excursion with the Bates' party from Portland. He said that citizens of Independence had subscribed \$100, that the Commercial club of that city had contributed \$32, that residents of Spring Valley vicinity had assisted to a certain extent, and that Dallas people had furnished the balance of the \$300 necessary to send the representative. She had been given literature from Independence and Dallas and would represent all sections of Polk county.

The report of the Financial Secretary showed a balance on hand of \$908.75 on June 5. Manager C. W. Minnich, of the Adjustable Electric Socket company reported that he had an option on a site and hoped to begin construction of his factory today. The matter of arranging with the company for the payment of the Commercial club's donation toward the site, was left with the committee on manufactures with power to act.

A. V. R. Snyder, C. L. Hubbard and F. C. Meyer were admitted as members of the club. The financial secretary was authorized to make weekly collections from the business men for the Saturday night band concerts. Other matters in connection with these concerts were left to the amusement committee.

SERVE HARD TIMES MEALS

Girls of Cooking Classes Serve Delicious Things for Little.

Oregon Agricultural College, Corvallis, June 6.—In honor of Dr. C. H. Lane of the U. S. Department of Agriculture, visiting the Oregon Agricultural college, the girls of the senior class in domestic science planned and cooked and served a delicious luncheon, the entire cost of which for six people, was but \$2.00. It was one of their famous series of "economy" meals.

The menu included a fruit cocktail, creamed peas, lamb chops, rolls, rice, potatoes, asparagus, a salad of cucumbers, radishes, pimientos and nuts in little boats made by hollowing out the cucumbers, with mayonnaise dressing, a lemon sherbet, cheese straws and strawberry shortcake.

Besides Dr. Lane there were present Dean A. B. Cordley of the school of agriculture; Prof. R. D. Hetzel, director of extension; Professor H. D. Scudder, head of the agronomy department; Professor A. G. H. Boquet, vegetable gardening expert; and Professor E. D. Resler, director of the summer session.

At the same time another group of seniors served a luncheon to eight of the faculty women, costing but 15 cents a plate. They gave the guests a fruit cocktail, creamed peas and shrimps, rolls, rice, potatoes, asparagus, cucumber and radish salad, a lemon ice with ginger nuts and coffee.

After first having refused the Peninsula Rosarians the use of five hats for a general distribution of roses during the rose festival in Portland, officials of the Portland Railway, Light and Power company reconsidered the matter, and have agreed to give the boosters the use of an electric locomotive and five cars. From this train roses will be "showered" over the principal streets.

"THE TIME IS COMING WHEN THE ELECTRIC MOTOR WILL MOVE THE WORLD"

SAID THOMAS A. EDISON RECENTLY

Certain types of engines have more than 200 reciprocating parts. The electric motor has but one moving or revolving part. Many of the prosperous factories of the state are operated today with electricity served from central generating station. Central station electric power increases output and saves cost. Our power engineers will make careful investigations of power problems and render dependable, scientific reports, without charge.
