FRIEND TO FRIEND.

The personal recommendations of people who have been cured of coughs and colds by Chamberlain's Cough Remedy have done more than all else to make it a staple article of trade and commerce over a large part of the civilized world.

AN INSTANCE.

Lucy Suddreth, of Lenoir, N. C., had been troubled with a very bad cough for over a year. She says: "A friend bought a bottle of Chamberlain's Cough Remedy, brought it to me and insisted that I should take it. I did so and to my surprise it helped me. Four bottles of it cured me of my cough."

GOOD WORK
Done Daily in Dallas.

Nearly every reader has heard of Doan's Kidney Pills. Their good work still continues, and our citizens are constantly adding endorsement by public testimony. No better proof of merit can be had than the experience of friends and neighbors. Read this case:

Mrs. N. Swaggert, of 819 Garden St., Pendleton, Ore., says: "Both my husband and myself have used Doan's Kidney Pills with most gratifying results. Mr. Swaggert was troubled quite severely with his back and kidneys for a long time, and nothing ever helped him as Doan's Kidney Pills have. I have known of the healing and curative power of this remedy for some time, and found that a few doses would quickly remove any lameness or pain in the back caused by kidney derangement. I am glad to help make Doan's Kidney Pills better known to all afflicted with backache or kidney trouble."

Price 50 cents. For sale by all dealers. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

HEALTH REGULATIONS.

Good Grooming of Cow and Milker.
Exact Milk Handling.

The New York city department of health has issued concise rules to farmers and dairymen for the regulation of its milk supply. These regulations are amplified with a number of recommendations, among which are the following:

The cows should be kept at all times in a healthy condition, and an examination by a veterinary surgeon should be made twice a year.

The cows should be groomed daily, and manure, mud or other filth should not be allowed to remain upon their flanks, sides, udders or bellies during milking.

The clipping of long hairs from the udder and the right side of the cow is of assistance in preventing the collection of filth which may drop into the milk.

The tails should be cut so that the brush should be well above the ground. In winter the tail may be clipped.

The cows should be bedded with sawdust, shavings, dried leaves, straw or some equally clean material.

The use of horse manure for bedding is to be condemned.

To prevent the cows from lying down and getting dirty between cleaning and milking a throatlatch of rope or chain should be fastened across the stanchions under the cow's neck.

The milkers should be clean.

Their hands should be thoroughly washed with soap and water and carefully dried on clean towels before milking.

Clean overalls and jumpers should be worn during the milking of the cows, should be used for no other purpose and when not in use should be kept in a clean place, protected from dust.

The hands and feet should be kept dry during milking.

The practice of moistening the hands with milk is to be condemned.

The first few streams from each teat should be rejected, as these contain more bacteria than the rest of the milk.

All milk drawn from the cows thirty days before and ten days after calving should be rejected and also all milk from diseased cows.

The pail in which the milk is drawn should have as small an opening at the top as can be used in milking. This renders collection of dust less likely.

The milking should be done rapidly and quietly, and the cows should be treated kindly.

Dry fodder should not be fed to the cows during or just before milking, as dust therefrom will fall into the milk.

The milk should be removed as soon as drawn to the milk house and strained and cooled to the proper temperature at once.

If aerators are used they should stand where the air is free from dust or odor, and on no account should they be used in a stable.

CURE YOUR KIDNEYS

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, languor. Why allow themselves to be made chronic invalids, when a certain cure is offered them?

Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work.

If you have any, even one, of the symptoms of kidney diseases, cure your self now, before diabetes, dropsy or Bright's disease sets in.

Mrs. L. Holson, of 717 Aura St., Pendleton, Ore., says: "I just as enthusiastically endorse Doan's Kidney Pills today as I did nearly three years ago. They relieved me of kidney trouble which had bothered me for a considerable time. There was aching pains across the small of my back and down through my kidneys, which were aggravated by colds which settled in the back and loins and caused an awful lameness. This was my condition when I began taking Doan's Kidney Pills. This remedy banished the backache and pains through the loins, regulated the kidney secretions and removed every symptom of the trouble. From that day to this there has been no recurrence, and I give Doan's Kidney Pills all the credit. I consider them to be the best kidney remedy procurable and recommend them whenever the occasion arises."
