JONES COMPLAINT SUSTAINED

Corvallis & Eastern Railroad Ordered to Furnish Greatly Needed Train Service.

The railroad commission in a decision, which follows in part, censures the Corvallis & Eastern Railroad company for its passenger accommodations on the lines from Albany and Corvallis to Yaquina and Toledo:

"It is ordered that the railroad company defendant shall in the future supply sufficient passenger cars so that all persons leaving Corvallis or Albany westbound and Yaquina and Toledo eastbound may have a seat; and that the second class coach shall be supplied with ventilators."

The railroad company will have 20 days in which to make the necessary alterations. The case was brought on complaint of R. F. Jones, of Independence, formerly of Toledo.

High Pressure Days.

Men and women alike have to work incessantly with brain and hand to hold their own nowadays. Never were the demands of business, the wants of the family, the requirements of society more numerous. The first effect of the praiseworthy effort to keep up with all these things is commonly seen in a weakened or debilitated condition of the nervous system, which results in dyspepsia, defective nutrition of both body and brain, and in extreme cases in complete nervous prostration. It is clearly seen that what is needed is what will sustain the system, give vigor and tone to the nerves, and keep the digestive and assimilative functions healthy and active. From personal knowledge, we can recommend Hood's Sarsaparilla for this purpose. It acts on all the vital organs, builds up the whole system, and fits men and women for these high-pressure days.

FULTON FLAYS HENEY

Oregon Senator Pays His Respects to Noted Prosecutor in No Uncertain Language.

United States Senator Charles W. Fulton addressed a fair-sized crowd of citizens of Dallas and neighboring towns in the Courthouse, Tuesday night. A special train brought a number of people from Falls City, a goodly representation drove over from Independence and Monmouth, and the courtroom was comfortably filled by an earnest and attentive throng.

Hon. Walter L. Tooz, of Falls City, introduced the speaker in a brief, but eloquent talk, touching upon the important issues now before the American people and paying a high tribute to Oregon's senior senator in Congress.

Mr. Fulton then came forward and received a hearty ovation. He thanked the people for their presence and their interest in his campaign, saying that as he had been elevated to his present office by the people of Oregon, he deemed it his duty to appear before them in person, give an account of his stewardship, and offer his defense from the attacks that had been made against his character.

He said that prior to the attack made upon him by Prosecutor Heney, he had been undecided as to whether he would again enter the race for the office of Senator, and declared that he had been practically driven into his present course of action by the malicious slanders of his enemies. He branded the accusations of Mr. Heney as willful and malicious lies, and denounced the California man in scathing terms as one whose actions against him had been prompted by motives of personal hatred. His entire answer was in the nature of a general denial, and contained no new or sensational features, being practically along the lines of his letter to the press several weeks ago and of his recent speeches in Medford and other Southern Oregon towns.

In the course of his argument, the Senator read copies of several of the letters and affidavits that have figured most importantly in the contest between himself and those whom he alleges have basely slandered him. He also referred briefly to the famous hold-up session of the Oregon Legislature, and declared that the people would never return to the old political methods.

Before closing his address, Senator Fulton repeated the statements that he made when he first returned to Oregon concerning his position on Statement No. 1. He declared that he had never opposed that feature of the primary law, but felt that it was a matter which should be left entirely to the legislative candidates. He said he had always favored the election of United States Senators by a direct vote of the people, and that he would gladly support such an amendment to the National constitution if ever given the opportunity to do so. He added, however, that personally he could see

no difference in the effect of such an amendment and that of Statement No. 1.

Mr. Fulton spoke for nearly two hours, and held the closest attention of his audience at all times. He was slightly hoarse from the effects of continuous speaking during the last ten days, but succeeded in making himself heard distinctly in all parts of the room. He will continue his tour into Eastern Oregon this week and will remain in Oregon until after the primary election.

Promising Colt.

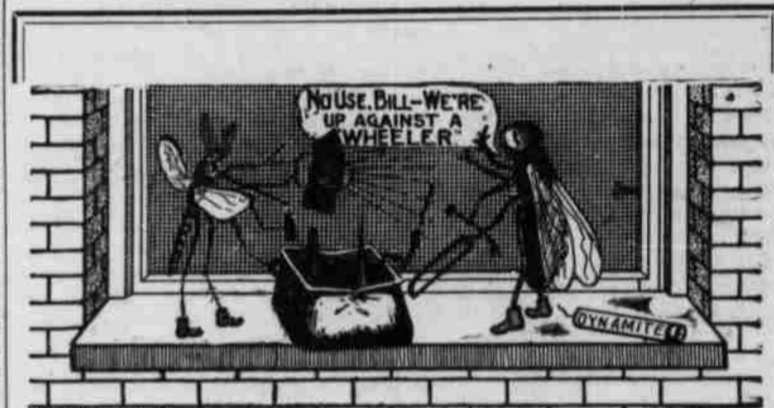

That Oregon produces speed horses equal to the best was demonstrated beyond doubt to all who saw the beautiful 2-year-old colt, "St Salvana," at the Salem Horse Show. According to the pedigree furnished us by W. W. Percival, the well known horse breeder of Independence, "St Salvana" was sired by Salvation; dam, Glory's Love,

by Handsome; he by Hanover. His register number is 62,649. He was awarded first prize in the thoroughbred class for 2 years old and under 3, and is one of the promising youngsters that are destined to maintain Oregon's fame as a producer of high-class speed horses.

Mohair Meeting.

H. L. Fenton, secretary of the Polk County Mohair Association, announces that a meeting of the association will be held at the Court House in Dallas tomorrow (Saturday) for the purpose of changing the date for the sale of the mohair pool, as the primary elections are to be held on the day already set. Other important business is to be transacted and he urges every member of the association to be present if possible. All who are able are advised to bring their mohair to Dallas at that time.

H. S. Portwood, of Airle, is in Dallas on business.

Daring Burglars Foiled!

The residences of several of our best citizens were attacked by a band of blacklegs now infesting this city, in the shape of Flies, Mosquitos, Gnats, Bugs and Worms. But we are pleased to state that the blood-thirsty villains were foiled at every house where we have sold Wheeler screens—the only real Scientific Screen.

These Screens are really "burglar-proof," for they are the only Locking Screen; a burglar would have to cut the wire—which would waken any one! People who sleep on first floors appreciate them.

Ten-Day Free Trial

On any or every window you wish to screen. No matter what you thought to buy, or what you thought to pay, first use the Wheeler ten days free, and learn all that a Screen must do to satisfy year after year.

Off they come after the trial if they fail in any way.
