Entered as second-class matter March 1, 1907, at the post office at Dallas, Oregon, under the Act of Congress of March 3, 1879.

DALLAS, OREGON, JULY 10, 1908.

The way to build up Dallas is to patronize Dallas people.

Residents on Court street between Main and Church, are having all water pipes and sewer connections that must cross the street, laid at once, since the plowing and grading preparatory to macadamizing will be commenced on that block within a very short time. All of these pipes being laid, there will be no need of tearing up the street surface after it has been finished for the installation of such tardy improvements. Blocks on Mill street and Washington as well as on Court lie within the improvement district, and it is to be hoped that the sewer mains will be installed by the city, and all connections with the various residences in those districts will be completed before the increasing belts of macadam pavement have reached them. In that way Dallas may be assured of smooth durable streets in its main residence and business district, unbroken and unscarred, and consequently likely to last for several years longer than they would do if covered with patches over the excavations made for the laying of pipe lines.

Fishwheels as a means of depleting the salmon supply of the Columbia River, will be abolished with the close of the present season, August 25, and the bill which puts the gillnetters of the lower Columbia out of business, will become operative after September 10. This condition will practically reduce the industry of salmon catching to the primitive method of the hook and line, and while the gillnetters and wheelmen are howling unrestrainedly over this unexpected outcome of their efforts to secure the whip hand over each other, the long suffering and much harried salmon will perhaps have an opportunity to recuperate, in a measure, from the effects of the wholesale and wasteful fishing of the past. In cases of this kind one is inclined to believe after all in that mysterious force called "poetic justice."

"A hundred tons of the best Royal Ann cherries grown in the vicinity of Salem will be taken this year by a San Francisco firm for bottling by the maraschino process, and the same persons will also purchase large quantities of the fine blackberries, loganberries and raspberries produced here, to be used in making fruit juices and crushed fruits for soda fountain beverages."—Salem Statesman.

This means a market as well for the prize winning products raised in the Spring Valley and the Eola districts in Polk county, as for the fruit raised in the fertile strips of land lying along the eastern bank of the Willamette river.

Hood's Sarsaparilla

Has surpassed all other medicines, in merit, sales and cures.

Its success, great as it has been, has apparently only just begun.

It has received by actual count more than 40,000 testimonials in two years.

It purifies the blood, cures all blood diseases, all humors and all eruptions.

It strengthens the stomach, creates an appetite and builds up the whole system.

It cures that tired feeling and makes the weak strong.

In usual liquid form or in chocolated tablets known as **Sarsatabs.** 100 doses $1.

Boy Painfully Injured.

Herrin McNulty, the 6-year-old son of Mike McNulty, a prosperous fruit farmer of Polk Station, was painfully injured by falling from the upper floor of his father's barn Wednesday afternoon. The child struck on the side of his face and the force of the fall caused him to bite his tongue almost off. Drs. McCallon and Bollman were summoned from Dallas and the boy's injuries were attended to at once, it being necessary to take several stitches in his tongue. It is thought that he will fully recover, and will suffer no permanent inconvenience from his rather unusual injury.

A Sustaining Diet.

These are the enervating days, when, as somebody has said, men drop by the sunstroke as if the Day of Fire had dawned. They are fraught with danger to people whose systems are poorly sustained; and this leads us to say, in the interest of the less robust of our readers, that the full effect of Hood's Sarsaparilla is such as to suggest the propriety of calling this medicine something besides a blood purifier and tonic,—say, a sustaining diet. It makes it much easier to bear the heat, assures refreshing sleep, and will without any doubt avert much sickness at this time of year.

New Books For Library.

The Dallas Free library has just received 68 volumes from the Oregon Library Commission. Traveling Library Number 37. Of these, four deal with travel and description, seven with history and biography, four with collections of literature, 29 fiction, four history and nine miscellaneous subjects.

Miss Veva Morrison was married to Mr. Lawrence Greene at the home of her parents, Mr. and Mrs. J. C. Morrison, in Independence, Thursday evening July 2. The young couple left after the ceremony on the night boat for Albany, where they will make their home. Both are well known in this city. Mrs. Greene resided in Dallas for many years before moving to Independence, while Mr. Greene was for two years employed in this city, during which time he gained many friends among the young people.

Miss Marie Reddekopp, one of the partners in the Reddekopp sisters' millinery store in Dallas, was married to Mr. P. H. Scheidman, of Portland, at the home of her sister, Mrs. E. J. Roth, in Salem, Tuesday evening. Mr. and Mrs. Scheidman went immediately to Portland, where they will make their home in future. Miss Reddekopp made many friends during her residence in Dallas who will wish her much happiness.

County Commissioners Teal and Riddell have been in Dallas since Tuesday with Judge Coad, busying themselves about the preparations for the extensive road improvements which they propose to have carried out during the summer, and making arrangements for the installation and operation of the new county rock crusher that has only lately been received.

Visitors to the Summer Normal in Monmouth report it to be the best and most successful in every respect, that has ever been held in that place. The attendance is exceptionally large, everybody is zealous and enthusiastic in their work, and the instructors are anticipating great achievements.

Peter Manard, an Indian of the Grand Ronde reservation, died in this city Friday from an attack of pneumonia. He was a native of Idaho and was about 75 years old. He left a wife and four children.

BUSINESS LOCALS.

[Advertisements under this head are charged at the rate of 1 cent per word, first insertion; ½ cent per word for each insertion thereafter; 30 words or less, $1 per month. No advertisement inserted for less than 15 cents.

Figures count as one word. For instance, the numeral combination "$250" counts as one word.

Two initials count as one word. For instance, "J. M. Jones" counts as two words.

The minimum charge is for 15 words; that is, an advertisement from 1 word to 15 words is counted as 15 words; an advertisement from 16 to 20 words, inclusive, is counted as 20 words; from 21 to 25 words, is counted as 25 words, etc.

The figures following the advertisement indicate how long it is to run, and are not charged to the customer. For instance, 3-31-21 indicates that the advertisement was first published on March 31, and that it is to be inserted twice. The figures and letters 4-1-tf indicate that the advertisement was first published April 1 and that it is to be run until the customer orders it discontinued.]

The Story of a Medicine.

Its name—"Golden Medical Discovery" was suggested by one of its most important and valuable ingredients—Golden Seal root.

Nearly forty years ago, Dr. Pierce discovered that he could, by the use of pure, triple-refined glycerine, aided by a certain degree of constantly maintained heat and with the aid of apparatus and appliances designed for that purpose, extract from our most valuable native medicinal roots their curative properties much better than by the use of alcohol, so generally employed. So the now world-famed "Golden Medical Discovery," for the cure of weak stomach, indigestion, or dyspepsia, torpid liver, or billiousness and kindred derangements was first made, as it ever since has been, without a particle of alcohol in its make-up.

A glance at the full list of its ingredients, printed on every bottle-wrapper, will show that it is made from the most valuable medicinal roots found growing in our American forests. All these ingredients have received the strongest endorsement from the leading medical experts, teachers and writers on *Materia Medica* who recommend them as the very best remedies for the diseases for which "Golden Medical Discovery" is advised.

A little book of these endorsements has been compiled by Dr. R. V. Pierce, of Buffalo, N. Y., and will be mailed *free* to any one asking same by postal card, or letter addressed to the Doctor as above. From these endorsements, copied from standard medical books of all the different schools of practice, it will be found that the ingredients composing the "Golden Medical Discovery" are advised not only for the cure of the above mentioned diseases, but also for the cure of all catarrhal, bronchial and throat affections, accompained with catarrhal discharges, hoarseness, sore throat, lingering, or hang-on-coughs, and all those wasting affections which, if not promptly and properly treated are liable to terminate in consumption. Take Dr. Pierce's Discovery in time and persevere in its use until you give it a fair trial and it is not likely to disappoint. Too much must not be expected of it. It will not perform miracles. It will not cure consumption in its advanced stages. No medicine will. It *will* cure the affections that lead up to consumption, *if taken in time.*

The Publisher's Claims Sustained

UNITED STATES COURT OF CLAIMS

The Publishers of Webster's International Dictionary allege that it "is, in fact, the popular Unabridged thoroughly re-edited in every detail, and vastly enriched in every part, with the purpose of adapting it to meet the larger and severer requirements of another generation."

We are of the opinion that this allegation most clearly and accurately describes the work that has been accomplished and the result that has been reached. The Dictionary, as it now stands, has been thoroughly re-edited in every detail, has been corrected in every part, and is admirably adapted to meet the larger and severer requirements of a generation which demands more of popular philological knowledge than any generation that the world has ever contained.

It is perhaps needless to add that we refer to the Dictionary in our judicial work as of the highest authority in accuracy of definition; and that in the future as in the past it will be the source of constant reference.
