SODA AND BOTTLING WORKS

Work on Gideon Stolz Company's New Factory in Dallas Begins Today.

The proposed bottling factory in Dallas will be in active operation within a short time, as the machinery for the plant has already been ordered, and work has been commenced on the erection of the building.

Gideon Stolz, of Salem, a man of years of experience in the business, is managing the enterprise, and has already shown by the activity with which he is carrying on his preparations, that he intends to make it an early and complete success. When Mr. Stolz and his son, Walter, came over from Salem yesterday morning at 10 o'clock, they had formulated no definite plans concerning the erection of the factory, but so prompt and effective was their action after their arrival in this city that before 3 o'clock yesterday afternoon they had all the necessary lumber on the ground and had the carpenters at work on the foundations.

Mr. Stolz says that the soda works will be installed first, and later he intends to enlarge the business so as to comprise the bottling of fruit juices and the manufacture of vinegar, a business in which he has won wide and richly deserved fame. He will later undertake the manufacture of sprays in which he has previously met with good success.

He says that he can promise the people of Dallas a bottling plant as extensive and well equipped as is generally found in a city of 25,000 inhabitants, and adds that he is convinced that the market will fully warrant his action.

Dudley Purvine, the general foreman of Mr. Stolz's establishment in Salem, will superintend the construction of the Dallas factory and the installation of the machinery.

Wise Talks

By U. S. Loughary's Office Boy

Did you ever have the grip, ache all over in spots, and have your head feel as though you'd been out the night before trying to make "Milwaukee famous," when in reality you went to bed at 7:30 with an antiseptic plaster over your wishbone and your system full of hot lemonade and flaxseed tea and your mouth all puckered up with quinine? Pa says there is no parting so bitter as the parting of a quinine capsule just as you are in the act of swallowing it. Ma hasn't any doctor's diploma, but when it comes to things like grip or cold, she knows the proper dope to knock them silly. And when you're coming through, she knows how to make the dandy broth and gelatine and poached eggs and lots of things to bring you right up on the bit and make you feel like old self again. We have all the things and lots more, like olive oil and grape juice and stuff to tone up your system after you have been up against it.
