

SOME OREGON WONDERS

Truthful Tales That Testify To The Thrift of Things.

For some time Editor David N. Mosson, of the Chamber of Commerce Bulletin, has been engaged in the collection of Oregon farm facts of what he calls "Brogliumagnan proportions," which means in his case such news matters pertaining to the raising of fruit and vegetables as are out of the ordinary, especially as to size.

He contends that Oregon has raised the largest onions, potatoes, radishes, turnips and the grain yields cannot be equaled by any other portion of the globe. He does not confine himself to the more announcement of the biggest turnip, but seeks to secure the odd circumstances of rural life and to make them known to the public at large.

Here are some of the latest wonderful things in Oregon: A woman of Portland, has nine full-blooded Buff Orpington pullets that laid 126 eggs between March 6 and March 29, an average of nine and two-fifths eggs per day.

A crop of wheat sown near Sheridan in September was harvested December 27. Sunnyside, near Milton, produced luscious strawberries for both Christmas and New Years.

Grain was looking exceedingly well in Benton County, January 14. From the quantity of wheat now in bloom in Oregon, it would not be difficult for Corvallis to hold a midwinter rose carnival. Full-blown roses and dainty buds may be seen in profusion.

A large cactus is in full bloom in Jacksonville. Eugene boasts of roses and chrysanthemums still blooming out in the open; grapes and raspberries, ripe and luscious, still on the bushes; volunteer second crop new potatoes being dug and eaten on Christmas day, with buds swelling and trees leaving color with laves as green as in the summer.

A woman picked ripe raspberries on January 4 from her garden in Lafayette. Fresh raspberries were numerous up till last week around Sheridan.

SHERIDAN PAVES STREETS

Next Enterprise of Town Will Be Building City Hall.

SHERIDAN, April 15.—The city council has voted to bond the city for paving, and the work is being pushed to the fullest in laying 14 blocks. The contract calls for the completion of the work by early summer, and when completed Sheridan will have an asphalt street in the valley. The paving is of concrete and the work is being done under G. E. Gross, a local contractor.

Bridge and Main streets will be paved entirely, and the adjoining side streets will receive a portion of the improvement. In the past three months there has been considerable adverse comment on the condition of Sheridan's main thoroughfares, and unsigned and anonymous letters in the local paper deploring the condition of the streets have awakened the citizens to action.

In addition to the big contract for paving, Sheridan is to have a new city hall.

HEN MOTHER TO SIX PIGS

Sow Converts Eggs Into Pork and Chicken Gets Revenge.

PILOT ROCK, Or., April 14.—A hen mothering a litter of six we pigs is the unusual spectacle to be witnessed on the irrigation farm of William H. Evans, just south of town. The hen had made her nest in the pigeon, filled it with eggs and started to setting before it was discovered by an old sow, who converted the eggs into pork.

Though her nest had been destroyed, the hen's mother instinct remained, so she adopted the sow's litter of pigs. During the day she followed them about, as they pay little attention to her, and follow the mother pig until evening.

Then it is that the hen calls the young porkers to her and hovers them with her wings, just as she would little chickens.

LOGAN BERRIES POPULAR

Eastern Cannery Asks Eugene Fruit-growers for Quotations.

EUGENE, April 14.—The Eugene Fruit-growers' Association has received recently a number of inquiries in regard to carload shipments of loganberries. The inquiries say that wherever the loganberries have been introduced their peculiar and novel flavor has won them immediate attention, particularly when made up into pies. Quotations are asked both for canned and dried berries.

Hitherto the market for loganberries has been restricted, owing to the fact that they are a new fruit and are not widely known. As high as ten tons to the acre has been produced on good bottom land near Eugene, and the crop at present nets the grower about 3 cents per pound.

The fruit-growers' association is planning to launch a selling campaign with loganberries as the principal item.

Park, of Salem, Reappointed.

SALEM, April 14.—After considerable discussion and listening to complaints of a number of fruit men, the State Board has reappointed C. A. Park, Salem; Judd Geer, Cove and R. H. Weber, The Dalles, as members of the State Board of Horticulture. Some fruit men had complained that Park was not as active as he might be, and was too economical with the funds of the board.

The State Board, however, decided to reappoint Park, stating that they believed it was for the best interests of all concerned. It is understood that the board felt petty jealousies were to a certain extent behind the animus of the complaints against Park.

Valley Fruit Suffers.

SALEM, April 14.—President W. K. Newell, of the state board of horticulture, who is in Salem today, says that from one-half to two-thirds of the prune crop of the Willamette Valley was killed by frost last night, and the night before, and that the cherry crop is damaged to a great extent throughout the valley. The temperature here reported by fruit men to have been 27 degrees Fahrenheit, five degrees below the freezing point. Some districts where the frost was especially heavy report the entire prune crop gone and more than half the cherry crop.

TAKE IT IN TIME

Just as Scores of Dallas People Have. Waiting does not pay. If you neglect the aching back, Urinary troubles, diabetes surely follow.

Doan's Kidney Pills relieve back-ache. Cure every kidney ill. Many people in this locality recommend Doan's Kidney Pills. Here's one case:

Z. Rosendorf, Front St., Independence, Ore., says: "I do not believe there is a man in this county who has suffered as severely with kidney disease as I during the past ten years. I had acute pains throughout my body and often my back was so weak and stiff that I could not stoop. My kidneys were also disordered and too frequent passages of the kidney secretion caused me to arise many times at night. My limbs became badly swollen and there was a puffiness beneath my eyes. I doctored a great deal but did not receive relief until I began using Doan's Kidney Pills. I felt better from the first and I continued taking them until every symptom of kidney trouble had disappeared. I firmly believe that Doan's Kidney Pills saved my life and for that reason I cannot praise them too highly."

The above statement was given on Sept. 7, 1907, and on Dec. 9, 1909, Mr. Rosendorf said: "I have not had any trouble since I began using Doan's Kidney Pills two years ago. I still hold good. I am glad to give Doan's Kidney Pills my endorsement."
