OLIVER

HERE is the biggest plow
sensation in forty
years.

Different sizes and kinds of bases of all kinds
are made for the No. 1 Gang to suit the most
exacting requirements.

This metal is harder than steel and takes a higher polish. Grit won't
cut it, and it does not corrode. No more wearing holes through your
mouldboards as you do now when using steel. It lasts three times as
long as steel—a wonderful economy. The long shapely mouldboard
turns the soil perfectly—any soil—hard ground or soft, and always with
the very least friction and consequent lighter draft.

The center draft insures absolute freedom from side draft. The two
and a half inch adjustment in the caster and furrow wheel axles provides
for keeping the plow bolted up close and firm at all times—no rattling
loose and getting shaky. Just the plow for very difficult, hard ground
plowing.

There are lots of other good features, too, that we can't tell you about
here—but come into our store and let us tell you about them. We are
ready when you are.

THE BIG DEMAND
for "Oregon's Best" flour is due solely
to its many fine qualities. We
could tell of how much better bread,
etc., it bakes, how much farther it
goes and a lot of other things in its
praise. But we refrain knowing that
the trial of a single sack will be a
better advertisement for "Oregon's
Best" flour than any we could write.

"I am Very Much Pleased With My Investment"

Mr. Louis Schlesinger is the proprietor of a prosperous men's fur-
nishing store in San Diego, California. The quotation above is what
he thinks of electric advertising.

"I purchased a double-faced electric sign about a year
ago" writes this merchant. I wish to say that I have nev-
er spent a sum of money for advertising which has brought
me the business that this sign has.

"It not only serves as a sign, and a source of illumina-
tion of the entire front of my store at night, but it is a
clear and readable sign by day.

"I am very much pleased with my investment and the
publicity I have received through it. I would certainly ad-
vise anyone looking for a live means of advertising to in-
vest in an electric sign."

Do you know of our very liberal two-years-to-pay sign proposi-
tion? A representative will call and explain at your request.
