WINTER COLDS you need not fear them if you use BALLARD'S HOREHOUND SYRUP

A cough or cold is generally a forerunner of many serious sick spells. It should not be neglected, the human breathing system is a combination of tubes and cells, which must be kept in order to insure good health.

Ballard's Horehound Syrup

CURES COUGHS, COLDS, BRONCHITIS, WHOOPING COUGH, CROUP AND ALL PULMONARY DISEASES.

Cured of a Chronic Cough.

J. H. Ellis, Butte, Mont., writes: "I cheerfully recommend Ballard's Horehound Syrup to all people afflicted with chronic coughs. I suffered for years with a chronic cough which would last all winter. Ballard's Horehound Syrup effected an immediate and permanent cure."

GOOD WORK

Done Daily in Dallas.

Nearly every reader has heard of Doan's Kidney Pills. Their good work still continues, and our citizens are constantly adding endorsement by public testimony. No better proof of merit can be had than the experience of friends and neighbors. Read this case:

Mrs. N. Swaggert, of 819 Garden St., Pendleton, Ore., says: "Both my husband and myself have used Doan's Kidney Pills with most gratifying results. Mr. Swaggert was troubled quite severely with his back and kidneys for a long time, and nothing ever helped him as Doan's Kidney Pills have. I have known of the healing and curative power of this remedy for some time, and found that a few doses would quickly remove any lameness or pain in the back caused by kidney derangement. I am glad to help make Doan's Kidney Pills better known to all afflicted with backache or kidney trouble."

Price 50 cents. For sale by all dealers. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

FRIEND TO FRIEND.

The personal recommendations of people who have been cured of coughs and colds by Chamberlain's Cough Remedy have done more than all else to make it a staple article of trade and commerce over a large part of the civilized world.

AN INSTANCE.

Lucy Suddreth, of Lenoir, N. C., had been troubled with a very bad cough for over a year. She says: "A friend bought a bottle of CHAMBERLAIN'S COUGH REMEDY, brought it to me and insisted that I should take it. I did so and to my surprise it helped me. Four bottles of it cured me of my cough."

MUCH SOFT CORN.

Too Poor For Commerce and Will Be Fed on Farms.

Much question having arisen as to the conditions of the corn crop, which the completion of husking has revealed, the American Agriculturist, often an independent investigation upon this point, reports in part as follows:

It is the almost universal testimony of the correspondents in the important corn states, and particularly in the Ohio and Missouri valleys, that the quality of the crop is even poorer than was believed a month ago. Completion of husking emphasizes the fact that the grain this year is unusually immature, soft and full of moisture and that it is not of a quality to insure its safe keeping.

Heavy Farm Feeding.

The comparatively high prices ruling having led some to the opinion that a larger part of the crop would be marketed in commercial channels than usual, the returns upon this point in a decided majority of cases were that more than the ordinary percentage of this year's crop would be fed upon farms. This is accounted for by the poor quality of the crop, which renders a large part of it unavailable for commercial purposes, by the liberal supply of hogs and cattle for feeding purposes and by the fact that on account of its inferior nutritive value a larger amount than usual must be fed in order to accomplish the same results.

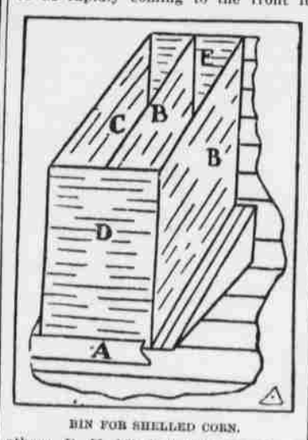
Fortunate Districts.

On the other hand, in a good many localities, particularly in Kansas, Missouri and the more southern part of the belt where the crop dried out better the present disparity in price between corn and fat hogs and cattle makes the sale of corn more attractive, and there are indications that it will be sold close and animals carried over for future feeding. This tendency, however, apparently is about offset by the fact that animals already fitted for market are being held and further fed because of the recent low prices for fat stock.

CORN BIN.

An Arrangement Suggested For Storing Shelled Corn.

Storage for shelled corn is a condition that does not have to be provided for in some sections; but, as it seems to be rapidly coming to the front in



BIN FOR SHELLED CORN.

others, R. H. Mitchell sends to Country Gentleman the accompanying illustration of an arrangement to meet this need, submitting it for what it may be worth.

As may be seen, it is a bin with a slanting floor, having cracks perhaps an eighth of an inch in width, divided into compartments by hollow partitions. A trough, A, makes it convenient to shovel up the corn. The partition B, the end C and the sides D and E should also be slats an eighth of an inch apart. The divisions B could be made of two inch furring strips nailed on both sides of the same for battens.

The width of each compartment would have to be determined by experiment, but probably eight inches would be about right. Of course the depth and height would be a matter of convenience.

Notice of Final Settlement.

Notice is hereby given that the undersigned, as administrator of the estate of Mary Riley, deceased, has filed his final account in the County Court of the State of Oregon, for Polk County, and that Monday, the 6th day of April, 1908, at the hour of ten o'clock in the forenoon of said day, at the Court room of the said County Court in the City of Dallas, Oregon, has been appointed by said Court as the time and place for the hearing of objections to the said final account and the settlement thereof.

PAUL FUNDMAN,
Administrator of the estate of Mary Riley, deceased

Oscar Hayter, Attorney.
Dated and first published March 6th, 1908.

Summons.

In the Circuit Court of the State of Oregon for the County of Polk, Department No. 2.

John Cornforth, Plaintiff, vs. Emma Finley McBride, widow, J. A. Finley and Gertrude Finley, his wife, S. H. Finley and Ida H. Finley, his wife, A. G. Finley and Helen R. Finley his wife, S. S. Finley and Pearl W. Finley, his wife, Lulu B. Finley, unmarried, Sallie H. Finley, unmarried, Frank Gibson and Sarah Gibson, his wife, Henry Schomaker and Olive Schomaker, his wife, J. B. Putnam and Agnes Putnam, his wife, James Emery, unmarried, and Henry E. Sterling, unmarried, Defendants.

To Emma Finley McBride, J. A. Finley, Gertrude Finley, S. H. Finley, Ida H. Finley, A. G. Finley, Helen R. Finley, S. S. Finley, Pearl W. Finley, Lulu B. Finley, Sallie H. Finley, Frank Gibson, Sarah Gibson, James Emery and Henry E. Sterling, the above named Defendants:

In the Name of the State of Oregon, You, and each of you, are hereby required to appear and answer the complaint filed against you in the above entitled suit on or before Saturday, the 18th day of April, 1908, that being the last day for your appearance or answer by you, fixed by an Order of this Court for the publication of this Summons and if you fail so to appear or answer, for want thereof, the Plaintiff will apply to the above named Court for the relief prayed for in his Complaint herein, to-wit:

That Plaintiff is the owner in fee simple of the whole of the following described lands and premises, to-wit:

All of Lots 4, 5, 6, 7, 8, 9, 10, 11, 12 and 13 in the West Side Fruit Farms in Polk County, State of Oregon, as said lots are shown and delineated on the plat of said West Side Fruit Farms now of record in the office of the County Clerk of Polk County, Oregon.

That the Defendants have no right, title or interest therein or thereto and that the Defendants be required to set forth by answer the nature of their claim to said lands and premises, if any they have, that all adverse claims of Defendants, or either of them, may be determined by a Decree of this Court, that the Defendants be forever enjoined and debarred from asserting any claim whatever in or to said lands or any part thereof adverse to this Plaintiff, and for such other and further relief as to the Court shall seem meet and equitable.

This summons is published for six consecutive weeks in the Polk County Observer by order of the Hon. William Galloway, Judge of the Circuit Court of the State of Oregon, for the County of Polk, which said order was made at Chambers, in the City of Dallas, in Polk County, Oregon, on the 31 day of March, 1908, the first publication being ordered to be made on the 6th day of March, 1908, and the last publication on the 17th day of April, 1908, and the defendants being required to answer said Complaint on or before the 18th day of April, 1908.

A. G. CONDIT,
Attorney for Plaintiff.

Fruit and Flowers

LARGE LEMONS.

An Interesting Plant Which Produces Fruit In Abundance.

While scientists and investigators often spend years in trying to produce new varieties, it often happens that nature in a short time produces unexpected results. Such was the case with the Ponderosa lemon, and it is a hybrid or cross between the lemon and pomelo or, as it is perhaps better known by most people, the grape fruit.

From the lemon the fruit gets the well known characteristics of that plant, while from the pomelo the large

THE PONDEROSA LEMON.

size of the fruit is undoubtedly obtained. There are other hybrids between lemons and so called pomelos, but they are not the true pomelo and are what are termed shaddocks, explains a writer in Floral Life. The fruit of these hybrids is not highly esteemed by many. The Ponderosa lemons, however, are entirely different and are the largest used for domestic purposes.

It is indeed a beautiful and most interesting sight to see a good sized Ponderosa lemon plant laden with green and also ripe, yellow fruit, which, together with the wondrously pure white flowers and the background of leaves of deepest green, make a most pleasing and striking effect. Then, too, this plant is remarkable for its bearing qualities. A small plant in a six or eight inch pot has produced at the same time a number of large lemons, averaging nearly two pounds each, while a large plant has produced several dozen lemons on a single branch.

With the commercial varieties of the ordinary lemon the effort is made to produce lemons rather small, but of uniform size. Since in this country the ordinary lemon flourishes only in frost proof localities, there are only a few sections where the soil and climate are adapted for its culture. But the Ponderosa lemon can be grown indoors as any house plant and, if desired, may be kept outside in summer. What might be done with the Ponderosa lemon if the attempt was made to grow it for the sale of the lemons on the market we do not know, but the crop would be large from any standpoint. However, this plant is grown for decoration purposes chiefly and only incidentally for fruit. Thus it pays double dividends.

Its culture is easy, and there are no particular difficulties to contend with. The chief point to guard against is the tendency most people have to use too large a pot, especially at first. A plant three years old should have about a six inch pot. Large spreading plants—trees rather, you might say—six or eight feet high, thrive for years in an ordinary sized tub. It is safer to use too small rather than too large a pot at first.

The soil may be any good garden soil, and some recommend that just under sod, especially if a little heavy. Place an inch or two of broken crockery or similar material in the bottom of the pot for drainage purposes. Liquid manure may be given at intervals during the growing season. Water freely when necessary. Do not let it get dry either.

Keeping Quality of Apples.

The keeping quality of the apple has been tested when stored in barrels, bushel boxes and crates. For tender, quick ripening fall varieties a box has given the best results, as the fruit cools more quickly than it does in a barrel. The barrel is satisfactory for the slow ripening winter varieties, while an open crate is desirable only when the fruit is to be stored for a short time, as it is likely to shrivel when stored in an open package.
