that he is not affalld to subject them to the fullest scribinty.

Not only does the wrapper of every bottle of Dr. Plerce's Golden Medical Discovery, the famous medicine for weak stomach. Lapid liver or billousness and all catarrhal diseases wherever located, have printed upon it, in plant English, a full and complete list of all the ingredients composing it, but a small book has been comolled from numerous standard moonal works, of all the different schools of practice, containing very namerous extracts from the writings of leading reactitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Plerce's medicines. One of these little books will be malied from by letter, to Dr. E. V. Plerce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Plerce's medicines contain no alcohol, narroties mineral agents of other poisonous or injurious agents of the they are male from native, medicibook it will be learned that Dr. Pierce's medicines contain no alcohol, narrotics, mineral agents or other poisonous or injurious agents and that they are made from native, medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervone, over-worked, "run-down," nervous and debilitated women, were employed, long years ago, by the Indians for similar aliments affecting their somews. In fact, one of the most valuable medicinal plants entering into the composition of Pr. Pierce's Favorite Prescription was known to the Indians as "Sunaw-Weed." Our knowledge of the uses of not a few of our most valuable native, medicinal plants was gained from the Indians. As made up by improved and exact processes, the "Favorite Prescription" is a most efficient remedy for regulating all the woman's functions, correcting displacements, as prolapsus, suleversion and retorversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of beatth. It is economical because it can be quickly turned off when not needed. With gas or kerosene there is the temptation to let light burn when not needed to save bother of lighting and adjusting. In some homes the electric light bills amount to only one or two dollars per month. You can probably get some kind of artificial light for less money than electric light, but does it save you anything when it limits opportunities for work and recreation—rulns your eyesight—smokes your walls—mars decorations and increases household work. You could probably save a dollar temorrow by going without your meals but it wouldn't be economy. It is not so much what you save, but how you save that couris.
