### CIVIC DUTIES VS. THE POLITICAL GAME.

Ida M. Tarbell says one of her chief objections to woman suffrage is that it will take the attention of women from what I believe to be their real civic duties by interesting them in the political game, when they should be concentrating their attention on specific civic work.

All right minded women want this work done, but they differ as to the method. The suffragist thinks the ballot the panacea for all ills of society. The anti-suffragist believes that the constant and effective influence now exerted by women on legislation and public affairs is due to the character and intelligence of the women who advocate good causes.

A woman now interested in a matter of public welfare is known to be unselfish and to have only the interest of her cause at heart. The same woman under woman suffrage is only one of many political units, with ignorant and indifferent women voters added to the other elements arrayed against her success.

A few women today are idealizing the ballot, while what will really solve juvenile delinquency, intemperance, the white slave traffic, and the social evil is education, education and more education in the homes and from the earliest hour of childhood, and therein lies the civic duty of women, bigger than the casting of any ballot, and absorbing enough to occupy all the women of Oregon for all time.

It is to keep the women of this State out of the "political game" and leave them free for this greatest of all their duties that we ask you to vote against the woman suffrage amendment at the coming election.

Within a 15 mile circle around IMPERIAL there are now several hundred prosperous farmers raising enormous crops of wheat, rye, barley, oats, potatoes, vegetables, etc. Three large stock ranches, owning several thousand horses and cattle are also in this circle. Poultry raising is also highly successful.

IMPERIAL is now the trading point and will soon be the shipping point, as the railroads are now building for the products from thousands of acres surrounding it.
