ROTTEN EGGS AND THEIR USES.
The city belle who throws a daisy like to her lover from the tip of her kid glove fingers is literally throwing him a rotten egg. As she kisses her glove or chews the tip in vexation because her lover does not return the salute she is perhaps unaware that the glove manufacturer dresses his "undressed kids" with a mixture of old spoiled egg in preparing them for market. They are new style gloves, but they have the fragrance of old style rotten egg on them.
The wine lover lifts the wineglass, looks through it and sees himself in the mirror opposite. How sparkling! How beautiful! How clear! The prohibitionist points to the serpent in the glass, but the elbow crook gulps it down. Wine manufacturers use spoiled eggs to clarify wines.
You lick a stamp and get some spoiled egg for your money. The young man kisses his girl's photograph and knows not that the photographer has prepared the paper with an added egg.
WHERE ROTTEN EGGS COME FROM.—They do not come from eggs at market. Our country relatives turn an egg inside out before they sell it. They are so conscientious that they will not sell watered stock. The rotten eggs for manufacturing purposes come from the big poultry plants. They are also called egg plants, and some of them bear nothing but rotten eggs.
One firm set 100,000 eggs last season and hatched 80,000 chicks. It was a problem what to do with the remaining 20,000 spoiled eggs. Market prices were low, and orders for hatching eggs from back yard fanciers were running short. They succeeded in selling them all to the manufacturers of gloves, calicoes, wines, photograph supplies and shoeblacking.
The cold storage firms had already stocked up with enough to supply your table for the season.
FEATHERS AND EGGSHELLS.
Shove those culis to the high priced market. Don't stand under when the drop comes.
Fresh eggs, like government bonds, are at a premium. The egg is the national asset. Invest.
Eggnog is not now the fad. It is cheaper to take it straight. Spruce beer is needed to keep some lazy poultrymen straight.
Why do so many poultry medicine firms offer "swelled head" remedies for prizes? Did you win?
When a man has lots of greed his hens get little feed. The liberal man has a full egg pan.
What is needed by the man who sells dirty eggs? A drubbing and scrubbing. Hands up!

OLD PEACH TREES.
Conditions Under Which the Complete Renewal Becomes Advisable.
The peach tree is a rapid grower under ordinary favorable conditions. It bears fruit only on wood of the previous season's growth. But even with careful annual pruning the peach tree will eventually get out of proportion and out of reasonable bounds. It is at this time that a complete renewal becomes advisable. This can be accomplished without the loss of a crop, providing the work be done early in the spring of a season in which the fruit buds have been destroyed by the rig-

TREE AFTER CUTTING BACK.

ors of winter, as is often the case in all sections of Ohio other than those bordering on Lake Erie. Where annual crops are the rule the fortunate orchardist may cut back a few of the branches of each tree each season, thereby keeping an adequate supply of new fruiting wood coming on. Lay down where pruning and spraying may be easily done and where the crop may be safely supported by the superior strength of the short, sturdy, well knit branches. Thus gradually the trees will become renewed, there will be no material loss in fruit production and the fruit will be of larger size because of the decreased number of specimens to be developed.—F. H. Ballou

Fruit Wrapping Machine.
A fruit wrapping machine has been put in operation in California. It requires practically no attention and entirely automatically wraps the fruit, says Country Gentleman. The fruit rolls down a slight incline to the operator, turning slowly over as it approaches him and giving him an opportunity to remove defective specimens. The fruit is lifted and placed stem up in rubber cups, which carry it to a mechanism operating much as the human hands. It is carried to the paper being cut and printed from the roll. The twist of the paper is made over the stem end, thus cushioning the stem and preventing puncture injury. If the machine becomes clogged, it is stopped by a clutch operated by electricity. A counting attachment registers the number wrapped. The capacity of the machine is said to equal six good wrappers.

Hardy Russian Apples.
Some of the Russian apples appear to be harder than any apples of American origin and have been the means of extending the culture of this fruit to southern Manitoba.

FOR THAT TIRED FEELING.
This is the time of year when some poultrymen get that tired feeling. They treat their hens as some farmers do their farm machinery. You may find the mowers down in the meadow where the last swath was cut, the scythe in the sour apple tree and the self binder in a snowdrift. That man may belong to the garage, but he is no farmer, and his main crops are mortgages, Canada thistles and trouble. He needs spruce beer tonic. His chickens roost on the old pear tree and the wagon wheel, and his taxes are larger than his wheat crop.
When a man professes religion, there are times when his liabilities are his assets, and no one knows that his bank vaults are full of hot air till they blow up. Sometimes he succeeds in fooling all the people all the time. But when a man pretends to be a farmer he has to show the goods. The condition of his farm gives the game away. He may gab all day on scientific principles in agriculture, but his neighbors round the stove at the crossroads store wink the other eye.
Such are some professed poultrymen. They like to visit other fellows' plants to suggest improvements, to judge their stock and to brag up their own goods. If cackle gets any one to the good place, they will surely get a seat up front with the angels.

Death Was On His Heels!
Jesse P. Morris, of Skippers, Va., had a close call in the spring of 1906. He says: "An attack of pneumonia left me so weak and with such a fearful cough that my friends declared consumption had me, and death was on my heels. Then I was persuaded to try Dr. King's New Discovery. It helped me immediately, and after taking two and a half bottles I was a well man again. I found out that New Discovery is the best remedy for coughs and lung disease in all the world." Sold under guarantee at Belt & Cherrington's drug store, 50c and \$1.00 Trial bottle free.

Out of 144 eggs 140 chicks were hatched in a Hood River incubator.
He Got What He Needed.
"Nine years ago it looked as if my time had come," says Mr. C. Farthing, of Mill Creek, Ind. "I was so run down that life hung on a very slender thread. It was then my druggist recommended Electric Bitters. I bought a bottle and I got what I needed—strength. I had one foot in the grave, but Electric Bitters put it back on the turf again, and I've been well ever since." Sold under guarantee at Belt & Cherrington's drug store, 50c.

A Twenty year Sentence.
"I have just completed a twenty year health sentence, imposed by Bucklen's Arnica Salve, which cured me of bleeding piles just twenty years ago," writes O. S. Woolver, of LeRayville, N. Y. A Common Mistake
Many women mistake kidney and bladder troubles for some irregularity peculiar to the sex. Foley's Kidney Remedy corrects irregularities and makes women well. Miss Carrie Harber, Bowling Green, Ky., writes: "I suffered much pain from kidney and bladder trouble until I started to use Foley's Kidney Remedy. The first bottle gave me great relief, and after taking the second bottle I was entirely well." Stairin Drug Co., Dallas; M. L. Thompson, Falls City.

CURE YOUR KIDNEYS
Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, languor. Why allow themselves to become chronic invalids, when a certain cure is offered them?
Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work.
If you have any, even one, of the symptoms of kidney disease, cure your pain now, before diabetes, dropsy or Bright's disease sets in.
Mrs. L. Holton, of 717 Aura St., Pendleton, Ore., says: "I just as enthusiastically endorse Doan's Kidney Pills today as I did nearly three years ago. They relieved me of kidney trouble which had bothered me for a considerable time. There was aching pain across the small of my back and down through my kidneys, which were aggravated by colds which settled in the back and loins and caused an awful lameness. This was my condition when I began taking Doan's Kidney Pills. This remedy banished the backache and pain through the loins, regulated the kidney secretion and relieved every symptom of the trouble. From that day to this there has been no recurrence, and I give Doan's Kidney Pills all the credit. I consider them to be the best kidney remedy procurable and recommend them whenever the occasion arises."

FRIEND TO FRIEND.
The personal recommendations of people who have been cured of coughs and colds by Chamberlain's Cough Remedy have done more than all else to make it a staple article of trade and commerce over a large part of the civilized world.
AN INSTANCE.
Lucy Suddreth, of Lenoir, N. C., had been troubled with a very bad cough for over a year. She says: "A friend brought me a bottle of Chamberlain's Cough Remedy, brought it to me and insisted that I should take it. I did so and to my surprise it helped me. Four bottles of it cured me of my cough."

THE MOST PRACTICAL ROOST.
The stepladder roost is out of date. The chickens all fought for the highest nest in the synagogue. Result, strife and bumble foot.
The sassafras sapling roost, guaranteed to prevent lice, has gone into oblivion with the lightning rod. The movable roost is the fad.
Our plan: Make four carpenter's trestles, two of them five feet long and two and a half feet high and the other four feet long and two feet high. Cover the high trestles with boards six feet long, and on this dropping floor place your low trestles and from one to the other place your roosting slats.
Put these four inch slats on loose and on very cold nights move them close together.
Set up in a corner out of drafts and place the dusting box near and the hens will keep the roosts well dusted.
Advantages—Easily cleaned; easily removed; catches all the manure; can be removed or set up in three minutes; hens can scratch under it; red mites avoid it. Try it and be convinced.
