going to celebrate the coming Fourth of July with firing pump and circumstance and urges its people to begin preparations at once. That's right. Nothing like prompt action.—Salem Statesman.

## COMMON SENSE

Leads most prudent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them upon the bottle wrappers and advise its correctness under oath, are daily being used in favor. The composition of Dr. Pierce's medicines is open to everybody. Dr. Pierce being desirous of having the search light of investigation turned fully upon his formulae, being confident that the better the composition of these medicines is known, the more will their curative merits be recognized. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examine the formula on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that) yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-over-coughs, which, if neglected or badly treated lead up to and finally terminate in consumption. Take the "Golden Medical Discovery" in time and it is not likely to disappoint you if only used for a reasonable length of time to get a fair trial. Don't expect miracles. It won't do supernatural things. You must exercise your patience and persevere in its use for a reasonable length of time to get its full benefit. The ingredients of which Dr. Pierce's medicines are composed have the unqualified endorsement of scores of medical leaders—better than any amount of lay or non-professional testimonials. They are not given away to be experimented with but are sold by all dealers in medicines at reasonable prices.
