## CAMPBELL'S STORE

## The Common Housefly

is now the justly deserving object of a national campaign in the interest of the public health. Flies carry filth and disease germs wherever they go. We are sincerely glad that we are able to co-operate effectively in the fight against the housefly. Flies and Electric Fans do not agree. Flies cannot alight in a breeze and it is a simple thing to keep your kitchen, your living room and the sleeping room of your child free from the contamination of these insects. One electric fan in a small household can usually be made to serve all three purposes, besides freshening and cooling the air. The new 8-inch household fan is both practical and inexpensive. Phone NORTHWESTERN CORPORATION. The real commercial spirit is to supply the needs of the public as perfectly as possible, and we make a business of satisfying our customers. Electricity is expensive only to people who are wasteful. To you, who are naturally careful, it doesn't come high. Use Tungsten lamps and have an abundance of light.

## Northwestern Corporation

J. L. WHITE, Manager for Dallas.

## FISHING SEASON
