COUNTY WILL RESIST

RIGHT OF CITY TO CONTROL ROAD TAX DENIED BY COURT.

Will Repair Tannery Bridge at Own Expense—Special Charter Election Called for September 19.

That the County Court of Polk County does not admit nor recognize the legality of the recent vote by which Dallas was made a separate road district was plainly evidenced by a report submitted by Councilman Ayres at the meeting of the city council last night.

Councilman Ayres had been appointed to confer with the court concerning certain needed repairs on the La Creole county bridge near the tannery. The court informed the councilman that it would make the repairs at the county's expense and place the structure in safe condition for travel. The court contends that the city has not the right, under the recent vote, to remove itself from the jurisdiction of the county in the levying, collecting and expenditure of road money. The issue now being clearly drawn between the city and county, it seems certain that unless one or the other recedes from its position, the question will have to be settled by a higher authority.

Streets Claim Attention.

Councilman Fenton reported that he had interviewed T. J. Cherrington and Mrs. John E. Smith concerning the building of cement walks in front of their respective lots on Main street, and that both had expressed a willingness to make the improvement as soon as material and workmen could be secured.

A request from Mrs. H. L. Venzie that the name of Levens avenue in North Dallas be changed to Lyle avenue was laid on the table, to be given consideration later.

A deed to a strip of property in South Dallas for street purposes, given by S. B. Taylor, was accepted.

Ordinance to Amend Charter.

An ordinance to amend the charter of the city and calling for a special election was read first time. The purpose of this ordinance is to give the city power to order the improvement of all ditches, canals and mill races within the city limits, the expense of such improvements to be borne by the owners of such races or ditches. The proposed amendment will be submitted to the voters at a special election to be held September 19, 1910.

An ordinance to license meat peddlers was read second time and laid on the table.

A warrant for $240 to pay accrued interest on the water bonds, and a warrant for $25 for interest on the City Hall bonds, were ordered drawn.

NO CHANGE IN BOARD

Voters of Dallas School District Re-Elect Old Officers.

Hon. U. S. Loughary was re-elected director and H. G. Campbell, clerk, at the annual school meeting held in Dallas yesterday afternoon. Both officers were elected without opposition.

The annual report of the clerk showed the finances of the district to be in a healthy condition.

The small attendance at the annual meeting yesterday indicates that the voters of the district are satisfied with the present administration and that no change of officers is desired.

Farmers Enjoy Picnic.

A large crowd attended the Farmer's Picnic at Shady Lane last Saturday and thoroughly enjoyed every feature of the excellent program. The morning was devoted to musical and literary exercises, and the afternoon was given over to athletic sports. The grounds at Shady Lane are ideal for picnic purposes, and every year sees a larger attendance at the picnic.

MAY CONSIGN WOOL

Western Growers Not Inclined to Accept Low Prices Offered.

The local wool dealers are not taking hold freely of the Western Oregon product now, as they find it almost impossible to interest the eastern trade in Valley grades, says the Oregonian. The largest deal that has gone through recently was reported in the local market yesterday, the transfer of the pool at Scio to the Salem mills. There were 4000 fleeces or about 30,000 pounds in the pool, and the price paid was said by local dealers to be 20 cents. The Scio wools are among the best produced in the Willamette Valley. The Portland trade has been making offers of 18 cents for fine and 16 cents for coarse Valley grades.

In Eastern Oregon the disposition of the growers is still to hold back, because of the low prices bid at the various sales, and it is now certain that a large portion of the clip will be shipped East on consignment. New wools are reaching Boston on consignment also from Utah, Wyoming and New Mexico. Throughout the Western states, as in Oregon, the Eastern mill men have operated more freely than the Eastern merchants.

In Montana, where shearing is now under way, the disposition of the flockmasters is to hold their wools until they get their own prices, or consign the clips East.

Republican Primaries Tomorrow.

Notices of the Republican primaries, to be held tomorrow afternoon, have been posted in every precinct in the county. The county assembly will be held in Dallas on Saturday of this week. The county assembly will elect 29 delegates to the state assembly and will recommend candidates to be voted for at the regular primary election to be held in September. In no precinct in the county has any disposition been shown to "slate" the delegations, and every Republican will be given an opportunity to make his wants and wishes known. Primaries in some of the southern precincts will be held at night, on account of the race meeting at Independence in the afternoon.

Will Return for Vacation.

Dean Collins, a former editor of the Observer, will graduate from the University of Oregon this week and will spend his summer vacation in Dallas. He will receive his diploma from the English department, having devoted a year to the study of the language. Instead of writing a dry, long-winded oration on the "Art of Thomas Hardy," or "The Ethical Teaching of Carlyle," Dean's thesis for graduation was the libretto for a musical comedy, entitled "The Prof. and the Soph." His practical and original composition has been recommended for special honor by the faculty.

ARE SHORT OF MONEY

DIRECTORS CHANGE PLAN FOR HIGH SCHOOL BUILDING.

Will Leave Basement and Second Story Partially Unfinished, Completing Only First Story.

While no contract has been entered into for the building of the new High School, the board has reached an agreement with Contractor Oscar Holmes whereby the work is to be done for $29,400.

The board does not deem it advisable to enter into a contract before the bonds are accepted by the buyers and the money is actually paid into the district treasury. A favorable report on the validity of the bonds is expected daily, and, immediately upon its receipt, it is altogether likely that the bid of Mr. Holmes will be accepted.

Mr. Holmes' first bid was $35,950. This was the lowest bid submitted for the construction of the building according to the Morrison plans. As the board had only $37,000 on hand after paying for the lot, and as something like $4500 for heating and plumbing would have to be added to Mr. Holmes' bid, the board found that it would not be able to keep the cost of the building and grounds within the $40,000 limit, and all bids were rejected.

Offers Amended Bid.

Finding itself facing the alternative of altering the plans and specifications or of abandoning the improvement altogether, the board immediately decided to ascertain what could be done with the money at its disposal. After going into the matter very thoroughly with Mr. Holmes, it was found that by leaving the basement and second story of the building partially unfinished, the work could be done for $29,400. The board thereupon agreed with Mr. Holmes to award him the contract at that figure immediately upon the acceptance of the bonds by the buyers.

Under the provisions of the revised bid, the outside walls and roof of the building are to be finished according to the original plans. The first story is to be completed ready for use, and the basement is to be partially finished. The halls, toilet rooms and engine room in the basement are to be provided with concrete floors, but no concrete is to be used in the floor of the gymnasium.

No work will be done on the interior of the school rooms on the second floor this year. Neither will the auditorium be available for use. The only work that will be done on the second floor will be the finishing of the halls and corridors and the hanging of the doors of the various rooms.

Neither will it be possible to place an asbestos roof on the building, as called for in the plans, unless as much as $400 shall be added to the contract price. In case this amount is not added, an iron roof will be put on.

It will be noted that only one story of the building is to be completely finished this year, and that only such rooms as are actually needed will be fitted up in the basement. The directors say that the building, even in its partially finished condition, will be sufficient for all purposes during the coming school year. Therefore, rather than to abandon the work altogether, they deem it best to build with the money at their disposal, leaving the unfinished rooms to be fitted up as needed in the years to come.
