MARRIED IN FAR NORTH

John A. Perry and Miss Ethel Rowell Are Wedded in Wrangell, Alaska.

At the home of the bride's aunt, Mrs. A. V. R. Snyder, in Wrangell, Alaska, April 15, 1907, Rev. H. P. Corser spoke the words which made John A. Perry and Miss Ethel Rowell "two souls with but a single thought; two hearts that beat as one," in the presence of only the relatives of the bride.

No higher tribute can be paid to the groom than to say that he is a member of an organization which is the pride of the greatest nation on earth, a soldier in the army of the United States of America. He is the sergeant in charge of the cable office at this place. His recommendations are of the very highest order.

The writer has known the bride since infancy, and knows her to be one of the very best girls that the old State of Oregon has ever produced; and that means a great deal.

Mr. and Mrs. Perry have gone to housekeeping in the C. L. Hamilton cottage on Stikine Avenue.—Wrangell (Alaska) Sentinel.

Electricity for Lighting

Is only expensive to people who are wasteful and careless. To you, who are naturally careful, it does not come high.

It is economical because it can be quickly turned off when not needed. With gas or kerosene there is the temptation to let light burn when not needed to save bother of lighting and adjusting. In some homes the electric light bills amount to only one or two dollars per month. You can probably get some kind of artificial light for less money than electric light, but does it save you anything when it limits opportunities for work and recreation—ruins your eyesight—smokes your walls—mars decorations and increases household work. You could probably save a dollar tomorrow by going without your meals but it wouldn't be economy. It is not so much what you save, but how you save that counts.
