DALLAS, OREGON, JULY 16, 1907.
The way to build up Dallas is to patronize Dallas people.

An exchange complains that the prosecution of Schmitz is the work of partisans, and that "the Spreckels gang is trying to get control of the city." Well, they couldn't make it any worse than it has been, could they?

H. M. Williamson, Secretary of the State Board of Agriculture, has lately proven that the rainfall in Oregon during the growing season for apples is less profuse and destructive than in any of the other apple states. We may outgrow the title "Webfoot" yet.

Polk county against the world for producing the premium cherries; especially that part bordering the western boundary of Salem. Several of the growers from over there came and conquered. As proof of it, we submit the fact that Polk county cherry-growers received 15 out of the 34 premiums awarded at the Salem cherry fair.—Salem Statesman.

Commenting editorially upon the election of C. L. Starr to the office of Secretary of the State Normal Board, the Salem Journal says: "Secretary Starr has a reputation of being one of the most progressive county superintendents of the state. He recently resigned to become editor of a country newspaper, when he was getting \$1000 a year, which shows that he is a man of nerve and enterprise."

Those Willamette Valley business men who fear that the extension of electric lines from Portland into the interior will take business away from them and divert it to the metropolis, may be somewhat relieved by the information that an Albany job printer has gone into the Portland field and secured a large amount of work, doing work to the amount of \$3000 a year for one Portland merchant. Lower rent, lower wages, lower living expenses, lower insurance, enable the Albany printer to compete with the Portland houses. In many other lines of industry the same thing can be done, and will be done more extensively when lower passenger fares and a more frequent service afford better means for communication.—Oregonian.

W. O. Trine, better known to the sportsmen of the Northwest as "Dad" Trine, died Saturday night at Corvallis from a cancer of the face. "Dad" Trine was an authority on horses, and was well known and respected by those who frequented the track at the State Fair. As a trainer of track teams, he stood without a peer in the northwest, having turned out more record breaking men in all departments of athletics than any other coach. He never resorted to "dope" to stimulate a man to record feats of speed and endurance, and he never employed underhanded or unsportsmanlike methods to win a single one of the many track meets in which he came off victorious. For five years he was coach of the U. of O. track team and for four years physical director at Corvallis. He had also coached in most of the leading clubs and colleges in Washington, and not one of these has anything but good to say of him as a man and as a trainer.

Wanted.
Second-hand hop baler. Inquire of N. G. HARRIS, Dallas. Mutual phone. 7-16-2t.

A pitiful tragedy occurred at Pedee yesterday morning in the drowning of the one-year-old daughter of Mr. and Mrs. A. Burbank. The parents of the little girl had left her on the porch, and, not thinking of danger, did not notice her disappearance for some time. When her absence was noted, a frantic search was made and it was soon discovered that the child had strayed into the water closet, where she had met death by drowning. Every effort was made to resuscitate the little body, but all in vain. So fearful a blow, falling with such stunning unexpectedness, will call out the deepest sympathy of all for the bereaved parents.

The Tabernacle meetings conducted by Dr. Martin are well attended this week. His sermon on "Popular Amusements" on Sunday night drew the best audience thus far in the meeting. It was an able sermon and was almost universally commended. The meetings will probably close on Sunday night.

While in Falls City last Friday, we found Merchant Toose busily engaged in preparing goods to be shipped to his new branch store at Black Rock. The Falls City store now occupies five floors and a large annex. Fourteen clerks are employed in the store, and all are kept busy. Mr. Toose is planning many improvements to enable him to better handle his rapidly growing business.

While working in the timber above Black Rock yesterday, Earl Shelton, a logger in the employ of the Spaulding company, met with an accident which resulted in a broken leg. Few particulars are available, and it is not known whether the injury was caused by a falling tree or a rolling log. His father came down from Falls City this morning and took Mrs. Shelton back to nurse the invalid.

Electricity for Lighting
Is only expensive to people who are wasteful and careless. To you, who are naturally careful, it does not come high.

It is economical because it can be quickly turned off when not needed. With gas or kerosene there is the temptation to let light burn when not needed to save bother of lighting and adjusting. In some homes the electric light bills amount to one or two dollars per month. You can probably get some kind of artificial light for less money than electric light, but does it save you anything when it limits opportunities for work and recreation—ruins your eyesight—smokes your walls—mars decorations and increases household work. You could probably save a dollar tomorrow by going without your meals but it wouldn't be economy. It is not so much what you save, but how you save that counts.

WILLAMETTE VALLEY CO. RATES—Residence on meters, per Kilowatt 15c; Residence, flat per month, 150c; 50c. RATES FOR BUSINESS HOUSES—25c per drop and 5c per Kilowatt up to 10 drops; over 10 drops 20c per drop and 5c per Kilowatt up to 40 drops; over 40 drops 17c per drop and 5c per Kilowatt. A drop figures 16c or less. For power rates apply at the office. We are always ready to explain the "ins and outs" of the lighting proposition to you, call on us or phone to us, we are never too busy to talk business.
