

Polk County Observer

J. C. HAYTER, EDITOR AND PUBLISHER. Published Weekly and Semi-Weekly at \$1.50 per Year. Strictly in Advance. DALLAS, OREGON, MAY 10, 1907

The way to build up Dallas is to patronize Dallas people.

THE TIMBER SUPPLY.

Every person in the United States is using over six times as much wood as he would use if he were in Europe. The country as a whole consumes every year between three and four times more wood than all the forests of the United States grow in the meantime.

These are some of the remarkable statements made in a circular just issued by the Forest Service, which deals with the timber supply of the United States and reviews the stumpage estimates made by all the important authorities.

Let it be assumed that the rapid and gaining depletion of American forest resources is sufficiently accounted for by the increase of population, it is pointed out in the circular that the increase in population since 1880 is barely more than half the increase in lumber cut in the same period.

At present but one-fifth of the total forest area of the United States is embraced in National Forests. The remaining four-fifths have already passed or are most likely to pass into private hands.

NO EXCUSE FOR DISHONESTY.

That the Observer ever should have had in its employ a workman who would so far forget his manhood as to fail to meet his just debts and obligations, is a matter of deep regret to its publisher.

As many strangers will doubtless be employed in this office from time to time in future, we wish to say this one word to the merchants of the city: Never credit a man on the mere

strength of the fact that he is employed in this office. The Observer has always paid its men good wages, in fact we know of no country printing office in Oregon that has paid higher wages, and in the sixteen years we have been in the business we have always paid our workmen in full on Saturday night of each week.

It is a sign of substantial prosperity to see the old board sidewalks being torn up in all portions of town and neat concrete walks put down in their place. The substitution of cement for lumber in the construction of walks is another important step in Dallas' growth from a country town to a live, growing city.

Let there be a rousing turnout of business men and citizens at the meeting called for next Monday night to make arrangements for the Fourth of July celebration in Dallas. It is up to this city to give the biggest and best celebration that has ever been held within the borders of Polk county.
