Good Things to Eat

WIFE TALKS BY U. S. LOUGHARY'S OFFICE BOY

It must be a great consolation to a widow to know that the insurance more than covers the loss. It's only natural for a widow to look out for number one, but I know a number down where we live who are looking out for number two. I heard a fellow say, "If you've got hay fever don't marry a grass widow." I guess people don't get the hay fever around these parts; it's mostly alfalfa. A fellow came in the store the other day and said to the boss, "Why don't you hire a man to write your ads and a kid to run the errands?" Gee, wouldn't that turn your whiskers gray? I guess that was a dig at me. I have been so busy in the store of late to carry packages and so they come in the store and hand them to me. Well, you can lay bets on one thing and that is—I am out out for a literary career. Some day I will be a big editor and mould public thought. Meanwhile I am satisfied with being a big eater and helping to run the Loughary Grocery. If you're a big eater you know we are the people and if you're a big editor you know our thoughts; viz, "Good things to eat and drink."

CARPETS

During the month of June it will be our privilege to exhibit the most exclusive line of carpets ever brought to this city. Particular attention has been paid to getting designs that would please the most fastidious tastes in carpets. Pretty designs when taken with good solid weaving is what makes a carpet to be desired. We can guarantee that our carpets are first-class. We have been asked by some manufacturers to buy seconds in carpets. Some with slight defects, something a customer would never notice, just a few mis-threads, but we declined. Its something you would find out in the time to come and we can not afford that. We have always bought the first-grade and let some one else have the other kind.

That's what we want you to know and we want you to examine the goods and know for yourself its the truth.
