POLK IS ALL CHAMBERLAIN

Cake Will Lose County by About 200—Prohibition Carries the Day.

Polk county still belongs to Governor Chamberlain. In the contest yesterday, he easily overcame the big majority of 400 or 500 votes, and, as in the gubernatorial elections of 1902 and 1906, finished the race with votes to spare. The Prohibitionists also carried the county "dry" by something over 200 votes.

C. L Hawley, the Republican voter's choice candidate for the Legislature, is elected by nearly 400. B. F. Jones, the Republican Statement No. 1 candidate, was elected without opposition. J. M. Grant, Democrat, is re-elected Sheriff, and E. C. Dunn, Democrat, has defeated D. P. Stouffer, Republican, for County Treasurer. It is probable that the remainder of the Republican ticket is elected. Coad and Sibley are running neck and neck for County Judge and the result will not be definitely known until the Falls City and Rock Creek returns have been sent in.

The vote by precincts on prohibition in Polk County up to date is as follows:

Precinct	For	Against
Douglas	61	47
Jackson	29	—
Salt Lake	43	19
East Dallas	190	133
South Dallas	127	127
North Dallas	80	107
Rickreall	44	47
Falls City	—	—
Luckiamute	88	90
Bridgeport	50	26
North Independence	92	135
South Independence	97	90
South Monmouth	70	23
North Monmouth	77	15
Buena Vista	64	34
Suver	20	19
Eola	86	81
Spring Valley	52	28
Total	1270	1021

The question that has been foremost in the minds of the people of Polk county for several months has at last been decided, and the county has been voted "dry," for the first time in its history, by a large majority.

All day today men have gathered in groups on streets and in stores, talking and discussing the various phases of yesterday's election, eager throngs have greeted the arrival of the official returns from each precinct, and the whole town has throbbed with the interest of a hard and close contest in the vote for both county and state.

Every precinct in Polk county reports an exceptionally heavy vote, the two absorbing issues of the contest being the senatorial race and the contest between the factions for and against prohibition. Those interested in the outcome of the struggle left no stone unturned to bring out the voters, and scores of men in Polk county who had failed for some reason to register were hunted out, led to the polling places and sworn in, so that they might add the weight of their ballot to the uncertain contest. It is believed that a larger percentage of the voting force of Polk county was represented at the polls yesterday than at any of the elections for years.

During the entire day the streets of Dallas were alive with people, and as the day progressed the interest grew steadily more intense. Gradually the public interest seemed to be withdrawn from the minor issues, and to concentrate about the two central points, the United States senatorship and the prohibition question, and finally the latter subject seemed to usurp the entire field of interest.

Right to the last, the two factions fought the issue, and when the polls had closed it was a matter of doubt as to which held the advantage. Both manifested the utmost confidence in the outcome, and the prevailing words on the lips of the men of both sides, during the period of suspense between the time when the polls closed and the hour when the first returns began to come in, were "Wait until the vote is counted; then we'll see." Notwithstanding the intense interest in the struggle, perfect order was preserved at all times throughout the day.

Six o'clock, and the polls were closed. For three hours the people waited in nervous expectancy for the first returns, to gain some clue as to the real result of the election. A group of eager men composed in a large extent of the candidates whose names had been before the people for choice, crowded into the clerk's office at the Courthouse and waited with increasing eagerness for the reports.

At last, at about 9:30, the news began to come, at first incomplete and fragmentary and finally complete, as the the smaller precincts finished their counts and telephoned the results to Dallas.

Suver, McCoy, Douglas, Spring Valley, one after another the reports came in, and by midnight the count began to take definite shape, and the ultimate results of the election became momentarily more evident. Call after call was received, and about 2 o'clock this morning the crowd began to dwindle away, the final result of the election being practically settled. Polk county had at last gone "dry," and Chamberlain would carry the greater portion of its precincts by a fair majority.

One of the striking features of the election was the total indifference of the voters as to the results on the nineteen constitutional amendments, which had been so widely and eagerly discussed during the months preceding the election. When the returns from any precinct were sent in the first questions asked were "wet or dry?" and "Cake or Chamberlain? After that the county officers came in for their share of interest, but seldom were returns offered on the nineteen amendments, and never were they asked for. The common sentiment seemed to be, "they can wait."

The length of the ballot made the count very slow, and in the precincts where the heavier votes were polled, the count was not completed until late this forenoon, although the judges and clerks worked almost without intermission from the time the polls were closed until the count was finished. Falls City and Rock Creek precincts are still to hear from.

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers. Even the untutored Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cure of most obstinate and fatal diseases, if we would properly investigate them; and in confirmation of this conviction, he points with pride to the almost marvelous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic, liver invigorator, heart tonic and regulator, and blood cleanser known to medical science. Dyspepsia, or indigestion, torpid liver, functional and even valvular and other affections of the heart yield to its curative action. The reason *why* it cures these and many other affections, is clearly shown in a little book of extracts from the standard medical works which is mailed *free* to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

Not less marvelous, in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and distressing derangements, is Dr. Pierce's Favorite Prescription, as is amply attested by thousands of unsolicited testimonials contributed by grateful patients who have been cured by it of catarrhal pelvic drains, painful periods, irregularities, prolapsus and other displacements, cancer, weakness, ulceration of uterus and kindred affections, often after many other advertised medicines, and physicians had failed.

Both the above mentioned medicines are wholly made up from the glyceric extracts of native, medicinal roots. The processes employed in their manufacture were original with Dr. Pierce, and they are carried on by skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose. Both medicines are entirely free from alcohol and all other harmful, habit-forming drugs. A full list of their ingredients is printed on each bottle-wrapper.

Electricity for Lighting

Is only expensive to people who are wasteful and careless. To you, who are naturally careful, it does not come high. ∴ ∴ ∴

It is economical because it can be quickly turned off when not needed. With gas or kerosene there is the temptation to let light burn when not needed to save bother of lighting and adjusting. In some homes the electric light bills amount to only one or two dollars per month. You can probably get some kind of artificial light for less money than electric light, but does it save you anything when it limits opportunities for work and recreation—ruins your eyesight—smokes your walls—mars decorations and increases household work. You could probably save a dollar tomorrow by going without your meals but it wouldn't be economy. It is not so much what you save, but how you save that counts.
