DALLAS, OREGON, MAY 12, 1908.

The way to build up Dallas is to patronize Dallas people.

AN IMPORTANT STEP.

Councilmen Coad and Stafrin return from Eugene enthusiastically in favor of bithulitic pavement in preference to macadam streets. This is not to be wondered at. It would be strange to hear any other decision from any practical business man who has compared the two systems of improvement. Macadam streets will amply meet every need of the residence district in a town the size of Dallas, but the crushed rock is not suitable for the business thoroughfares, for the reason that it would not long withstand the heavy traffic and in a few years would be in need of constant repairing. Then, aside from this most important advantage, the smooth pavement has in its favor the clean liness and beauty of the city.

The Observer believes that were the property-owners to decide in favor of crushed rock now, they would regret the decision inside of two years and be demanding the better pavement. It is true the bithulitic pavement is much more expensive than macadam, but in the end the taxpayers will find it much the cheaper. Like anything else that is good, it costs money, but it is well worth its cost.

The council has acted wisely in referring this important improvement to the property-owners before proceeding with the movement already under way for rock streets, and every business man and citizen interested in keeping Dallas in the very front rank of progressive Oregon towns (and that includes every resident of the city) should attend the mass meeting Friday evening. There is no doubt as to what the loyal and progressive citizens of Dallas will do at this meeting. They will instruct their officers to keep right on with the good work of building a greater and better city. It is this spirit of standing shoulder to shoulder in the march of progress that has placed Dallas in the proud position she occupies today, and in this instance, as in the past, there will be no backward step.

"NOT VERY IMPORTANT."

The Pendleton Tribune takes this view of the senatorial situation:

"The Portland Journal, under the above heading, asserts that it is not a matter of any particular moment as to what party a senator of the United States belongs, "partisanship does not count for or against a senator now as much as it did a few years ago."

"Sure not, Mike! When running for governor our non-partisan George fooled a part of the republicans by declaring that there is no politics in the governor's office—merely an executive function—is only required to enforce the laws, that is all.

"And now that he is running for senator, he declares in the most non-partisan matter in the world that there is no politics in the position he is after—'not like there used to be!'

"The democrats are all supposed to vote for Chamberlain to a man in order to show their independence of 'party' (!), while the republicans are expected to show their non-partisanship by voting for him too!

"And the republican who will be fooled by this transparent clap-trap should be taken out and treated for the simples."

A. M. White and A. T. White, of the firm of Moffat & White, the financial backers of the Oregon Electric Company, are in Portland, and will make a minute and extensive examination of all the company's properties and lines. Their presence is considered by all an additional assurance that the Oregon Electric Company will rush all the projects they have planned, by which they hope to embrace the whole of the Willamette Valley in one enormous system of electric railways.

Polk, the Orchard County.

It has been estimated that the total value of the trees and small fruit plants purchased for setting out new orchards in the vicinity of Dallas since last Fall amounts to fully $7000. J. B. Nunn, an extensive dealer in nursery stock, has placed orders for 25,000 of the larger fruit trees, and says that he believes that the entire number of trees disposed of is between 55,000 and 60,000. About 75,000 plants of the small fruits, such as strawberries, raspberries and blackberries, have been set out on the farms in this vicinity in the last 10 months. The cannery question will solve itself in Dallas in the next year or two.

O. O. Arnold announces the following appointments for the coming week in his tour of Polk county as an anti-saloon worker: Tuesday, Oak Grove; Wednesday, Eola; Thursday, Popcorn; Friday, West Salem; Saturday, Lincoln; Sunday, Zena and Spring Valley; Monday, Bethel.

Messrs. Fuller & Elliott went to Toledo this week and held a conference with the Lincoln County court relative to a contract for cruising the timber lands of that county. They will not know for several days whether their bid will be accepted, as there were several bidders.

Tonight's train will bring another fine job press for the Observer office. The new machine is one of the fastest and be t of its class now manufactured. This will give the Observer press room four modern presses—a greater number, we think, than in any other country printing office in Oregon.

Mrs. Henrietta Brown, state president of the W. C. T. U., was a Dallas visitor Friday, and a pleasant reception was given in her honor at the home of Mr. and Mrs. A. Longnecker. A musical and literary program was rendered, and Mrs. Brown delivered a practical address on the work of the society.

More than a score of young people from this city, drove to Falls City, Saturday evening and paid a visit to the big skating rink recently opened at that place. During the evening George Brown gave an exhibition of fancy skating and jumping on rollers. Members of the Dallas band furnished music for the occasion.

The Dallas Band rehearsed in the city park Sunday afternoon, and a large crowd of the citizens of Dallas attended the impromptu concert, heartily applauding the excellent work of the new organization. The band boys are practicing faithfully, and will be fully prepared to furnish a fine musical program at the School Picnic at Rickreall, Saturday.

Pure Blood

Is certain if you take Hood's Sarsaparilla.

This great medicine cures those eruptions, pimples and boils that appear at all seasons; cures scrofula sores, salt rheum or eczema; adapts itself equally well to, and also cures, dyspepsia and all stomach troubles; cures rheumatism and catarrh; cures nervous troubles, debility and that tired feeling.

Mrs. C. K. Tyler, Burlington, Vt., says: "The cares of a large farm, so much to do and so little health to do it with, caused almost a complete breakdown; blood poor and thin; no strength, little sleep. Hood's Sarsaparilla gave appetite, natural sleep, perfect health, strength to do all my work."

Sarsatabs—For those who prefer medicine in tablet form, Hood's Sarsaparilla is now put up in chocolated tablets called Sarsatabs, as well as in the usual liquid form. Sarsatabs have identically the same curative properties as the liquid form, besides accuracy of dose, convenience, economy,—no loss by evaporation, breakage, or leakage. Druggists or prompt by mail. C. I. Hood Co., Lowell, Mass.

Cures Woman's Weaknesses.

We refer to that loom to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John Fyfe one of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW says of Unicorn root (*Helonias Dioica*) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator. * * * makes for normal activity of the entire reproductive system." He continues "in Helonias we have a medicament which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent." Dr. Fyfe further says: "The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhœa; atonic (weak) conditions of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive organs of women; constant sensation of heat in the region of the kidneys; menorrhagia (flooding) due to a weakened condition of the reproductive system; amenorrhœa (suppressed or absent monthly periods) also those from or accompanying an anæmical condition of the digestive organs and a chronic (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no lovely woman can do better than take Dr. Pierce's Favorite Prescription, one of the leading ingredients of which is Unicorn root, or Helonias, and the medical properties of which it most faithfully represents.

Of Golden Seal root, another prominent ingredient of "Favorite Prescription," Prof. Finley Ellingwood, M. D., of Bennett Medical College, Chicago, says:

"It is an important remedy in disorders of the womb. In all catarrhal conditions * * * and general enfeeblement, it is useful."

Prof. John M. Scudder, M. D., late of Cincinnati, says of Golden Seal root:

"In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally recognized as the tonic useful in all debilitated states."

Prof. R. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal:

"Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhœa (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

The Secret of a Beautiful Face

lies in keeping the skin protected as well as cleansed. Just washing is not enough—that only leaves the delicate surface more exposed to the irritation of dust and germs; to merciless attacks of sun and weather. After washing, apply Robertine and experience its delightful refreshment. You will admire the line-less softness it imparts to face, neck and arms. It not only stimulates a radiant glow, but protects the skin from becoming coarse. Prevents burning, tan and freckles.

Electricity for Lighting

Is only expensive to people who are wasteful and careless. To you, who are naturally careful, it does not come high. ∴ ∵ ∴

It is economical because it can be quickly turned off when not needed. With gas or kerosene there is the temptation to let light burn when not needed to save bother of lighting and adjusting. In some homes the electric light bills amount to only one or two dollars per month. You can probably get some kind of artificial light for less money than electric light, but does it save you anything when it limits opportunities for work and recreation—ruins your eyesight—smokes your walls—mars decorations and increases household work. You could probably save a dollar tomorrow by going without your meals but it wouldn't be economy. It is not so much what you save, but how you save that counts.
