

SIDE BONES IN DRAFTERS.

Cartilage Above the Heel Counts Against Heavy Horses.

Look out for side bones on the draft horse, says George McKerron, a Wisconsin breeder. Foreign buyers have been more particular than Americans on the question of side bones, and it is only a few years since some of our best judges in America have been looking out for side bones at all.

It is said that only a few years ago a judge who has considerable reputation as a horseman in this country was judging at a western state fair. An exhibitor whose horse had been turned down to second place objected that the judge had put the first prize upon a horse with side bones, and it is said that the judge went over to the first prize horse and began to feel along his ribs, and he said, "This horse has no side bones." I saw another judge who was called down in the same way by placing the first prize on a horse that had side bones, and he went to feeling for the splints just below the knee on the inside of the leg, and he found none.

The side bone is just above the heel of the horse. It is a mere cartilage. It is put into the heel, we believe, to give springiness, to save inflammation there when the horse works and travels. Now, on low heels and especially on heavy horses, they put a good deal of weight on the heels; they get feverish there and inflammation sets in. These cartilages harden and become bone in the effort of nature to mend up the little strain or make good the work of inflammation there, and when they are bony and hard you have a horse that to some extent will get sore as he works. You can see it in the gait, and you can find it when you take hold of those cartilages and try to move them.

Do not confound this side bone with a ringbone or a partial ringbone. Ringbone he supposed to go clear around, though not always. I have seen people confound a side bone with a ringbone.

Another thing I should have mentioned in relation to this is the hock joint. It is the joint that throws out three-quarters of the troubles on the limbs of our horses. If it is loosely made, the chances are there is a sprain and nature in mending that sprain produces what is called a bone spavin. Sometimes we get a blood spavin or it may be an enlargement of those sacs that hold the oil to lubricate the joint, and we usually call it a wind puff, but it comes from a loose joint, as a rule, and a sprain upon the loose joint, and gives us thoroughness and bog spavin.

A Forcing Effect.

Fresh manure has a forcing effect and tends to produce stems and leaves at the expense of fruit and grain. It is therefore better for early garden truck, grasses and forage plants than for cereals or fruit.

Wood Ashes For Horses.

A little wood ash is held to be very beneficial to horses. It is given a teaspoonful at a time, sprinkled on a feed of oats.

Beautiful Art Calendars.

Following our annual custom of distributing some token of remembrance to our friends and patrons we have this year secured the most beautiful Art Calendar that has ever been given in Dallas. It is the prettiest thing that we could get for you, and we have no apology to make for it as a work of art. "Cascado Falls, Yosemite Valley," by Thomas Moran, is a masterpiece by the foremost of American scenic painters.

The only favor we ask for it, is that you will give it the most prominent place possible. We haven't the slightest doubt that you will do this, if it appeals to your good taste and judgment as it does ours. This picture will ever command a high place among landscapes by reason of its absolute truth, its brilliant coloring, and its keen conception of beauty.

We do not wish to have you gain the impression that this springs entirely from the goodness of our heart, for in this age of commercialism there is usually a motive behind a gift of this nature, and we are no exception to the rule. Our motive is this: To get in closer touch with you in order to whisper in your ear the mutual benefit of a trade alliance between yourself and the UGLOW CLOTHING HOUSE, and incidentally to "Toot Our Own Horn," so to speak. No doubt you have learned by observation that the steady growth of our

business continues. This, we believe is the result of the fair and square treatment we give. We are bending every effort that conservation will permit to merit new patronage, and we should be pleased if those who have not dealt with us will give us a trial.

HOW TO OBTAIN OUR CALENDAR.

The beautiful calendar we have is worthy of a place in any home, and as it will cost you nothing there is no reason why you should not have one. They are too valuable to be given out indiscriminately. We must, therefore, be particular in their distribution. If you care for one, please come to our store any time before December 21st, and register your name. We will reserve one for you when they are ready for distribution, which will be January 1st, 1920. We can not hold a calendar for you later than January 10th, and you must call before this time to get it. This offer is limited to grown-ups only. Don't send children. Thanking you for past favors, hoping our relations in the future may be such that we may continue to have your good wishes and patronage, with a kind word in our behalf to your friends for theirs, we are with best wishes,

Yours most respectfully,
UGLOW CLOTHING HOUSE.

HIDDEN DANGERS

Nature Gives Timely Warnings That No Dallas Citizen Can Afford to Ignore.

The kidneys are bean-shaped organs, composed of masses of little tubes, all of which pour their secretions into a main channel that leads to the bladder. In this way the kidneys pass off more than an ounce of poison every day when in health. But it does not take much to set the kidneys back, and when they get behind, they cannot right themselves without help. The uric acid begins to clog the kidneys, causing that dull, heavy aching in the back, and sharp twinges when stooping or lifting. It crystallizes in the muscles and joints, and every turn or twist brings keenest torture. It attacks the nerves with neuralgia, and sciatica, it brings headache, dizziness, languor and disorders of the urine. Try a good kidney medicine, if you have any of the above symptoms. There is nothing else so prompt and effective as Doan's Kidney Pills, and this remedy has no effect on the other organs, except to drive out the uric poison that interrupts their action. It cures the kidneys and thus ends the cause of disease. Rich, pure blood and lasting health result.

Home proof is convincing evidence of the efficiency of Doan's Kidney Pills. Call at Belt & Cherrington's drug store and ask to see statements of Dallas people who have used this remedy.
