W. L. Soehren, superintendent of the Dallas Water Company, reports that the newly completed reservoir is working in an entirely satisfactory manner. He has been keeping it about half full of water since its completion.

Succumbs To Injuries.
News was received here this morning of the death of Merle Singleton, which occurred in Falls City last night, resulting from injuries received in an accident nearly a month ago. The young man was employed in the lumber yard of the Falls City Lumber Company at the time the accident occurred. A loaded lumber truck out of control caught him and, pinned under its enormous weight, his body was crushed in a terrible manner. The physicians made a heroic fight for the life of the injured boy but it soon became clear that the case was hopeless. Aided by the strong constitution and great vitality of the patient it was possible to maintain the unequal struggle for twenty six days until last night when, all possible devices human ingenuity could command having been vainly tried, the sufferer passed quietly away. The deceased was only 16 years of age at the time of his death. He is survived by his parents, Mr. and Mrs. I. G. Singleton, of Falls City, and a number of relatives in other parts of Polk county. The keenest sympathy is felt by all for the parents of the young man, who are almost inconsolable over their loss. The remains will be taken to Monmouth today where the funeral services are to be held.

Council Holds Long Session.
The greater part of the city council session last night was spent in discussing the assessment of property for the street improvement in the new districts this summer, and making such revisions and alterations as seemed advisable. The resolution was finally put to a vote late in the evening and passed. Before the close of the meeting, Mayor H. C. Eakin brought up before council the matter of purchasing more fire hose. It appeared that an agent from the Board of Underwriters, who is preparing the new fire survey of the city and arranging the new schedule of rates, had agreed to fix the rate at a figure about 20 per cent lower than heretofore, provided the city would make arrangements to secure enough new fire hose to make the total amount of its supply 2000 feet. This will require the purchase of about 700 feet of new hose. A motion of councilman Ellis that the insurance man be notified that the purchase of the required hose would be made in a short time was carried by a unanimous vote. It is estimated that the total saving to the citizens of Dallas by the proposed reduction will amount to between \$1000 and \$2000 a year.

Will Give Fine Recital.
Miss Olive Smith's students in music will give recitals at the Presbyterian church Monday and Tuesday nights, June 21 and 22. The division of the program to cover two nights was due to the number of students in the classes since the program would have been far too long had all attempted to take part in the program in a single evening. The younger students will give their recital Monday and those in the more advanced classes will appear in Tuesday night's program.

E. J. Arnold, of Portland, came up to Dallas, Sunday, to arrange with the Fourth of July committee to bring his famous carnival attractions here for the big two days' celebration which is being prepared for this year.

YOUR SITTING ROOM LIGHT

Is it bright enough and well distributed enough to allow the whole family to read or work in any part of the room in comfort? Is it a vertical burner that wastes its best brilliancy on the ceiling? The Angle Lamp throws its light down upon your book or table. It is oil lighting at its best, with the smoke, smell, and bother of ordinary lamps eliminated by new methods. Yet it is fully one-half cheaper to burn than even the ordinary lamps.

The ANGLE LAMP

resembles a handsome gas chandelier in appearance and is a perfect substitute for gas in operating convenience. It is lighted and extinguished like gas. It may be turned up or down without odor. Safely filled while burning. Requires filling but once or twice a week. Floods every corner of a room, floor and ceiling, with a splendid light. Call and see it or write for catalog.
