DALLAS, OREGON, JULY 12, 1907.

The way to build up Dallas is to patronize Dallas people.

MUNICIPAL OWNERSHIP.

Let's see, wasn't it down in Newberg that water was so cheap and plentiful that the city was almost willing to put it in the houses for nothing and pay the property-owners for sprinkling their lawns with it? Seems to us like we heard something of that sort from local advocates of municipal ownership a year or two ago. Here is what the Newberg Graphic says about it:

"As will be seen by the report of the last meeting of the council, a large number of water consumers have been ordered to put in meters. Had this economical streak struck the council before the expenses of the new water system had been incurred, there might have been some show of reason in it, but since it is supposed at least that the supply will be abundant as soon as the system is completed, which will be within a few days, this action looks rather arbitrary. The intention no doubt is to get more revenue from the consumers. Whether they will succeed or not remains to be seen. As for the Graphic, if the expenses of a meter must be added, with the uncertainty of the monthly rate to be considered, other power will be resorted to, and others will take the same view of the matter."

The Albany Morning Herald has been enlarged to a seven-column folio and presents a neat and prosperous appearance.

The Albany Herald says wool grown in Linn, Marion and Lane counties is of better quality than that raised in Polk and the counties on the north and west. All of which would be interesting, if true.

B. I. Ferguson, a progressive fruit-grower of Eola, Polk county, marketed 27,500 pounds of Royal Anne cherries from an orchard of only 1¼ acres. The fruit brought him the handsome sum of $1350. That's the kind of farming that pays.

The fruitgrowers of Benton county met in Corvallis this week and perfected an organization for the advancement of their mutual interests, the improvement of the grade of Benton's fruit output, and the enforcement of the existing fruit laws.

A large extra edition of Friday's OBSERVER, containing a complete story of the big Fourth of July celebration, was quickly exhausted. Large numbers of the papers were bought by residents of Dallas, to be mailed to friends and relatives in the East and to spread the fame of "The Town That Does Things."

The editor of Physical Culture recently argued that Japan would whip the United States in case war should arise, because her people are vegetarians and the Americans are not. Since the showing that has been made at Fort Stevens, we are inclined to think that there is still some show for us, should war be declared, even though our men do occasionally indulge in the tender and juicy beef steak.

Noticeable among the occurrences of the past month have been the the arrivals of numerous capitalists from Texas and other states in the South and Middle West, either seeking business locations or looking after real estate investments already made. To the close observer and careful thinker, the fact that Dallas is becoming the headquarters of this ingress of new people is significant.

The election of C. L. Starr to the responsible office of Secretary by the new State Board of Normal Regents is a merited recognition of past efficiency and faithfulness to duty. Mr. Starr stands in the very front rank of Oregon's able educators, and is in every way qualified to fill the office to which he has been elected. Young, active, capable, a man of untiring energy and unsurpassed ability as an organizer, he will prove an invaluable assistant to the men who have been chosen to control the destinies of Oregon's four normal schools.

"The Blood is The Life."

Science has never gone beyond the above simple statement of scripture. But it has illuminated that statement and given it a meaning ever broadening with the increasing breadth of knowledge. When the blood is "bad" or impure it is not alone the body which suffers through disease. The brain is also clouded, the mind and judgement are effected, and many an evil deed or impure thought may be directly traced to the impurity of the blood. Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It enriches and purifies the blood thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by inclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

You can't afford to accept any medicine of *unknown composition* as a substitute for "Golden Medical Discovery," which is a medicine OF KNOWN COMPOSITION, having a complete list of ingredients in plain English on its bottle-wrapper, the same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels.

Electricity for Lighting

Is only expensive to people who are wasteful and careless. To you, who are naturally careful, it does not come high.

It is economical because it can be quickly turned off when not needed. With gas or kerosene there is the temptation to let light burn when not needed to save bother of lighting and adjusting. In some homes the electric light bills amount to only one or two dollars per month. You can probably get some kind of artificial light for less money than electric light, but does it save you anything when it limits opportunities for work and recreation—ruins your eyesight—smokes your walls—mars decorations and increases household work. You could probably save a dollar tomorrow by going without your meals but it wouldn't be economy. It is not so much what you save, but how you save that counts.

WILLAMETTE VALLEY CO. RATES—Residence on meters, per Kilowatt 15c; Residence, flat per month, 16cp 50c. RATES FOR BUSINESS HOUSES—25c per drop and 5c per Kilowatt up to 10 drops; over 10 drops 20c per drop and 5c per Kilowatt up to 40 drops; over 40 drops 17½c per drop and 5c per Kilowatt. A drop figures 16cp or less. For power rates apply at the office. We are always ready to explain the "ins and outs" of the lighting proposition to you, call on us or phone to us, we are never to busy to talk business.
