FIND RATES REASONABLE

State Railroad Commissioners Eastern Schedule of Dallas and Falls City Railroad.

In response to a request of the officials of the Dallas & Falls City Railroad Company, the Railroad Commissioners of Oregon came to Dallas and held a meeting last Saturday afternoon. The meeting was held for the purpose of adjusting any rates not satisfactory to the board and to discuss matters of mutual interest. Commissioners Campbell, West and Alchison were all present at the conference.

A trip of inspection was made in the forenoon and the officials were taken through to the terminus at Black Rock, frequent stops being made to permit a thorough examination of the roadbed, bridges and equipment. The afternoon was spent in the general office in Dallas, where the subject of rates was given a full and careful consideration.

At the close of the meeting, the Commissioners expressed their entire satisfaction to General Manager Geringer and complimented him upon his management of the road. They assured him of their surprise in finding the road so thoroughly equipped for the handling of passengers and freight, and commented most favorably upon the substantial character of all construction work. The vast industrial development that is being made possible by the extension of the road into the forests of the Coast Range was also a revelation to the visiting officials.

The rates charged by the company for handling the various classes of freight were entirely satisfactory to the Commissioners, who declared them fair and reasonable and fully justified by existing business conditions.

WILL OPEN WITH DANCE

Kerslake & White's New Skating Rink Will Be Thrown Open to Public Saturday Night.

Kerslake & White's big skating rink in Dallas will be opened with a social dance Saturday evening. Invitations are being sent out for the event, and indications point to a record-breaking attendance for a social affair of this kind. The Carnation Club will postpone its regular semi-monthly dance and the members will attend in a body. The dance will be open to all, and the managers wish it understood that all young people in the county will be welcome, whether an invitation is received or not, as it will be impossible for the committee to secure the names of every dancer. Fine music will be furnished by the Dallas orchestra of seven pieces.

A large force of carpenters is engaged in putting down the maple floor, and it is expected that this work will be finished by Friday morning. The polishing machine will then be put in operation and the big floor will be made as smooth as glass for the use of the dancers. The musicians' stand was finished yesterday.

The management desires to announce that tickets purchased for Saturday night will also be good for Tuesday, March 19, the opening skating night. A large crowd of people is expected from Independence, Rickreall, Falls City and Mosmouth at the Saturday night hop.

Electricity for Lighting

Is only expensive to people who are wasteful and careless. To you, who are naturally careful, it does not come high.

It is economical because it can be quickly turned off when not needed. With gas or kerosene there is the temptation to let light burn when not needed to save bother of lighting and adjusting. In some homes the electric light bills amount to only one or two dollars per month. You can probably get some kind of artificial light for less money than electric light, but does it save you anything when it limits opportunities for work and recreation—ruins your eyesight—smokes your walls—mars decorations and increases household work. You could probably save a dollar tomorrow by going without your meals but it wouldn't be economy. It is not so much what you save, but how you save that counts.
