Tenth and Morrison, Portland, Oregon A. P. Armstrong, LL.B., Principal We occupy two floors 65 by 100 feet, have a \$20,000 equipment, employ a large faculty, give individual instruction, receive more calls for office help than we can meet. Our school admittedly leads all others in quality of instruction. It pays to attend such an institution. Q Said a Business Man: "Keep hammering away everlastingly on thorough work. It will win out in the end." Said an Educator: "The quality of instruction given in your school makes it the standard of its kind in the Northwest." Open all the year. Students admitted at any time. Catalogue free. References: Any bank, any newspaper, any business man in Portland.

Electricity for Lighting Is only expensive to people who are wasteful and careless. To you, who are naturally careful, it does not

come high. ...

It is economical because it can be quickly turned off when not needed. With gas or kerosene there is the temptation to let light burn when not needed to save bother of lighting and adjusting. In some homes the electric light bills amount to only one or two dollars per month. You can probably get some kind of artificial light for less morey than electric light, but does it save you anything when it limits op-portunities for work and recreation—rulas your eyesight—smokes your walls—mars decorations and increases household work. You could probably save a dollar temorrow by going without your meals could probably save a dollar temorrow by going without your meals but it wouldn't be economy. It is not so much what you save, but how you save that counts.
