WITH ARNOLD CARNIVAL CO.

The Famous Owens Glass Blowers at the Polk Fair.

Perhaps the most interesting and instructive entertainment with the Carnival this week is that of the Owens expert glass blowers. The Owens are conceded to be the best in this profession in the United States; they have been in the business for 36 consecutive years, and are now rounding out their fourth season with Mr. E. J. Arnold.

They guarantee a high class exhibition, consisting of glass blowing, spinning and weaving. They make glass dresses, glass bonnets, pin cushions, neckties, etc. A special feature of this unique exhibition is the big glass steam engine, composed of over 2000 pieces of colored glass, in full working operation, producing a most beautiful spectacle. Instructive lectures on natural philosophy, including the water hammer and pneumatic balloon, or Cartesian diver, everything made by the troupe is given away. Each visitor receives a glass present free.

All Bowel Trouble
Is relieved almost instantly by using Dr. Bell's Anti Pain. It destroys disease germs and stops inflammation. Keep a bottle in the house. Sold by Conrad Stafrin.

Klamath Herald: If the demand in Klamath Falls was great enough, an acre of ground in the immediate vicinity of this city would produce sufficient lettuce at the prevailing price even in San Francisco or Portland, to average \$1,000. This is the estimate made by Elmer Applegate who is rated an authority on the subject.

After Shaving
use Dr. Bell's Antiseptic Salve. It will prevent the face getting sore. It destroys germs and prevents contracting any disease. 15c; sold by Conrad Stafrin.

PRESIDENT TAFT'S SPLENDID RECORD

SOME OF THE ACHIEVEMENTS OF HIS ADMINISTRATION PRESENTED.

GREAT WORK HAS BEEN DONE

More Prosecution of Trusts and More Social Reforms Secured Than Under Any Previous President.

"He has met every crisis that has arisen during his administration with firmness and resolution. The bluff and bluster of political enemies have not made him flinch an iota from his determination to do that which he believed to be for the general welfare of all classes of people in this republic."—Representative Kahn of California, in an address reviewing President Taft's Administration.

The record of President Taft's administration is one of splendid achievement.

His administration has broken all records for prosecutions brought and won under the Sherman anti-trust law. Without fear or favor it has brought to the bar of justice corporations and persons engaging in illegal combinations in restraint of trade, the ultimate purpose of each combination being to create a monopoly and to raise the prices on its products. In two years and eleven months of his administration President Taft caused to be instituted twenty-two civil suits and forty criminal suits against illegal trusts. Roosevelt, in the seven and a half years of his presidency, only instituted forty four suits against illegal combinations.

Under President Taft's administration the great Sugar trust frauds were unearthed resulting in the forced restitution of millions of dollars into the national treasury. These frauds, which were based upon the bribery of customs officials to dishonestly value imports of sugar were in progress during the last administration, but were not detected until Taft became president.

Corporation Tax.

President Taft suggested and secured the enactment of a law imposing a tax upon corporations which adds \$30,000,000 annually to the revenues of the government.

He advocated and approved the law establishing postal saving banks. These banks are now the depositories of many millions of dollars and afford to people of small means in remote localities an easy and safe method of accumulating money.

Under his direction there has been an investigation of the excessive and unfair charges of the express companies and a complete rearrangement of rates ordered.

Railroads have been prevented from putting rate increases into effect without the approval of the interstate commerce commission. While this legislation was pending an effort was made by certain trunk lines to increase rates. A temporary injunction was immediately obtained by the attorney general, and by agreement with the railroad presidents they did not put the increases into effect but waited for the enactment of the law. They then applied to the interstate commerce commission for permission, under the new law, to make the increase, but their application was denied by the commission. The railroads denounced the president and his attorney general for the stand they took in protecting the rights of the shippers.

Other Reforms Accomplished.
The white slave traffic has been vigorously and effectively attacked, and severe punishment has been meted out to those engaged in the nefarious business.

A bureau of mines has been established, so as to safeguard the lives of miners. President Taft personally attended a demonstration of the methods employed to rescue miners and has done everything in his power to give efficiency to this new bureau.

Another great social reform which President Taft advocated and which

received his hearty approval when the law was passed concerns the investigation of child labor conditions by the government. President Taft selected a woman to manage the bureau which is conducting the inquiry in order that there might be a sympathetic and thorough administration of the law.

Under President Taft's administration the Panama canal will be completed ahead of time, without a taint of graft. President Taft has made several visits to the isthmus in order to personally assure himself that the work was being prosecuted honestly and vigorously.

An income tax amendment to the federal constitution has been submitted to the states and now lacks only the affirmative action of the legislatures of three or four additional states to become a part of the fundamental law of the land.

Tariff Revised Downward.

The tariff has been revised downward. Under the Payne tariff law, approved by President Taft, the list of articles admitted duty free was increased, while the average rates of duty upon all dutiable articles was decreased. No American industry has been crippled and not one American workman has been thrown out of employment by reason of its enactment. Believing that the schedules might be still further revised, President Taft created the tariff board, an organization of experts, who dealt with the tariff problem from a business point of view and who suggested further changes. The Democratic house of representatives ignored these well-considered recommendations and also legislated the tariff board out of existence. The tariff bills vetoed by President Taft were framed by a committee of fourteen Democrats, eleven of whom are lawyers and the other three have had no business experience.

President Taft has enforced the employer's liability act and approved the extension of its provisions so that employees of railroad carriers may bring suits in any district in which the defendant was doing business at the time of the commencement of the action.

These are a few—and only a few—of the great achievements of President Taft's administration. It is a record unequalled by any president, and the work has all been done without self-glorification and in a modest and effective way.

Make Your Household Improvements Thorough This Fall

Electric wiring can be done at no better time than just before houses are newly papered and decorated.

Although the wiring of houses already built is now handled cleanly and without confusion to the household, the two go well together and the combined result will be most satisfactory.

A newly decorated and electrically equipped home will have great additional charm for those who live in it and those who come to call. The sunlight "brilliance" of electric light brightens the dark corners and adds attractiveness in a dozen ways.

The tungsten (Mazda) lamps consume so little current that electric lighting in the home is possible for the most modest income.

Below are listed reputable electrical contractors who are willing to price their work on close margins this fall.

Our representatives will gladly design your wiring and equipment without charge, and endeavor to make sure that the job is economical and efficient.
