

Polk County Observer

J. C. HAYTER, EDITOR AND PUBLISHER. Published Weekly and Semi-Weekly at \$1.50 per Year. Strictly in Advance. DALLAS, OREGON, JULY 5, 1907. The way to build up Dallas is to patronize Dallas people.

Wherever there is a sale of blooded livestock going on, be it in Oregon, Chicago, Kansas City, or Canada, there you will find some Polk county farmer bidding in the choicest animals. Price cuts little figure with these men in securing the stock they are after. It is safe to assert that there are more prize-winning animals from the big Eastern livestock shows owned in Polk county than in any other county in the United States. This enterprising and progressive spirit among the farmers is advertising Old Polk far and wide as the home of blooded horses, cattle, sheep, goats and hogs, and is responsible in a very large measure for the rapidly increasing prosperity of the county. The farmers are just now devoting their attention largely to dairy stock. A recent number of the Salem Statesman says: "At an auction sale of Jersey cows held at Turner last week, one farmer from Polk county took four young cows at \$206. The demand for dairy cows was never better."

ter, Mrs. Edward Gerlinger. He made many friends during his stay in Dallas. The celebration was the occasion of a glad home-coming and many former residents of Dallas came back to spend the day with relatives and friends, thereby adding to the general enjoyment of the holiday. Some of the younger generation were highly amused and greatly edified Wednesday morning, by a conversation carried on in Chinook jargon between several of the old pioneers and an aged Grande Ronde Indian. The old Indian knew all the early pioneers and recalled the ancient enmity between Eph Shelton and Sibley Ann concerning the latter's grizzly bear story. For about a half hour the youth of Dallas stood around the corner where the old Chief was holding forth, with mouths open and eyes bulging, listening eagerly to the fluent stream of Chinook which has, in these days, become almost a dead language in Oregon.

Electricity for Lighting Is only expensive to people who are wasteful and careless. To you, who are naturally careful, it does not come high.

It is economical because it can be quickly turned off when not needed. With gas or kerosene there is the temptation to let the light burn when not needed to save bother of lighting and adjusting. In some homes the electric light bills amount to only one or two dollars per month. You can probably get some kind of artificial light for less money than electric light, but does it save you anything when it limits opportunities for work and recreation—ruins your eyesight—smokes your walls—makes decorations and increases household work. You could probably save a dollar tomorrow by going without your meals but it wouldn't be economy. It is not so much what you save, but how you save that counts. WILLAMETTE VALLEY CO. RATES—Residence on meters, per Kilowatt 15c; Residence, flat per month, 16c per 50c. RATES FOR BUSINESS HOUSES—25c per drop and 5c per Kilowatt up to 10 drops; over 10 drops 20c per drop and 5c per Kilowatt up to 40 drops; over 40 drops 17c per drop and 5c per Kilowatt.
