DALLAS, OREGON, August 28, 1908.

The way to build up Dallas is to patronize Dallas people.

SHALL THE PEOPLE RULE?

Sherman, the Republican candidate for vice-president, in his recent speech of acceptance shows up in its proper light, that famous question that William Jennings Bryan chose to make the keynote of his outline of policy and one of the principal bases for his claim for the votes of the American people in the November election. At best, such a question used as it was by Mr. Bryan to lead his hearers to draw an inference which was unwarranted; namely, that the people in order to rule, must needs cast their ballots in his favor at the presidential election, was nothing more nor less than a weapon of demagoguery, and the arraignment which it has called forth from Mr. Sherman is fully justified.

"'Shall the people rule?' is declared by the Democratic platform and candidate to be the 'overshadowing issue now under discussion,'" says Mr. Sherman. "It is no issue. Surely the people shall rule, surely the people have ruled; surely the people do rule. No party rules. The party, commissioned by the people, is simply the instrument to execute the people's will, and from that party which does not obey their expressed will, or which lacks the wisdom to lead successfully the people will withdraw their commission.

"For half a century, with but two exceptions, the people have commissioned the Republican party to administer the national government; commissioned it because its declared principles appealed to their best judgment; commissioned it because the common sense of the American people scented danger in Democratic policies. Ours always has been, always must be, a government of the people. That party will, after March 4 next, execute old laws and enact new ones as in November it is commissioned by the people to do. That commission will be from an untrammeled American electorate. Shame on the party which, shame on the candidate who insults the American people by suggestion or declaration that a majority of its electorate is venal. The American voter, with rare exception, in casting his ballot is guided by his best judgment, by his desire to conserve his own and the public weal."

According to the annual report of the General Land office for 1908 the Government has still an area of almost 755,000,000 acres yet undisposed of, nearly 50,000,000 acres of which is located in the Northwest, and more than 16,000,000 acres in Oregon.

The superintendent of the Rock Island Railroad has issued a bulletin notifying all employes that cigarette smoking will no longer be permitted and that all violaters of the order will be promptly discharged. This order will have a more prompt and lasting influence for the eradication of the cigarette habit than could be produced by the circulation of tons of tracts containing wise sermons on the physical and moral evils resultant from the use of the "coffin nail."

An exchange hits the nail squarely on the head, as far as the philosophy of advertising is concerned, in the following clever lines: "There was a man who advertised but once, a single time; in spot obscure he placed his ad. and for it paid a dime, and just because it didn't bring him customers a score, "All advertising is a fake," he said, or, rather, swore. He seemed to think one hammer tap would drive a nail clear in; that from a tiny bit of thread a weaver tents could spin. If he this reasoning bright applied to eating, doubtless he would claim one little bite would feed ten men a century. Some day, though, he will learn that to make advertising pay, he'll have to add ads. to this ad. and advertise each day.

Hood River will introduce something new into the world of fruit culture this year in the form of a school for teaching the art of apple packing to obtain the most artistic and satisfactory results. The students will be carefully instructed in every phase of the art of fruit handling, and the fruit growers of that vicinity will receive the reward for their enterprise in having at hand a number of persons who will be able to put up their apples for display or shipping purposes, in the finest manner possible. It is such progressive methods as this that have enabled Hood River to run for so long neck and neck with, and part of the time ahead of the fruit producing portions of the Willamette Valley, although the latter hold the advantage over them in all the natural qualifications of the soil for first class fruit country.

MACHINES TO COUNT CROWDS

Electric Turnstiles Will Be Installed in Entrances at State Fair Grounds.

An electric turnstile which is operated by dropping a coin in a slot, and which counts every person passing through and records the number in the secretary's office, is the latest invention for handling the great crowds entering a modern exposition grounds, and the appliance will be used by the management of the Oregon state fair, which will be held this year from September 14 to 19.

Six of these electric turnstiles have been purchased by the management of the fair, and four will be installed at the main entrance to the grounds and two at the entrance to the grandstand enclosure. The machines are the identical ones used at the gates of the St. Louis world's fair in 1904.

The appliance will do away with ticket sellers and gate keepers and other employes at the entrance. It will be necessary to have a man on the outside to make change, as the slot will not admit any other coin than a half dollar. Men will also be needed to watch the crowd and see that no lead slugs or other counterfeit coins are introduced into the slot.

The visitor must have his fifty-cent piece ready, but aside from that he will be put to no inconvenience. He hands the coin to the man at the gate, who drops it in the slot. This turns the stile and admits one person. The stile is immediately locked until another coin is dropped in.

Each turning of the stile is recorded by a machine which adds the number of persons admitted. The number is also recorded by electrical connection in the office of the secretary, or at any other point on the grounds. At midnight each day the officials of the fair will know exactly how many visitors have passed through the gates during the day.

Formerly it was impossible to count the big crowds accurately, and the attendance could only be estimated. The new turnstile has been tested at the fair grounds at Salem and has been found to work perfectly in every detail.

The only difficulty will be the failure of visitors to the fair to bring the right change, but after the first day or two, when fairgoers have become familiar with the new system, no further trouble is expected.

Bad Symptoms.

The woman who has periodical headaches, backache, sees imaginary dark spots or specks floating or dancing before her eyes, has gnawing distress or heavy full feeling in stomach, faint spells, dragging-down feeling in lower abdominal or pelvic region, easily startled or excited, irregular or painful periods, with or without pelvic catarrh, is suffering from weaknesses and derangements that should have early attention. Not all of above symptoms are likely to be present in any case at one time.

Neglected or badly treated and such cases often run into maladies which demand the surgeon's knife if they do not result fatally.

No medicine extant has such a long and numerous record of cures in such cases as Dr. Pierce's Favorite Prescription. No medicine has such a strong professional indorsement of each of its several ingredients—worth more than any number of ordinary non-professional testimonials. The very best ingredients known to medical science for the cure of woman's peculiar ailments enter into its composition. No alcohol, harmful, or habit-forming drug is to be found in the list of its ingredients printed on each bottle-wrapper and attested under oath.

In any condition of the female system, Dr. Pierce's Favorite Prescription can do only good—never harm. Its whole effect is to strengthen, invigorate and regulate the whole female system and especially the pelvic organs. When these are deranged in function or affected by disease, the stomach and other organs of digestion become sympathetically deranged, the nerves are weakened, and a long list of bad, unpleasant symptoms follow. Too much must not be expected of this "Favorite Prescription." It will not perform miracles; will not cure tumors—no medicine will. It will often *prevent* them, if taken in time, and thus the operating table and the surgeon's knife may be avoided.

Women suffering from diseases of long standing, are invited to consult Doctor Pierce by letter, *free*. All correspondence is held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Medical Adviser (1000 pages) is sent *free* on receipt of 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy. Address as above.
