The records in the office of the county clerk show that angling is apparently still growing in favor over hunting, the issuance of fishers' licenses now being 170, as against 77 issued to hunters this year.
J. L. Brown returned Tuesday from a visit to Stayton and the copper mines in the Freeland district. The Freeland mines, Mr. Brown says, have been extensively developed lately and their prospect appears most promising.
H. Hirschberg, President of the Independence National Bank, was a Dallas visitor Tuesday. He had just returned from Seattle, where he attended the convention of Oregon and Washington bankers. He reports a pleasant and profitable trip.
From the catalogue of the Oregon Agricultural College just received, we learn that Polk County furnished 45 students to that institution last year. Twenty-two states of the Union were represented in the student body. The total enrollment for the year was 1351.
The Observer wants a good, live correspondent in every precinct in Polk county not now represented in these columns. We want our neighborhood news department to be second to that of no paper in the state, and your precinct should be represented. Who will volunteer to help us?
E. J. Arnold was up from Portland, Wednesday, attending to some of the preparations for the celebration, leaving yesterday morning for Portland. He will return to Dallas, Saturday, the management of his shows here being left under the supervision of W. B. Snow in the meantime.
The failure of our linotype to arrive before July 1 caused a keen disappointment to the office force, as it had been the intention to set this issue of the paper on the machine. The shippers inform us that it passed Denver last Sunday, and say that it should arrive in Portland today or tomorrow. We are hoping to get the machine installed and in operation in our composing room by the middle of next week.

Sheriff W. H. Urquhart, of Lewis county, Washington, came to Dallas, Wednesday, and took charge of Ed McNulty, from that county, who had been detained in this city. McNulty was wanted in Washington for alleged wife desertion and Sheriff J. M. Grant effected his arrest in Dallas, Monday night.
Miss Jennie Muscott, librarian of the Dallas Free Library gives the following report of the work of that institution during the month of June: 1102 callers visited the library and a total of 549 books were loaned. Of these, 382 were fiction, 63 non-fiction and 104 children's. 17 new borrowers' cards were issued.
Oswald West, of the railroad commission, is lying in bed today at Salem with three ribs broken and his neck badly injured as the result of a team, which he was driving on his way to Corvallis from the West farm near that place, running away and throwing him and his hired man out onto the hard road.
Mrs. Mattie Martin came up from Portland, Wednesday evening, and was a visitor at the home of her daughter, Mrs. J. C. Uglow yesterday, returning to Portland in the afternoon. She was accompanied to Dallas by Misses Leta and Reva Saling, who will remain for a few days' visit with their cousin, Mrs. Uglow.
The annual campmeeting at Turner began Thursday evening, and will continue up and including Sunday, July 4. About 100 persons were present at the opening session, which is a very good showing. Sunday there was a very large attendance, there being a great delegation from Salem. The sermons and discussions are unusually interesting, and the meeting promises to be one of the best and biggest ever held in Turner. Many people from Dallas are preparing to attend the big meeting.
The young people are looking forward with pleasant anticipation to the dance to be held at Woodman Hall tonight, and a large attendance of dancers and spectators is assured. Manager Stockwell has secured an eight-piece orchestra for the occasion, to be led by one of Portland's best violinists. The floor will be managed by F. J. Craven and W. J. Kaerth, of Dallas; Moss Walker, of Independence, and Walter Williams, of Falls City. All pioneers will be admitted free, and are cordially invited to attend and enjoy the music.
Establish Sales Agency.
Leading lumbermen of Portland and the Willamette Valley are planning to organize a joint selling agency, which will materially reduce the expense of marketing their product and at the same time will eliminate a large number of middle-men. It is anticipated that a dozen or more mills will enter this agreement, there being plants with a combined daily output of something like 2,000,000 feet which are in favor of so doing. The local agency will probably not be established before the Fall market begins to pick up and business gets brisker in the consuming territories of the East and Middle West.

Twelve Cent Contracts Filed.
The first 12 cent hop contracts that have been filed in Polk county this season were left with County Clerk E. M. Smith for recording Wednesday. They were drawn up between A. M. McLaughlin, of Independence, and Hugo V. Loewie, of New York, and call for 15,000 pounds of hops a year, from the crops of 1910, '11 and '12. The date of the contracts is June 8, 1909. All other contracts that have been filed here this year were drawn up either last season or in the first two months of the present year and in none of them does the price offered exceed 11 cents, more frequently being between 10 and 11 cents. Another feature of difference on this later contract is the fact that it is the first one that has yet been filed in Polk county, binding hops of the 1912 crop.

Eakin, Mayor of said City of Dallas, hereby grant permission for the use of fire works and fire crackers immediately after the parade in said City on the morning of July 2, and after the parade on July 3. H. C. EAKIN, Mayor.

This train will leave Black Rock at 8:20 a. m., and Falls City at 8:30 a. m. Returning it will leave Dallas at 10:05 p. m. This will give the excursionists an opportunity to witness the big display of fireworks at night.

YOUR SITTING ROOM LIGHT

It is bright enough and well distributed enough to allow the whole family to read or work in any part of the room in comfort. Is it a vertical burner that wastes its best brilliancy on the ceiling? The Angle Lamp throws its light down upon your book or table. It is oil lighting at its best, with the smoke, smell, and bother of ordinary lamps eliminated by new methods. Yet it is fully one-half cheaper to burn than even the ordinary lamps.

The ANGLE LAMP
resembles a handsome gas chandelier in appearance and is a perfect substitute for gas in operating convenience. It is lighted and extinguished like gas. It may be turned up full or turned low without odor. Safely filled while burning. Requires filling but once or twice a week. Floods every corner of a room, floor and ceiling, with a splendid light. Call and see it or write for catalog.
