### TO OPEN VAST EMPIRE

State Will Campaign For Government Aid For Umatilla Irrigation Project is Begun.

Portland, Dec. 19.—(Special)—A state-wide campaign will be started by commercial organizations of Oregon to get recognition from the Government to which the state is entitled in the distribution of reclamation funds. This movement will be along the line adopted by the Pendleton Commercial association at its recent meeting in indorsing the west extension of the Umatilla project.

C. C. Chapman, secretary of the Oregon Development league, who attended the Pendleton meeting, believes the campaign will succeed. He finds the prospects exceedingly favorable for the president to make the allotment to Oregon for the Umatilla project, now that the people of Pendleton and the surrounding country have gone on record favoring the extension.

#### Much Opposition.

"There was much opposition at the Pendleton meeting," said Secretary Chapman, "based on fears that it would work a hardship on settlers and land-owners of Umatilla county. In spite of this opposition, the proposition was indorsed on its merits and steps will be taken to secure recognition of claims of settlers who may feel themselves damaged. In the face of this feeling of private interests, Pendleton business men indorsed the extension, believing it would be of benefit to Oregon."

"The extension will open up 60,000 acres, sustaining a population of from 20,000 to 50,000 people. The land will be adapted to diversified farming, intensive agriculture and fruit growing.

#### Individual Aid Asked.

"Commercial organizations of the state will adopt resolutions calling for Oregon's share of reclamation funds and now is the time for everyone to write to the president asking for a fair apportionment. Six other states have had 350 per cent of their contributions from the sale of lands returned to them for reclamation work, while Oregon has had but 18 per cent. I cannot but think that a popular demand upon the president will be of great influence in securing his favorable consideration."

### VALUABLE MARBLE DEPOSIT

Great Quantities Recently Discovered in Eastern Oregon.

Pendleton, Or., Dec. 19.—Native black marble in great quantities has been discovered in Wallowa county. This promises to be a valuable asset of that section of the state. Present supplies of black marble come from Belgium and Alaska and the new find will undoubtedly supplant the product of these two places, since freight is such a big item in the handling of this heavy stone.

If you are troubled with chronic constipation, the mild and gentle effect of Chamberlain's Tablets makes them especially suited to your case. For sale by all dealers.

### "BEST, THE WORLD OVER"

McMinnville Publication Praises Dallas Basket Ballers.

The college basketball team, composed of Messrs. Pettit, Culver, Simpson, Brace and Miller, went to Dallas Friday night and engaged that professional team that traveled all over the country a couple of years ago plucking laurels from every bush. They scarcely expected a "look in" but were well pleased at the end of the scrimmage to find the score standing 16 to 51. There is probably no better team the world over than the one at Dallas.—Telephone-Register.

### CHEMISTRY OF GOOD ROADS

First Course in the World Now Offered at College.

Corvallis, Dec. 19.—The first course in highway chemistry that has ever been offered in any college in the world has just been announced at the Oregon Agricultural College. Professor John Fulton of the chemistry department has taken this step as a result of the increased demand for good roads. The course includes both physical and chemical tests of tars, bituminous products, asphalts, and all mixtures such as sands, gravels, rocks, and other ingredients of the modern highway. Concrete testing and tests of the chemical changes in all these substances by exposure and weather will form an important part of the work, as will also the chemical study of surface protection, such as various oils.

### NEW CHAPTER OFFICERS

Local Royal Arch Masons Hold Annual Election and Installation Friday Night.

The annual selection of officers of Ainsworth Chapter, No. 17, Royal Arch Masons, was held in Masonic Hall last Friday night, and was followed by installation, the ceremony being conducted by Deputy Grand High Priest Oscar Hayter, of the Grand Lodge of Oregon. The new officers of the chapter are:

- E. H. P.—Dr. Mark Hayter.
- King—W. L. Soehren.
- Scribe—A. B. Muir.
- Secretary—U. S. Grant.
- Treasurer—R. E. Williams.
- C. of H.—Oscar Hayter.
- P. S.—Conrad Stafrin.
- R. A. C.—Ross Winslow.
- M. 3d V.—Fonso Manston.
- M. 2d V.—T. T. Notson.
- M. 1st V.—Carl B. Williams.
- Sentinel—D. S. McDonald.

### DESIGNS AN ELECTRIC OVEN

Horticulture Expert Plans Valuable Apparatus.

Corvallis, Dec. 19.—E. J. Kraus, of the research department of the Oregon Agricultural College Experiment Station has designed a new electrically heated oven to be used in his horticultural work. It was built by Bausch & Lomb, in Rochester, New York, and is a valuable apparatus which will increase the facilities of the laboratory greatly. The division of horticulture has also added other new apparatus for use in the coming short course, which opens January 3, notably a fine convertible balopticon to be used in illustrating the lectures.

### FIX ROSE FESTIVAL DATES

Management Plans For Event on Larger Scale Than Formerly.

Portland, Dec. 19.—Dates for Portland's next annual Rose Festival have been fixed for the week of June 10-15. Plans for the event have been taken up and the management will prepare for a fiesta on a bigger scale than ever before. Next year's Festival will be advertised very widely.
