## DEATH AND DISASTER.

The awful accident which occurred at the Dallas car shops Wednesday afternoon, in which one young man lost his life and another was rendered a cripple for the remainder of his days, has cast a gloom over the entire community.

The victims of the disaster were brothers—honest, industrious German boys, whose ambition to attain the highest possible success in their chosen occupations had led them to bid farewell to the Fatherland and seek homes and employment in a country of greater opportunity.

Thus fortunately situated, the young men had built new homes and had settled down to work, happy in the thought that they had at last found the long-sought opportunity for pursuing their chosen occupations, providing a comfortable living for the wives and little ones, and, perhaps, laying by a competence for old age.

Hon. H. M. Calkins is making a creditable campaign, and his nomination, never seriously in doubt, is now practically assured by a rousing majority.

Those of Senator Fulton's supporters who were actively engaged in fighting every legislative candidate on the Statement No. 1 platform have become strangely quiet since the Senator's return from Washington.

## Electricity for Lighting

It is only expensive to people who are wasteful and careless. To you, who are naturally careful, it does not come high.

It is economical because it can be quickly turned off when not needed. With gas or kerosene the temptation to let light burn when not needed to save bother of lighting and adjusting. In some homes the electric light bills amount to only one or two dollars per month, than electric light, but does it save you anything when it limits opportunities for work and recreation—ruins your eyesight—smokes your walls—mars decorations and increases household work. You could probably save a dollar tomorrow by going without your meals but it wouldn't be economy. It is not so much what you save, but how you save that counts.

WILLAMETTE VALLEY CO. RATES—Residence on meters, per Kilowatt 12c; residence, flat per month, 16c per Kilowatt.
