

THE HORSEMAN

Horses seldom suffer from decayed teeth, but because of the upper teeth closing on the lower ones a little on the outside points, sometimes are forced which lacerate the cheek or penetrate the gums, creating a tenderness that prevents the proper mastication of food, annoying the horse so that he falls away very rapidly.

To prevent sore shoulders of working horses H. E. Cook recommends perfectly fitting collars, fitted to the shoulders by working the horse in them after a thorough soaking of the collars. He would avoid sweat pads under all circumstances, except where they become absolutely necessary because of lack of properly fitting collars.

One of the most important items in the welfare of a horse is a plentiful supply of pure, fresh water. Water should be given the first thing in the morning, and it should be offered the last thing at night when the final round of the barn is made.

Teach the foal to eat early. A few ground oats and bran with a little milk is a desirable ration. The foal will not take much at first, but will soon show a readiness for hearty meals. In the early part of the season it will always pay to allow the foal to suck some time during the forenoon and also in the afternoon, giving the mare a drink and a few oats to eat while the foal is sucking. It will benefit both the mare and the foal.—John Gardhouse, Ontario.

It is easier to keep colts from learning bad tricks than to break them of these habits. For that reason have every strap and rope used by the colts so strong that they cannot be broken. Once a colt finds out that he can get away from a halter or other part of a harness there will be trouble for him for all time.

Always be careful to give the mares plenty of exercise in winter after the work on the farm is done.

It is a great mistake to overfeed or pamper a horse beyond a certain stage. When straw is used every spear should be taken out of the stall every morning. The soiled and wet parts should be put on the compost heap and the rest put in the sun to air and dry for use the following night.

Heating a horse isn't so dangerous. It's the cooling off.

A healing liniment much liked by horsemen is made as follows: One part liquid carbolic acid, four parts glycerin and six parts sweet oil.

Missouri and Good Roads.

There are 125,000 miles of roads in Missouri. On 30 per cent of the mileage, however, is carried 90 per cent of the business transacted. While all roads need to be improved, the largest need is of course upon the main traveled highways, says the Columbia Herald. The cost of good roads was estimated at the Chillicothe convention differently by different speakers. Largely it was a question of material available in the various localities. From Boone county came a report that gravel roads were under construction at \$1,700 a mile. This was a conservative estimate. After a dirt road had been put in well graded condition it was demonstrated, by the use of the drag at practically normal expense. It is not to be wondered at, therefore, with its demand for a new constitution and for the training of good engineers, that the convention adopted a resolution favoring legislation looking toward the more general employment of the drag. "The best road materials," it was decided, "were men and money, cash taxes and competent engineers." The state board of agriculture is planning to follow up the Chillicothe convention with other conventions in different towns. The good roads campaign in Missouri is on in earnest.

Church a Head Builder.

No part of the Dickinson valley, in Pennsylvania, having thus far received a share of the state's good roads appropriation, an energetic campaign for improved highways has been opened in the vicinity of Pottsville, Pa., and the two strongest and oldest churches of the region are lending hearty cooperation, says a Pottsville correspondent of the Philadelphia Record. The members of the New Goshenopen Reformed church, who want the road from this borough to the church improved, have decided not to wait for state aid. They have effected an agreement with the supervisors of Upper Hanover township and will contribute \$300 toward a fund for rebuilding the road, the township providing the remainder of the money. The members of St. Paul's Lutheran church, which is also situated about a mile outside of town on the opposite side of the borough, are engaged in a somewhat similar enterprise.

CURE YOUR KIDNEYS.

Do Not Endanger Life When a Sufferer Shows You the Cure.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, languor, why allow themselves to become chronic invalids, when a certain cure is offered them?

Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work.

If you have any, even one, of the symptoms of kidney diseases, cure your self now, before diabetes, dropsy or Bright's disease sets in.

Mrs. L. Hodson, of 717 Anna St., Pendleton, Ore., says: "I just as enthusiastically endorse Doan's Kidney Pills today as I did nearly three years ago. They relieved me of kidney trouble which had bothered me for a considerable time. There was aching pains across the small of my back and down through my kidneys, which were aggravated by colds which settled in the back and loins and caused an awful lameness. This was my condition when I began taking Doan's Kidney Pills. This remedy banished the backache and pains through the loins, regulated the kidney secretions and removed every symptom of the trouble. From that day to this there has been no recurrence, and I give Doan's Kidney Pills all the credit. I consider them to be the best kidney remedy procurable and recommend them whenever the occasion arises."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.
