A cough or cold is generally a forerunuer of many serious sick spells. It should not be neglected, the human breathing system is a combination of tubes and cells, which must be kept in order to insure good health.

### Electricity for Lighting

Is only expensive to people who are wasteful and careless. To you, who are naturally careful, it does not come high.

It is economical because it can be quickly turned off when not needed. With gas or kerosene there is the temptation to let light burn when not needed to save bother of lighting and adjusting. In some homes the electric light bills amount to only one or two dollars per month. You can probably get some kind of artificial light for less money than electric light, but does it save you anything when it limits opportunities for work and recreation—ruins your eyesight—smokes your walls—mars decorations and increases household work. You could probably save a dollar tomorrow by going without your meals but it wouldn't be economy. It is not so much what you save, but how you save that counts.

## Telephone Gossip.

"Do you know whether the new Feed Store is doing much

business?" "Yes. I hear quite a good deal, but I understand Mr. Moore

is cutting prices." Such was the tenor of conversation by phone the other day between two business men. But let me say right here and now that the New Feed Store is not cutting prices, but selling goods at reasonable prices, giving patrons a square deal; thus receiving patronage by being content with living profits - and I will give the public the assurance that I will continue to do business on that basis. Yours for a square deal.
