YOUR SITTING ROOM LIGHT

Is it bright enough and well distributed enough to allow the whole family to read or work in any part of the room in comfort? Is it a vertical burner that wastes its best brilliancy on the ceiling? The Angle Lamp throws its light down upon your book or table. It is off lighting at its best, with the smoke, smell, and bother of ordinary lamps eliminated by new methods. Yet it is fully one-half cheaper to burn than even the ordinary lamps.

The ANGLE LAMP

resembles a handsome gas chandelier in appearance and is a perfect substitute for gas in operating convenience. It is lighted and extinguished like gas. It may be turned up full or turned low without odor. Safely filled while burning. Requires filling but once or twice a week. Floods every corner of a room, floor and ceiling, with a splendid light. Call and see it or write for catalog.
