## INSURANCE AT COST.

"Insurance at actual cost" is the principle on which the Oregon Merchants' Mutual Fire Insurance Association conducts its business. The Association, having fulfilled all of the requirements of the law, received its license from the state last week and is now writing policies. The plan of insurance is fair; the men who are managing the affairs of the Association are honest and conscientious; the policy-holders are merchants and tradesmen who have grown tired of paying the extortionate rates demanded by the soulless insurance trust and have banded together to protect one another from loss by fire. An association organized upon such a plan and for such a purpose is like a house built upon a rock. It will stand. The people of Oregon, tired of waiting for relief from burdensome insurance rates at the hands of the Legislature, are solving the problem in a practical way by taking the whole matter into their own hands. They are tired of paying tribute to foreign corporations for something they are able to provide for themselves at a much lower cost. They do not object to paying a reasonable rate to the old-line insurance companies, but they do object to trust extortion. The arbitrary methods pursued by the insurance trust after the San Francisco disaster taught the people of Oregon a lesson. The recent statement showing the enormous difference between the amount of money paid for insurance and the amount paid back for fire losses in this state last year taught them another. The day of mutual insurance is dawning. The McMinnville Mutual is far past the experimental stage—it is carrying more insurance today than any other company doing business in this state, and it has never failed to pay an honest loss. The Merchants' Mutual is growing. It is made up of substantial business men of Oregon, and it will continue to grow. Other mutual companies will be organized as time goes on. Their number will depend altogether upon the treatment accorded the people of Oregon by the old-line companies.

The State Board of Education has approved the plan to allow the school children of Oregon to help raise a fund of \$60,000 needed by Commander Peary in his forthcoming expedition in search of the North Pole. A letter of appeal is being mailed out to the schools, asking that May 22 be designated as "Peary Day," and that the children be invited to contribute their mites on that day. The scheme is all wrong, and it is to be hoped that the school children of Dallas will not give a single penny toward the fund. If the Rockefeller and Morgans have tired of Peary and his visionary schemes, and will no longer furnish financial backing for his worse than useless ventures to the land of snow and ice, there is no reason why the children of industrious, working people should be called upon to contribute their mites to help carry on an exploration that would never prove of any practical benefit to mankind, even should its object be finally accomplished. The Observer hopes the children of Polk County will not give a penny to this fund.

In a recent address before the Tacoma Chamber of Commerce, Tom Richardson, of Portland, said: "When the Portland Commercial Club was organizing the State Development League, people in other cities and towns wanted to know why we were helping them organize, and to this we replied: 'We want you to get a dollar so we can take seventy-five cents away from you.' This spirit of frankness, he added, completely won the people of the interior towns. Thomas might have gone farther and told his hearers that Portland would not offer any serious objections to taking the remaining twenty-five cents—as, for instance, when it paid a bonus to secure a woolen mill bought with 25,000 hard-earned Dallas dollars. It is true that Dallas long ago recovered

from the effects of the blow, but one cannot refrain from recalling such incidents to mind when reading Mr. Richardson's modest speech.

It will be to learn that the leading medical writers and teachers of all the several straggled in practice recommend in the ingredients entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, liver complaint, torpid liver, or biliousness, chronic bowels, and all catarrhal diseases of whatever region, of acute or chronic nature. It is also a specific remedy for all such chronic and long standing cases of catarrhal affections and their results, as bronchitis, throat and lung disease (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherry bark, Golden Seal root, Bloodroot, Stone root, Manroot and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. The best is Hood's Sarsaparilla. It is the best because it does the most good. While it makes the blood pure, fresh and lively, it tones the stomach to better digestion, creates an appetite, stimulates the kidneys and liver, gives new brain, nerve and digestive strength. An unequalled list of cures—40,366 testimonials in two years—proves its merit.  
**Sarsaparilla**—For those who prefer medicine in tablet form, Hood's Sarsaparilla is now put up in chocolate tablets called Sarsaparilla, as well as in the usual liquid form. Sarsaparilla has identical the same curative properties as the liquid form, besides economy of dose, convenience, economy—there being no loss by evaporation, breakage, or leakage. Sold by druggists or sent by mail. C. I. Hood Co., Lowell, Mass.
